The Recognition of Traditional Landholders was read by the Mayor.

3. APOLOGIES AND LEAVE OF ABSENCE

NIL

4. DECLARATION OF CONFLICT OF INTEREST

MOTION

That Council note that Cr Harriman has declared a Conflict of Interest under section 78B of the Local Government Act 1989 in relation to the Moe Activity Centre Plan and Moe Rail Revitalisation Project review and that he be excluded from any further debate on this issue.

Moved: Cr O'Callaghan Seconded: Cr Gibson

That the Recommendation be adopted.

CARRIED UNANIMOUSLY

Cr Harriman declared an indirect interest under section 78B of the Local Government Act 1989 in relation to item 9.3 Petition – Request to build a roundabout at the intersection of Market Street and Albert Street, Moe.

Cr Kam declared an indirect interest under section 78 & 78A of the Local Government Act 1989 in relation to item 9.3 Petition – Request to build a roundabout at the intersection of Market Street and Albert Street, Moe.

Cr Kam declared an indirect interest under section 78 & 78A of the Local Government Act 1989 in relation to item 11.1 Petition to Implement the moe rail precinct revitalisation project master plan and actively seek funding from both state and federal governments to ensure completion of the project.

5. ADOPTION OF MINUTES

RECOMMENDATION

That the minutes of the Ordinary Council Meeting held on 4 February 2013 and Special Council Meeting held on 11 February 2013 be confirmed.

Moved: Cr Gibson
Seconded: Cr O'Callaghan

That the Recommendation be adopted.

CARRIED UNANIMOUSLY

Mr Paul Buckley, Chief Executive Officer, made a public apology to Cr Sindt regarding a letter addressed to the Chief Executive Officer and Councillors.

Mr Buckley apologised for stating that a letter discussed during a debate regarding the Gippsland Regional Aquatic Centre at the Council meeting on Monday, 4 February 2013 was not addressed to him. Mr Buckley advised that the letter was addressed to him and copied to all Councillors and apologised for this incorrect statement.

6. PUBLIC QUESTION TIME

Suspension of Standing Orders

Moved: Cr Gibson Seconded: Cr Gibbons

CARRIED UNANIMOUSLY

Standing Orders were suspended at 5.34 pm

Mr Gino Tripodi addressed Council in relation to item 9.2 Proposed Road Discontinuance or Road Barrier – Deakin Lane, Traralgon.

PROCEDURAL MOTION

11.1 PETITION TO IMPLEMENT THE MOE RAIL PRECINCT REVITALISATION PROJECT MASTER PLAN AND ACTIVELY SEEK FUNDING FROM BOTH STATE AND FEDERAL GOVERNMENTS TO ENSURE COMPLETION OF THE PROJECT.

General Manager

Recreation, Culture & Community Infrastructure

For Decision

PURPOSE

The purpose of this report is to present Council with a petition received requesting the Moe Rail Precinct Revitalisation Project Master Plan be implemented immediately and that Council actively seek funding from both state and federal governments to ensure the completion of the project in a timely manner.

DECLARATION OF INTEREST

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

STRATEGIC FRAMEWORK

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives - Built Environment

In 2026, Latrobe Valley benefits from a well planned built environment that is complementary to its surrounds and which provides for a connected and inclusive community.

Latrobe City Council Plan 2012 - 2016

<u>Shaping Our Future</u> Gippsland's Regional City Strengthening our profile

An active connected and caring community Supporting all

Attract, retain, support Enhancing opportunity, learning and lifestyles

Strategic Direction - Built Environment

- Integrate transit cities principles in the development of Moe, Morwell and Traralgon activity centres.
- Develop high quality community facilities that encourage access and use by the community.

- Ensure proposed developments enhance the liveability of Latrobe City, and provide for a more sustainable community.
- Promote and support high quality urban design within the built environment.
- Promote the integration of roads, cycling paths and footpaths with public transport options and public open space networks to facilitate passive recreation and enhance the liveability and connection of Latrobe City.
- Promote and support private and public sector investment in the development of key infrastructure within the municipality.

Major Initiatives – Built Environment

Pursue government funding opportunities to progress construction of the Moe Rail Precinct Revitalisation Project in accordance with the Moe Activity Centre Plan.

Strategy - Built Environment

- Moe Activity Centre Plan
- Moe Rail Precinct Revitalisation Project: Master Plan

Key Strategic Actions

Pursue government funding opportunities to progress construction of the Moe Rail Precinct Revitalisation Project in accordance with the Moe Activity Centre Plan.

BACKGROUND

The petition (Attachment 1) was received on Monday 4 February, 2013, and contains 6,644 signatures.

The petition seeks the Moe Rail Precinct Revitalisation Project Master Plan to be implemented immediately and that Council actively seeks funding from both state and federal governments to ensure the completion of the project in a timely manner.

ISSUES

Latrobe City Council adopted the Moe Activity Centre Plan (MACP) in December 2007. The MACP contains seven individual projects that have been designed to drive the urban revitalisation of the Moe Activity Centre.

The seven projects are:

- 1. Moe Train Station Precinct
- 2. Integrated Bus Loop & Street Upgrades
- 3. Moore Street Shared Zone
- 4. Clifton Street Car Park
- 5. Hasthorpe Place Precinct
- 6. Roundabout Overpass
- 7. Southern Precinct Housing

In order to undertake a whole of precinct approach to the future development of Moe, a number of the projects have been combined to create the Moe Rail Precinct Revitalisation Project (MRPRP). The projects combined include:

- Project 1 Moe Train Station Precinct
- Project 2 Integrated Bus Loop and Street Upgrades
- Project 3 Moore Street Shared Zone, and,
- Project 6 Roundabout Overpass

Latrobe City Council adopted the Moe Rail Precinct Revitalisation Project: Master Plan in December 2009. In May 2011, Council adopted the concept design of the Moe Rail Precinct Revitalisation Project and launched the design to the community and stakeholders in June 2011.

At the Ordinary Council Meeting on Monday, 17 December 2012, Council resolved:

That the Moe Railway Revitalisation Project – Moe Activity Centre Plan (MRPRP – MACP) be brought back to Council for a full review and that no further works be commenced, external funding sought and/or Council funding allocated until such time as Council completes the review, with the exception of those projects already approved by Council and funded, namely the underground placement of powerlines, construction of public toilets and the clocktower.

Subsequently, at the 17 December 2012 Ordinary Meeting Council also resolved:

- 1. That Council endorses the following review process for the MRPRP-MACP project. That Council:
 - Identify realistic funding opportunities and amounts for each component of the design;
 - Reviews each component of the MRPRP-MACP project design not yet undertaken and/or funded with regard to availability of funding and previous council submissions;
 - Review all previously received written public submissions made to Council on the MACP and MRPRP, including petitions:
 - Review the project design with reference to the Department of Transport's current 'Guidelines for Land Use and Development', and any plans involving transport which may affect the Moe railway corridor that have developed since adoption of the MRPRP-MACP Masterplan in 2009, and any finalised reports commissioned by Council and the State Government about road and rail traffic in and around Moe:

- Undertake meetings in February 2013 between Councillors and Council officers with the previous public submitters to the MRPRP-MACP, and MACP written submission processes to discuss their respective submission/s.
- 2. That a report be brought back to a future Council meeting no later than the second Council meeting in March, 2013.

