

# ALLSORTS AT HOME

## String Art

You can make all sorts of cool designs with coloured string or wool. Hang them on your wall or give your creations as a gift.

### You will need:

- Coloured string or wool
- Pins with coloured heads
- Coloured felt
- Cork square or foam
- Frame or balsa wood backing
- Glue and scissors

### Method:

- Glue the felt to the foam or cork square and glue this to your frame or balsa wood.
- Place pins in the shape of your preferred design – it can be a letter, maybe your first initial, a number, a shape like a star or moon.
- Take a long piece of string and tie one end to one of the pins, then crisscross the string back and forth around your pins.
- You may need to tie another piece of string to the one that you have if you run out.
- You can do a few layers if you like or just one, use different colours or be creative however you like!

You can find simple templates at tutorials on the internet or you can design your own!
