Oct. 2025

50%  
of Small  
Business  
contributions  
can be In-kind

## Overview

**We want to make Latrobe City a truly inclusive destination that everyone can enjoy.**

We know that in tourism, people with disabilities – and those with other access needs are sometimes left behind.

These grants will change that in the Latrobe City area.

The Universal Tourism Grants (UTG) will enable Small Businesses and Not For Profits to make their experiences more inclusive by funding upgrades and improvements that will allow operators to welcome everyone.

## Benefits for all

By removing physical, sensory, and communication barriers, it promotes inclusivity and enhances the overall visitor experience. This approach benefits the community by fostering social equity, boosting local economies through increased tourism, and creating more welcoming public spaces.

## Project Ideas

Universal design makes things easy for everyone to use. Some examples in tourism include:

- Tactile, accessible signage and way-finding
- Installation of step-free access to buildings/ experiences
- A visitor audio guide
- Staff training in Access and Inclusion
- Installation or upgrade of accessible toilet facilities

**There are many more project that could make your Small Business more inclusive.**

## Getting assistance

For grant enquiries, including assistance and support available to help you submit your application, please contact the Sports Legacy & Activation Team on **1300 367 700** or at [utg@latrobe.vic.gov.au](mailto:utg@latrobe.vic.gov.au).