A report was presented to the Ordinary Council Meeting on Monday, 4 February 2013 to identify all previous submissions made to Council on the MACP and MRPRP; and present a suggested process for community members to engage with Council in relation to the Moe Activity Centre Plan and Moe Rail Precinct Revitalisation Project review during February.

At this meeting, Council resolved:

- That Council notes a copy of all previous submissions to the Moe Activity Centre Plan and Moe Rail Precinct Revitalisation Project, together with relevant petitions, has been provided to the Council for review.
- 2. That a Special Council Meeting is held for the purpose of hearing from previous submitters to the Moe Activity Centre Plan and Moe Rail Precinct Revitalisation Project and whether their views about their original submission have since changed, on Wednesday, 20 February 2013 at 5.30 pm at the Moe Town Hall.
- 3. That Council invite written submissions from previous submitters to the Moe Activity Centre Plan and Moe Rail Precinct Revitalisation Project to address whether their views about their original submission have since changed, to be received by Friday 1 March 2013 and included in the final review report for Council consideration at the Special Council Meeting to be held on Monday, 25 March 2013 at 5.30 pm at the Moe Town Hall.
- 4. That a Special Council Meeting is held for the purpose of considering the review of the Moe Activity Centre Plan and Moe Rail Precinct Revitalisation Project, on Monday, 25 March 2013 at 5.30 pm at the Moe Town Hall.

On this date, 4 February 2013 Council were presented with a petition from Mr Manny Gelagotis. The petition contains 6,644 signatures and requests that the Moe Rail Precinct Revitalisation Project Master Plan to be implemented immediately and that Council actively seeks funding from both state and federal governments to ensure the completion of the project in a timely manner.

FINANCIAL, RISK AND RESOURCES IMPLICATIONS

Risk has been considered as part of this report and it is considered to be consistent with the Risk Management Plan 2011-2014.

There are no financial or resource implications arising from this report at this point in time.

INTERNAL/EXTERNAL CONSULTATION

Engagement Method Used:

There has been no specific community engagement undertaken in the preparation of this report.

OPTIONS

Council has the following options in relation to the petition;

- Lay the petition on the table until a future Council Meeting; or
- 2. Deal with the petition at this Ordinary Council Meeting.

CONCLUSION

It is usual practice for petitions to lay on the table as per Clause 63 of Council's Local Law No.1.

It is recommended that the petition lay on the table until the 25 March 2013 Special Council Meeting, as Council has resolved to hold this Special Council Meeting for the purpose of considering the review of the Moe Activity Centre Plan and Moe Rail Precinct Revitalisation Project.

Attachments
1. Petition

RECOMMENDATION

- 1 That Council lays the petition "requesting the Moe Rail Precinct Revitalisation Project Master Plan to be implemented immediately and that Council actively seeks funding from both state and federal governments to ensure the completion of the project in a timely manner", on the table until the Special Council Meeting to be held on Monday, 25 March 2013.
- That the head petitioner be advised of Council's decision in relation to the petition "requesting the Moe Rail Precinct Revitalisation Project Master Plan to be implemented immediately and that Council actively seeks funding from both state and federal governments to ensure the completion of the project in a timely manner".

Moved: Cr Gibbons Seconded: Cr Rossiter

That the Recommendation be adopted.

CARRIED UNANIMOUSLY

Cr Harriman returned to the Chamber at 6.16pm.

11.1

Petition to implement the Moe Rail Precinct Revitalisation Project Master Plan and actively seek funding from both State and Federal Governments to ensure completion of the project.

To the Mayor and Councillors of Latrobe City Council

We, the Residents of Latrobe City request that the Moe Rail Precinct Revitalization Project
Master Plan be implemented immediately as per the resolution of Council on the 7th December
2009 and that Council actively seek funding from both State and Federal Governments to ensure the

completion of the project in a timely manner.

TO THE MAYOR AND COUNCILLORS OF LATROBE CITY COUNCIL

We, the residents of Latrobe City, request that the Moe Rail Precinct Revitalisation Project Master Plan be implemented immediately, as per the resolution of Council on the December 7th, 2009,

and that Council

actively seek funding from both State and Federal Governments

to ensure the completion of the project in a timely manner.

SAVE MOE'S FUTURE

To the Mayor and Councillors of Latrobe City Council

We, the Residents of Latrobe City request that the Moe Rail Precinct Revitalization Project Master Plan be implemented immediately as per the resolution of Council on the 7th December 2009 and that Council actively seek funding from both State and Federal Governments to ensure the completion of the project in a timely manner,

To the Mayor and Councillors of Latrobe City Council

We, the Residents of Latrobe City request that the Moe Rail Precinct Revitalization Project Master Plan be implemented immediately as per the resolution of Council on the 7th December 2009 and that Council actively seek funding from both State and Federal Governments to ensure the completion of the project in a timely manner.

#### TO THE MAYOR AND COUNCILLORS OF LATROBE CITY COUNCIL

We, the residents of Latrobe City, request that the Moe Rail Precinct Revitalisation Project Master Plan be implemented immediately, as per the resolution of Council on the December 7th, 2009,

and that Council

#### actively seek funding from both State and Federal Governments

to ensure the completion of the project in a timely manner.

#### TO THE MAYOR AND COUNCILLORS OF LATROBE CITY COUNCIL

We, the residents of Latrobe City, request that the Moe Rail Precinct Revitalisation Project Master Plan be implemented immediately, as per the resolution of Council on the December 7th, 2009,

and that Council

#### actively seek funding from both State and Federal Governments

to ensure the completion of the project in a timely manner.

To the Mayor and Councillors of Latrobe City Council

We, the Residents of Latrobe City request that the Moe Rail Precinct Revitalization Project
Master Plan be implemented immediately as per the resolution of Council on the 7th December
2009 and that Council actively seek funding from both State and Federal Governments to ensure the completion of the project in a timely manner.

WHY are Cr Gibbons and Cr Gibson sending a non-development message for Moe to State and Federal Politicians by not asking for funding?

In accepting the printing work Latrobe Valley Express Partnership, its servants, against and employees and each of them (the printer) accepts no responsibility for the content AND the customer will incleminify the printer and hold it harmless against any and every claim for which it may be liable to perly and however caused as a consequence of but not limited to the negligent acts or omissions of the customer, and for all inaccuracies and all actionable matter of any kind contained in any publication or matter, the printing of which is undertaken by the printer.

# 9.3 PETITION - REQUEST TO BUILD A ROUNDABOUT AT THE INTERSECTION OF MARKET STREET AND ALBERT STREET MOE

**General Manager** 

Recreation, Culture & Community Infrastructure

For Decision

# **PURPOSE**

The purpose of this report is to present Council with a petition received with respect to the request to build a roundabout at the intersection of Market Street and Albert Street, Moe.

# **DECLARATION OF INTERESTS**

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

# STRATEGIC FRAMEWORK

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

# Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives - Built Environment

In 2026 Latrobe Valley benefits from a well planned built environment that is complementary to its surroundings, and which provides for a connected and inclusive community

# Latrobe City Council Plan 2012 - 2016

# Shaping Our Future

Strategic Direction - Built Environment

Ensure public infrastructure is maintained in accordance with community aspirations

Service Provision – Infrastructure Development

Provide Asset Management planning, advice and services for Latrobe City.

# **BACKGROUND**

A petition (Attachment 1) containing 282 signatures was presented to Council on the 14 October 2011.

The petition presents safety concerns at the intersection of Market Street and Albert Street, Moe and seeks the construction of a roundabout.

An update report was presented to Council at the Ordinary Meeting on 18 June 2012 and Council resolved:

- 1. That Council notes this report.
- 2. That a further report on the request for a roundabout at the intersection of Albert Street and Market Street, Moe be presented to the Ordinary Council meeting in February 2013.
- 3. That the head petitioner be advised of Council's decision in relation to the petition requesting a roundabout at the intersection of Albert Street and Market Street, Moe.

# **ISSUES**

The petition states that now Market Street Moe has two-way traffic there have been numerous accidents. There are concerns for the safety of local retailers and their customers' and the petitioners believe that a roundabout would make it safer for pedestrians and motorists as well as improving visual amenity.

# Clifton Street Precinct Upgrade

The Clifton Street Precinct Upgrade which abuts this intersection has 4 stages of construction. Stages 1 & 2 have been completed. Stages 3 & 4 are on hold. Stage 3 is on hold due to a land acquisition that is required and stage 4 is on hold pending the outcome of this petition as it may have re-design implications. The design for the Clifton Street Precinct Upgrade is included as Attachment 2.

Changes at the intersection of Market Street and Albert Street occurred under Stage 1 in early 2011, which altered the southern section of Market Street from one-way traffic to two-way traffic.

The consulting traffic engineers for the Clifton Street Precinct Upgrade completed a Signalised & un-signalised Intersection Design & Research Aid (SIDRA) analysis at the intersection of Albert Street & Market Street in 2008. The analysis report noted 'that the provision of a roundabout at the Market Street and Albert Street intersection would offer minimal traffic capacity improvements.

To explore the impacts of placing a roundabout at this intersection a draft concept design was developed. This is included as Attachment 3.

# Traffic and Pedestrian Usage in Area

In 2009 a traffic count was undertaken in Albert Street between Moore Street and Market Street, which identified an average of 3,853 vehicles per day travelled in a westbound direction towards the Market street intersection. A further traffic count undertaken in 2012 identified an average of 4,156 vehicles per day travelled in a westbound direction towards the intersection. The amount of traffic at the Market Street and Albert Street intersection is approximately two thirds of that at the Moore Street and Albert Street roundabout. The amount of traffic entering or exiting Albert street from Market street is relatively low being only one sixth of the traffic that travels along Albert Street. A summary of the 2012 traffic data is included as Attachment 4.

Roundabouts work best on intersections where the traffic is well distributed between the intersecting streets. This is not the case for this intersection where about only 15% of the traffic is along Market Street.

This area of Moe's CBD is well used by pedestrians who use the surrounding footpath network to access shops and the bus interchange, located in the Northern section of Market Street.

# Casualty Accident History

The VicRoads State Casualty Accident Records collates accident events that result in either a fatality or personal injury such that a person (motorist and/or pedestrian) requires medical or surgical treatment. A review of the statistics indicates that over a 5 year period (01/01/2006 – 31/12/2011) there were no casualty accidents recorded for the intersection of Albert Street and Market Street, Moe.

To accommodate a roundabout at the Market Street and Albert Street intersection the footpath network would need to be altered and car parking in Albert Street would be reduced by 4 spaces. Implementation of the design would substantially impact the use of the footpath by traders as pavement widening would be needed which would occupy the current footpath area.

Based on the information collected there is not a traffic management requirement for the installation of a roundabout at the Market Street and Alberts Street intersection.

There is a level of concern by Moe community members about the perceived safety of the Market Street and Albert Street intersection. Enhanced line marking of the intersection would provide greater spatial guidance for motorists resulting in smoother traffic interaction. Implementing this strategy is a low cost option. A schematic of the line marking concept is included as Attachment 5.

# FINANCIAL, RISK AND RESOURCES IMPLICATIONS

The cost to construct a roundabout at the intersection of Albert Street and Market Street Moe would be determined after detailed design but the estimated cost based on the concept design is between \$300,000 and \$500,000.

The estimated cost to undertake the line marking at the intersection is estimated to be between \$10,000 and \$15,000. The line marking could be undertaken immediately and be funded from the 2012/13 budget.

# **INTERNAL / EXTERNAL CONSULTATION**

Engagement Method Used:

There has been no specific community engagement undertaken in the preparation of this report.

External Consultation:

Latrobe City officers have met with the head petitioner to discuss the findings of the traffic data, reported casualty incident statistics and various traffic strategy options including enhanced line marking.

# **OPTIONS**

Council has the following options in relation to the petition;

- 1) Undertake line marking at the intersection of Market Street and Albert Street. Moe:
- 2) Install a roundabout at the intersection of Market Street and Albert Street, Moe;
- 3) Do nothing at the intersection of Market Street and Albert Street, Moe.

# **CONCLUSION**

The level of traffic along Albert Street decreases as traffic moves westward from the Moore Street roundabout (3,185 vehicles per day) to the intersection with Market Street (1,985.vehicles per day). In comparison the level of traffic in Market Street is low (580 vehicles per day).

Over the past five years there were no casualty accidents recorded at the intersection of Albert Street and Market Street.

Given the traffic data, the absence of casualty accidents, and the 2008 SIDRA, there is no compelling traffic management requirement for the installation of a roundabout at the Albert Street and Market Street intersection.

There is however a recognition that the current traffic arrangements do not provide optimum spatial guidance and thus it is recommended that enhanced line marking of the intersection would improve the spatial focus of motorists and result in smoother traffic interactions.

**Attachments** 

1. Attachment 1 - Petition 2. Attachment 2 - Area Plan 3. Attachment 3 - Draft roundabout plan 4. Attachment 4 - Traffic Count 5. Attachment 5 - Overhead Photo

### RECOMMENDATION

- 1 That line marking be undertaken at the intersection of Market Street and Albert Street, Moe;
- That the head petitioner be advised of Council's decision in relation to the petition requesting a roundabout at the intersection of Albert Street and Market Street, Moe.

### **ALTERNATE MOTION**

That Council defer this matter to enable further information to be sought.

Moved: Cr Gibson Seconded: Cr Gibbons

That the Recommendation be adopted.

# **For the Motion**

Councillor/s Harriman, White, O'Callaghan, Gibson, Middlemiss, Gibbons, Rossiter

# **Against the Motion**

Councillor/s Sindt

The Deputy Mayor confirmed that the Recommendation had been CARRIED

Cr Kam returned to the Chamber at 6.25pm and resumed the chair.

# 9.3

# PETITION - REQUEST TO BUILD A ROUNDABOUT AT THE INTERSECTION OF MARKET STREET AND ALBERT STREET MOE

5	Attachment 5 - Overhead Photo	145

13/10/11

# Petition to build a roundabout at the corner of Market Street and Albert Street Moe

The petitioners whose names, addresses and signatures appear hereunder petition the Latrobe City Council as follows:

Since Market Street is now two way traffic on the south side, there have been numerous accidents; some requiring ambulances to be in attendance. This has become a very big concern for the local retailers and for the safety of their customers and pedestrians in general. There have been many near accidents. It is extremely dangerous when turning right from Market St. heading towards Moore St. and turning right towards Saviges Rd. Having a roundabout would not only slow traffic down and reduce the risk of accidents but will also beautify the intersection. We already have roundabouts at Anzac St, Kirk St, Moore St, and a similar roundabout at Market and Albert streets would make it safer for both pedestrians and motorists.

Looking forward to your prompt reply,

Yours sincerely,

Landlord and petition organiser on behalf of the Albert St west traders,

Contact details, Peter Calabro 0413655301

## Suspension of Standing Orders

Moved: Cr O'Callaghan Seconded: Cr Gibbons

#### **CARRIED UNANIMOUSLY**

Standing Orders were suspended to hear from public speakers at 6.25 pm

Ms Fleur Stevenson addressed Council in relation to item 16.2 Planning Permit Application 2012/158 - use and development of a single dwelling and ancillary outbuilding - lot 2, Symons drive, Callignee.

Standing Orders were resumed at 6.32pm

# 16.2 PLANNING PERMIT APPLICATION 2012/158 - USE AND DEVELOPMENT OF A SINGLE DWELLING AND ANCILLARY OUTBUILDING - LOT 2, SYMONS DRIVE, CALLIGNEE

**General Manager** 

Governance

For Decision

#### **PURPOSE**

The purpose of this report is to determine Planning Permit Application 2012/158 for the construction of a single dwelling and ancillary outbuilding at Lot 2, Symons Drive, Callignee.

#### **DECLARATION OF INTERESTS**

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

#### STRATEGIC FRAMEWORK

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

### Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objective – Built Environment

 In 2026, Latrobe Valley benefits from a well planned built environment that is complementary to its surroundings and which provides for a connected and inclusive community.

#### Latrobe City Council Plan 2012 - 2016

Strategic Direction – Built Environment

- Promote and support high quality urban design within the built environment; and
- Ensure proposed developments enhance the liveability of Latrobe City, and provide for a more sustainable community.

#### Shaping Our Future

An active connected and caring community Supporting all

#### **Legislation**

The discussions and recommendations of this report are consistent with the provisions of the *Planning and Environment Act* 1987 (the Act) and the Latrobe Planning Scheme (the Scheme), which apply to this application.

#### **BACKGROUND**

#### **SUMMARY**

Land: Lot 2 on LP 126629

Proponent: G Fletcher Builders

Zoning: Rural Living Zone (Schedule 6)

Overlay Wildfire Management Overlay (Also

identified as the Bushfire Management Overlay)

A Planning Permit is required for the use of the land for a dwelling (as a Section 2 use) pursuant to Clause 35.03-1 of the Rural Living Zone.

A Planning Permit is also required for buildings and works associated with a use in Section 2 pursuant to Clause 35.03-4 of the Rural Living Zone.

A planning permit is required for buildings and works for 'accommodation' under the provisions of Clause 44.06-1 of the Wildfire (Bushfire) Management Overlay.

### **PROPOSAL**

The application is for the use and development of the land for a single storey dwelling and an ancillary outbuilding.

The single storey dwelling is proposed to be located towards the southern end of the site and consist of kitchen, dining/living area, three bedrooms, study and a garage. The dwelling is proposed to be constructed from face brickwork, with a colourbond steel roof. The proposed outbuilding would have a floor area of 135 square metres and be located to the rear of the dwelling the southern most end of the site.

Access to the buildings would be achieved from an existing track which runs parallel to the eastern boundary of the site.

For further details, please refer to the proposed plans at Attachments 1 and 2.

#### Subject Land:

The subject land is two hectares in area, roughly rectangular in shape and gently slopes from south to north. The site has a frontage to Symons Drive that is 136 metres in length with a site depth of approximately 163 metres. The boundary to the south is 95 metres in length whilst the east and west boundaries are 171 metres and 164 metres in length respectively.

There is a small dam located within the north-west corner of the site but the land is otherwise devoid of any other features or notable vegetation.

The lot immediately to the east of the site has been developed and contains a single residential dwelling and associated outbuildings.

The site is located approximately four kilometres to the south of Translgon South.

Surrounding Land Use:

North: Managed grassland/grazing

South: Managed grassland /woodland stand of trees East: Existing dwelling and ancillary outbuildings

West: Managed grassland/grazing

All surrounding lots are located within the Rural Living Zone (Schedule 6). A locality plan can be found at Attachment 3.

## **HISTORY OF APPLICATION**

A history of assessment of this application is set out in Attachment 4.

The provisions of the Scheme that are relevant to the subject application have been included in Attachment 5.

#### LATROBE PLANNING SCHEME

#### STATE PLANNING POLICY FRAMEWORK

The proposal has been assessed against the relevant Clauses of the State Planning Policy Framework.

<u>Clause 11.05-4:</u> 'Regional planning strategies and principles', the objective of which is to ensure there is a sufficient supply of appropriately located residential, commercial, and industrial land across a region to meet the needs identified at regional level.

The proposal would facilitate the use of appropriately located rural living land for rural living purposes. As the original subdivision of the land (early 1980's) was to allow for the rural residential development of the area, the development and on-going use of the land for a dwelling is considered to be appropriate.

<u>Clause 13.05:</u> 'Bushfire', the objective of which is to strengthen community resilience to bushfire. A strategy to implement this objective is to only permit new development where:

 The risk to human life, property and community infrastructure from bushfire can be reduced to an acceptable level.

- Bushfire protection measures, including the siting, design and construction of buildings, vegetation management, water supply and access and egress can be readily implemented and managed within the property.
- The risk to existing residents, property and community infrastructure from bushfire is not increased

The construction of the dwelling will require a minimum level of protection in order for the development to proceed. The development is considered to be in an appropriate location on the site and is considered to meet the objective of this clause. The application has been assessed by the Country Fire Authority which has raised no objections to the proposal subject to appropriate conditions.

<u>Clause 15</u>: 'Built environment and heritage', which states that planning should achieve high quality urban design and architecture that:

- Contributes positively to local urban character and sense of place.
- Reflects the particular characteristics, aspirations and cultural identity of the community.
- Enhances liveability, diversity, amenity and safety of the public realm.
- Promotes attractiveness of towns and cities within broader strategic contexts.
- Minimises detrimental impact on neighbouring properties.

The aim of this clause is to ensure that development achieves a high quality urban design and architecture that respects the cultural, physical and architectural values of the area. The dwelling has been designed to reflect local architectural standards and will respect the character of the area and the topography of the site.

<u>Clause 16.02-1:</u> *'Rural Residential Development'*, the objective of which is to identify land suitable for rural living and rural residential development.

As the subject site has previously been zoned and consequently subdivided for rural living purposes the proposed use and development of the site for a dwelling is considered to be an appropriate and legitimate use that is consistent with the general spirit of the zone.

#### LOCAL PLANNING POLICY FRAMEWORK

The proposal has been assessed against the relevant Clauses of the Local Planning Policy Framework.

Within the Local Planning Policy Framework Clause 21.04-2 'Settlement Overview' highlights that the diversity in housing types available in the municipality contributes to the lifestyle choices provided and the overall attractiveness of the municipality as a place to live and invest.

Clause 21.04-3: 'Rural Living Overview' acknowledges that rural residential living has been a popular and attractive lifestyle choice in Latrobe City and continues to attract residents. As the subject site has previously been identified for rural residential purposes and subdivided to allow for the lot to be used as such, it is considered that the proposal reflects this trend, is appropriate, legitimate and consistent with the general spirit and intent of this clause.

### **RURAL LIVING ZONE (SCHEDULE 6) - CLAUSE 35.03**

The subject site is located within the Rural Living Zone (Schedule 6). The 'Purpose' and 'Decision Guidelines' of the zone have been taken into account as part of the assessment of this application, which is considered to be consistent with the provisions of the Planning Scheme on the basis that the proposal would:

- provide for residential use in a rural environment;
- provide for an agricultural land use which would not adversely affect the amenity of surrounding land uses; and
- not compromise any natural resources, biodiversity or landscape and heritage values of the area.

#### **BUSHFIRE MANAGEMENT OVERLAY - CLAUSE 44.06**

The purpose of the Bushfire Management Overlay is:

- To assist to strengthen community resilience to bushfire.
- To identify areas where the bushfire hazard requires specified bushfire protection measures for subdivision and buildings and works to be implemented.
- To ensure that the location, design and construction of development consider the need to implement bushfire protection measures.
- To ensure development does not proceed unless the risk to life and property from bushfire can be reduced to an acceptable level.

The proposed development is considered to be consistent with the Bushfire Management Overlay (discussed later in this report)

#### **Particular Provisions**

The purpose of Clause 52.47 - Bushfire Protection, Planning Requirements is

'To ensure that development is only permitted if the risk to life, property and community infrastructure can be reduced to an acceptable level', and

'To specify requirements for buildings, works and subdivision on land to which the Bushfire Management Overlay applies'.

The application has been assessed against the requirements of this provision and is consistent with its intent.

#### **Decision Guidelines** (Clause 65):

The relevant decision guidelines have been considered as part of the assessment of this planning application and where relevant have been discussed in this report.

#### **ISSUES**

#### Strategic direction of the State and Local Planning Policy Frameworks:

It is considered that the proposed use and development of the site for a single dwelling and ancillary outbuilding satisfies both the State and Local Planning Policy Frameworks in that the site is an appropriate location for rural residential living and is a legitimate use within the context of the provisions of the Rural Living Zone.

#### 'Purpose' and 'Decision Guidelines' of the Rural Living Zone:

The subject land is currently within the Rural Living Zone (Schedule 6) the provisions of which require the submission of a planning permit application for the use of the land for a dwelling if the lot size is below the scheduled minimum of 8ha. The subject land is 2ha in area.

Historically speaking, the site is located within the Traralgon South Precinct (as per the, 'Residential and Rural Residential Land Assessment' study (the Study) adopted by Council in April 2009 and is identified (in the Study) as a 'vacant lot' within the Rural Living Zone. This is primarily the consequence of the earlier (1980's) subdivision of the land which created a number of 2ha blocks along Symons Drive – one of which was developed in 2009.

Whilst the provisions of the Clause stipulate a minimum lot size of 8ha – this applies to the use of the land for a dwelling as an 'as of right' use not requiring a planning permit. This does not preclude the use of land for a dwelling on lots of less than 8ha for rural living purposes; rather, it triggers the need for a formal planning permit to enable Council to consider the individual merits of a proposal in accordance with the relevant provisions of the Latrobe Planning Scheme.

Having considered the historic subdivision of the land, previous developments and the purpose of the Rural Living Zone, it is considered that the proposal is both a legitimate use and is consistent with the relevant provisions of the zone.

<u>'Purpose' and 'Decision Guidelines' of the Wildfire (Bushfire) Management</u> Overlay:

The planning application has been assessed against the provisions of Clause 44.06, the purpose of which is:

- To assist to strengthen community resilience to bushfire.
- To identify areas where the bushfire hazard requires specified bushfire protection measures for subdivision and buildings and works to be implemented.
- To ensure that the location, design and construction of development consider the need to implement bushfire protection measures.
- To ensure development does not proceed unless the risk to life and property from bushfire can be reduced to an acceptable level.

Under the provisions of Clause 44.06-2, the application was accompanied by a locality and site description and a bushfire management statement – both of which have been assessed by the Country Fire Authority. The latter has raised no objection to the grant of a planning permit subject to appropriate planning conditions.

#### Commencement of Works

Whilst it is noted that some earthworks have been undertaken to level the site in the location that the proposed dwelling would be situated, the submission of the planning permit application currently affords an opportunity to regularise the works in the event that a planning permit is issued.

#### **OBJECTOR'S CONCERNS**

As a result of the notification process, the application received a single objection. The issues raised in the objection were as follows:

The potential density of dwellings in the immediate area will be approximately one dwelling per 2ha which is far higher than the 1 dwelling per 8ha that is preferred for the RLZ6 Zone. There is currently an oversupply of rural living zoned allotments in Callignee.

#### Officer Comment:

The fundamental land-use planning considerations associated with this application relate specifically to the assessment of the extent to which the use and development of a dwelling within an area that has been identified for rural residential uses within a rural environment is acceptable based on the provisions of the Rural Living zone.

The provisions of Clause 35.03-1 provide a mechanism (i.e. the planning permit trigger) through which planning permit applications for proposals which do not necessarily meet the scheduled minimum lot size requirements of the zone (in this instance 8ha), can be considered on their own individual planning merits and site-specific circumstances.

The State Planning Policy Framework states that (within Regional areas of Victoria) responsible authorities should provide adequate and competitive land supply. This approach is supported within Latrobe City where it remains Council policy that each town should grow in its own right and maintain a 10 to 15 year urban land supply within them. The 'Residential and Rural Residential Land Assessment' study formally adopted by Council in April 2009 identified that, within the Traralgon South precinct (which includes the application site) there is (currently) an adequate supply of total vacant lot potential in regard to RLZ land to meet forecast demand over the next 15 years. Under a 'high growth' scenario (forecast demand of up to approximately 20 additional dwellings) an estimated 16 year supply of total vacant lot potential exists on RLZ land in Traralgon South. On this basis, the current supply of RLZ land within the Traralgon South precinct is consistent with both State and Local Planning Policy requirements.

Increasing the density of rural living style allotments will disrupt the community of Callignee by increasing the number of rural living dwellers and create an imbalance in the population using land for rural living versus the population using land for farming. This will place the smaller number of broad-acre farmers at a disadvantage if changes to the district are proposed on a quasi-democratic basis that has no special regard for the minority group of farmers that extensive rural living creates.

#### Officer Comment:

Clause 21.04-3 highlights the fact that rural residential living has been a popular and attractive lifestyle choice in Latrobe City and continues to attract residents. The Latrobe Planning Scheme supports rural living development in appropriate locations, taking into account current supply and demand for these types of subdivisions. Clause 21.07-5 identifies that there is pressure for rural residential development and acknowledges that it is a legitimate land use. The Traralgon South Precinct is an area within which rural living is identified as a legitimate land use, a facet of which is a corresponding increase in population.

The original subdivision (in the early 1980's) required the road to be sealed. This did not occur. If a higher density than 1 dwelling per 8ha is now permitted there are potentially 11 dwellings with sole access to Symons Drive. The applicants should be required to seal Symons Drive.

#### Officer Comment:

Council records indicate that the planning permit that created the subject site had a condition requiring the developer to seal the north-south portion of Symons Drive but not the east-west portion where the subject site is located. It is noted that subsequent correspondence from residents of Symons Drive did not wish the road to be sealed, and it is understood that this was accepted by Council.

However, the current permit application relates solely to the subject land and as such it would not be considered reasonable for the applicant to be required to undertake works beyond the extent of the property boundary that would benefit others. Engineering conditions will ensure that the existing access to the lot complies with the relevant Council standards.

4 The application does not comply with the provisions of Section 35.03

#### Officer Comment:

Under the provisions of Clause 35.03 a purpose of the Rural Living Zone is to provide for residential use in a rural environment. The application would provide for a residential use within a rural environment and is therefore in compliance with the Planning Scheme.

5 The dwelling is not associated with a small scale agricultural enterprise; it is principally for residential purposes.

#### Officer Comment:

A purpose of the Rural Living Zone is to provide for residential use in a rural environment. The application would satisfy the intent of the zone by providing a residential use in a rural environment. The provisions of the zone do not expressly stipulate a requirement for a residential use to be associated with any small scale agricultural enterprise.

The lot is in a Wildfire Overlay. Bushfire research indicates that rural living is inappropriate in such areas whereas general farming or forestry is appropriate. This is not addressed in the current planning scheme. Planners would be wise to restrict the proposed type of development in these areas.

#### Officer Comment:

The Latrobe Planning Scheme contains provisions which trigger requirements for detailed mitigation measures for those areas where fire danger is considered to be a significant risk to life.

The application site is located within the Wildfire Management Overlay and as such was referred to the Country Fire Authority who have assessed the application and raised no objections to the grant of a planning permit subject to appropriate conditions.

7 The dwelling will result in the fragmentation of agricultural land and proliferation of dwellings in an agricultural area.

#### Officer Comment:

The application does not involve the subdivision of the existing lot. The provisions of Clause 35.03-3 prevent the land from being further subdivided on the basis that a minimum lot size of 8ha could not be achieved.

As such it is not considered that the proposed development will result in the potential for fragmentation of land and/or proliferation of dwellings in the area.

The proposed dwelling will have an adverse impact on agricultural activity on adjoining land and unreasonably restrict adjacent properties expanding in compliance with the intent of an RLZ6 Zone

#### Officer Comment:

A purpose of the Rural Living Zone is to provide for agricultural land uses which do not adversely affect the amenity of surrounding land uses. It is considered that the proposal addresses this requirement and will not result any adverse impact on the use or amenity of adjoining land.

9 Earthworks have been undertaken on the site.

#### Officer Comment:

This issue is dealt with under the Issues section of this Report.

#### FINANCIAL, RISK AND RESOURCES IMPLICATIONS

Additional resources or financial cost will only be incurred should the planning permit application require determination at the Victorian Civil and Administrative Tribunal (VCAT). Risk has been considered as part of this report considered to be consistent with the Risk Management Plan 2011-2014.

#### **INTERNAL / EXTERNAL CONSULTATION**

Engagement Method Used:

#### Notification:

The application was advertised pursuant to Section 52(1)(a) and Section 52(1)(c) of the Planning and Environment Act (1987). Notices were sent to all adjoining landowners and occupiers and an A3 notice was displayed on the site frontage for 14 days.

#### External:

The application was referred pursuant to Clause 55 of the Act to the Country Fire Authority, which did not object to the grant of a permit subject to conditions.

#### Internal:

Internal officer comments were sought from Council's Infrastructure Planning Team who had no objections to the granting of a planning permit subject to appropriate conditions and notes.

Comments were also sought from Council's Environmental Health Team who raised no objections to the grant of a planning permit subject to appropriate conditions.

Details of Community Consultation following Notification:

Following the advertising and referral of the application, one objection was received. A copy of the objection can be found at Attachment 6.

At the request of the applicant, a mediation meeting was not held.

#### **OPTIONS**

Council has the following options in regard to this application:

- 1 Issue a Notice of Decision to Grant a Planning Permit.
- 2 Issue a Refusal to Grant a Planning Permit.

Council's decision must be based on planning grounds, having regard to the provisions of the Latrobe Planning Scheme.

#### **CONCLUSION**

The proposal is considered to be:

- Consistent with the strategic direction of the State and Local Planning Policy Frameworks;
- Consistent with the 'Purpose' and 'Decision Guidelines' of the Rural Living Zone.
- Consistent with the 'Purpose' and 'Decision Guidelines' of the Wildfire Management Overlay; and
- Consistent with Clause 65 (Decision Guidelines).

The objection received has been considered against the provisions of the Latrobe Planning Scheme and the relevant planning concerns have been considered and the objection is not considered to form planning grounds upon which the application should be refused.

#### **Attachments**

2. Shed plan and elevations
3. Locality Plan
4. Planning history
5. Latrobe Planning Scheme provisions
6. Letter of objection

#### RECOMMENDATION

- 1 That Council issues a Notice of Decision to Grant a Planning Permit for the construction of a single dwelling and ancillary outbuilding at Lot 2 on LP 126629, Symons Drive, Callignee with the following conditions:
- 1. The use and development as shown on the endorsed plans must not be altered without the written consent of the Responsible Authority.
- 2. The outbuilding must not be used for human habitation at any time
- 3. Construction works on the land must be carried out in a manner that does not result in damage to existing Council assets and does not cause detriment to adjoining owners and occupiers, to the satisfaction of the Responsible Authority.
- 4. The exterior colour and cladding of the building(s) must be of a non-reflective nature to the satisfaction of the Responsible Authority.
- 5. Upon completion of the works, the site must be cleared of all excess and unused building materials and debris to the satisfaction of the Responsible Authority.
- 6. Once building works have commenced they must be completed to the satisfaction of the Responsible Authority.

#### 7. Engineering Conditions:

Before an Occupancy Permit is issued for the dwelling hereby permitted, or by such later date as is approved by the Responsible Authority in writing, the following works must be completed in accordance with the endorsed plans and to the satisfaction of the Responsible Authority:

- a) All stormwater discharging from the site, buildings, vehicle access ways and works must be discharged to a water tank, soakwell or otherwise discharged so as not to cause erosion, flooding or nuisance to the subject or surrounding land to the satisfaction of the Responsible Authority.
- b) The areas provided within the property for vehicle access to the permitted dwelling and associated buildings and works, must be constructed and surfaced with concrete, reinforced concrete, brick paving, gravel, crushed rock or hot mix asphalt so as to prevent mud, crushed rock or other debris from being carried onto the road.
- c) The existing vehicle crossing providing access to the property must be reconstructed to comply with the vehicle crossing standards set out in Latrobe City Council's Standard Drawing LCC 306 and LCC 212.
- 8. Appropriate measures must be implemented throughout the construction stage of the development to rectify and/or minimise mud, crushed rock or other debris being carried onto public roads or footpaths from the subject land, to the satisfaction of the Responsible Authority.
- 9. The owner must ensure that all waste waters emanating from the dwelling are contained and treated within the boundaries of the lot in accordance with the State Environment Protection Act 1970 and to the satisfaction of the Responsible Authority.
- 10. An application for a permit to install a septic tank system must be submitted and approved by Council prior to any installation.
- 11. The septic tank (waste water system) must be set back a minimum of 60m from all surface waters (dam).
- 12. Country Fire Authority Conditions:
  The operator of this permit must comply with the following requirements from the Country Fire Authority (CFA):
  A) Endorsed Plan

The Plans dated 26/11/2012 as Revision 2 of Drg. Number PN12347 Page P1 & P5 must be endorsed as part of the permit.

B) Buildings and works

The bushfire mitigation measures forming part of this permit or shown on the endorsed plans, including those relating to construction standards, defendable space, water supply, and access, must be maintained to the satisfaction of the responsible authority and the relevant fire authority on a continuing basis. This condition continues to have force and effect after the development authorised by this permit has been completed.

- C) Static Water Supply
- a) A static water supply must be provided and meet the following requirements:
  - Water tank(s) with a minimum of 45,000 litres of water must be provided on the lot. Such tank(s) must have the domestic supply draw off at a level which will provide storage of 10,000 litres reserve for fire fighting purposes or a separate tank can be provided for fire fighting purposes.
  - II) The water supply must be located within 60 metres of the buildings(s) (allowing for any obstructions).
  - III) Fire brigade vehicles must be able to get to within four metres of the water supply outlet.
  - IV) The water supply and associated fixed above ground water pipelines and fittings must be constructed in materials resistant to corrosion, combustion and deformation by heat. Other materials can be utilised where appropriately protected from the effects of radiant heat and flame.
  - V) The water supply must be readily identifiable from the building or appropriate signage must point to the water supply.
  - VI) All pipe work and connections must comply with the following:
    - all above ground water supplies must provide at least one 64 mm, 3 thread/25 mm x 50 mm nominal bore British Standard Pipe (BSP), round male coupling to CFA specifications,
    - ii) all pipe work and valving between the water supply and the outlet must be no less than 64 mm nominal bore and
    - iii) if less than 20 metres from the building, each outlet must face away from the building to allow access during emergencies.
  - VII) All Below ground water pipelines must be installed to the following depths:

- i) subject to vehicle traffic 300 mm.
- ii) under houses or concrete slabs 75 mm.
- iii) all other locations 225 mm.

#### D) Access

- a) Access to the dwelling must be designed to allow emergency vehicles access.
  - curves in the driveway must have a minimum radius of 10 metres
  - II) the average grade must be no more than 1 in 7 (14.4%), however an absolute maximum of 1 in 5 (20%) is allowed for a maximum of 50 metres.
  - III) dips must have no more than a 1 in 8 (12.5%, 7.1 degree) entry and exit angle.
  - IV) must be designed, constructed and maintained for a load limit of at least 15 tonnes and be of all weather construction
  - V) must provide a minimum trafficable width of 3.5 metres and be clear of encroachments for 4 metres vertically and 0.5 metres each side of the driveway.
- b) Driveways longer than 100 metres must provide for the turning of fire fighting vehicles close to the building by either:
  - i) a turning circle with a minimum radius of 8 metres; or
  - ii) by the driveway encircling the building; or
  - iii) the provision of a T or Y head with a minimum formed surface of each leg being 8 metres in length measured from the centre point of the head, and 4 metres trafficable width.
- E) Vegetation Management

Vegetation must be maintained in accordance with the Bushfire Management Overlay Table 1 Defendable Space and to the satisfaction of CFA and the responsible authority.

- a) Inner Protection Zone of 26 metres South & West for Woodland and 11 metres North & East for Grassland from the building:
  - Within 10 metres of a building, flammable objects such as plants, mulches and fences must not be located close to vulnerable parts of the building such as windows, decks and eaves.
  - II) Trees must not overhang the roofline of the building, touch walls or other elements of a building.

- III) Grass must be no more than 5 centimetres in height. All leaves and vegetation debris are to be removed at regular intervals.
- IV) Shrubs must not be planted under trees and separated by at least 1.5 times their mature height.
- V) Plants greater than 10 centimetres in height at maturity must not be placed directly in front of a window or other glass feature.
- VI) Tree canopy separation of 2 metres and the overall canopy cover of no more than 15 percent at maturity.
- VII) Tree branches below 2 metres from ground level must be removed.
- b) Outer Protection Zone of 15 metres South & West for Woodland from the inner protection zone and NIL for North & East for Grassland or exclusions:
  - I) Grass must be no more than 10 centimetres in height and leaf and other debris mowed, slashed or mulched.
  - II) Shrubs and/or trees must not form a continuous canopy.
  - III) Tree branches below 2 metres from ground level must be removed.
  - IV) Trees may touch each other with an overall canopy cover of no more than 30 percent at maturity.
  - V) Shrubs must be in clumps of no greater than 10 square metres, which are separated from each other by at least 10 metres, to the satisfaction of the CFA.

#### F. Building Construction Standard

A site assessment for the purpose of determining the bushfire attack level for the site has been considered as part of the application for the planning permit. The construction of buildings must be to a minimum bushfire attack level of BAL 29 in accordance with the relevant sections to AS3959-2009.

#### 13. Expiry Condition:

This permit will expire if one of the following circumstances applies:

- a) The development is not started within two years of the date of this permit; or
- b) The development is not completed and the use has not commenced within four years of the date of this permit.

The Responsible Authority may extend the periods referred to if a request is made in writing before the permit expires or within three months afterwards.

Note 1. This permit does not authorize the commencement of any building construction works. Before any such development may commence, the applicant must apply for and obtain appropriate building approval.

Note 2. A Latrobe City Vehicle Crossing Permit must be obtained prior to the commencement of the construction of all new vehicle crossings and for the upgrading, alteration or removal of existing vehicle crossings. The relevant fees, charges and conditions of the Vehicle Crossing Permit will apply to all vehicle crossing works. It is a requirement that all vehicle crossing works be inspected by Latrobe City Council's Asset Protection Officer.

Moved: Cr Gibson
Seconded: Cr Middlemiss

That the Recommendation be adopted.

#### Re: Planning Application 2012/158 Symons Drive Callignee

Thankyou for your advice (7 December 2012) that a Planning Application 2012/158 has been made. I wish to object to the application as it is inappropriate development in a RLZ6 Zone because the development is principally for urban style residential purposes, not rural living.

My objection is to the construction of a dwelling and is as follows:

- The potential density of dwellings in the immediate area will be approximately one dwelling per 2Ha. This is far higher than the 1 dwelling per 8 Ha that is preferred for an RLZ6 Zone under the Latrobe Planning Scheme. There is currently an oversupply of rural living zoned allotments in Callignee. This is particularly the case for RLZ4 zones which allow for lot sizes of 4Ha and also in Loy Yang Park, an anomaly to the Latrobe Planning scheme which provides for dense living in an RLZ6 zone by way of a structured agricultural operation and lot sizes of generally 0.7Ha. There is significant disagreement between the body corporate and residents over the use of agricultural land and between residents and Latrobe City regarding road maintenance within the Loy Yang Park development. These are only some of the reasons why this style of development should not be promoted, but it is currently available to the applicants on lots where owners are currently permitted to reconstruct dwellings under 2009 bushfire rebuilding amendments to the Planning Scheme;
- Increasing the density of rural living style allotments will also disrupt the community of Callignee by increasing the number of rural living dwellers. Increasing the number of rural living dwellers will create an imbalance in the population using land for rural living versus the population using land for farming. This will place the smaller number of broadacre farmers at a disadvantage if changes to the district are proposed on a quasi democratic basis that has no special regard for the minority group of farmers that extensive rural living creates. This conflict is well documented in research into new rural landowners;
- The original subdivision in the early 1980's required the road to be sealed. This did not occur, if a higher density than 1 dwelling per 8Ha is now permitted there are potentially 11 dwellings with sole access to Symons Drive. Symons Drive is an unsealed road on grade. If this development is permitted, rather than place an unfair financial burden on other ratepayers within Latrobe City the applicant should be required to seal Symons Drive;
- The application does not comply with the provisions of Section 35.03;

- The dwelling is not associated with a small scale agricultural enterprise, it is principally for residential purposes;
- The lot is in a wildfire overlay (or its current nomenclature). Bushfire research indicates that rural living is
  inappropriate in such areas whereas general farming or forestry is appropriate. This is not addressed in the
  current planning scheme. However, research indicates that planners would be wise to restrict the proposed type
  of development in these areas. Because the lot concerned is less than that scheduled in the Latrobe planning
  scheme this wisdom can be reasonably demonstrated; and
- · As previously indicated this application for a dwelling will result in
  - o the fragmentation of agricultural land,
  - o It is likely the dwelling will be adversely affected by other agricultural pursuits,
  - this dwelling will lead to a proliferation of dwellings at a density that is inappropriate in an REZ6 Zone;
  - o provision of a dwelling on this allotment will unreasonably restrict adjacent properties expanding in compliance with the intent of an RLZ6 zone. Only one adjacent property is developed with a dwelling and it, too, is undersize for the zoning. The planning approval for that dwelling occurred during a period when Latrobe City was consistently, incorrectly, applying the Planning scheme in Callignee. To achieve compliance with the preferred density in an RLZ6 zone this lot would need to be consolidated with three similar adjacent lots, preferably on the same side of the road if issues with moving stock across Symons Drive are to be avoided.

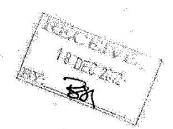

We also note that extensive earthworks for a dwelling were undertaken prior to this application for a planning permit. This has reduced the available land for agriculture on the lot. Please refer email to Mr B Hearsey dated 13 July 2012 which draws attention to this.

in conclusion, this application is for a dwelling on a small lot in an RLZ6 zone. It is unlikely that any agricultural operation on a 21th allotment in an RLZ6 zone in Callignee can justify a dwelling when both low density urban lots are available nearby in Traralgon South township and RLZ4 subdivisions are also available nearby. Appropriate usage of this size lot in an RLZ6 zone is simply for trading between occupiers to provide extensions to the agricultural use on other properties. These small parcels are not intended for residential use. Clearly the applicant is merely trying to impose inappropriately dense residential development on an RLZ6 Zone in Callignee.

Yours faithfully

(signed)

Stuart Strachan

# 9.1 PROPOSED ROAD DISCONTINUANCE AND SALE OF LAND - DONALDSON LANE AND FLEMING STREET, MORWELL

**General Manager** 

Governance

For Decision

#### **PURPOSE**

The purpose of this report is to consider submissions received in relation to the proposed discontinuance and sale of part of Donaldson Lane together with the transfer of two parcels of land adjoining 1-3A Fleming Street, Morwell.

#### **DECLARATION OF INTEREST**

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

#### **STRATEGIC FRAMEWORK**

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives - Governance

In 2026, Latrobe Valley has a reputation for conscientious leadership and governance, strengthened by an informed and engaged community, committed to enriching local decision making.

Latrobe City Council Plan 2012 - 2016

#### Shaping Our Future

An active connected and caring community Supporting all

Strategic Direction - Governance

- Support effective community engagement to increase community participation in Council decision making.
- Delegate appropriately and make sound decisions having regard to legislative requirements, policies, professional advice, sound and thorough research and the views of the community.
- Provide timely, effective and accessible information about Latrobe City Council's activities.

#### Legislation

Local Government Act 1989

Section 189 of the *Local Government Act* 1989 gives Council the power to sell land however, before doing so, it must:

- (a) ensure that public notice of the intention to do so is given at least 4 weeks prior to selling or exchanging the land; and
- (b) obtain from a person who holds the qualifications of experience specified under Section 13DA(2) of the *Valuation of Land Act* 1960 a valuation of the land which is made not more than 6 months prior to the sale or exchange.

Section 206 and Schedule 10 Clause 3 of the *Local Government Act* 1989 gives Council the power to discontinue roads:

"A Council may in addition to any power given to it by Sections 43 and 44 of the Planning and Environment Act 1987 –

- (i) discontinue a road, or part of a road, by a notice published in the Victoria Government Gazette; and
- (ii) sell the land from that road (if it is not Crown Land), transfer the land to the Crown or itself or retain the land."

Both of these powers are subject to Section 223 of the Local Government Act 1989 which requires Council "publish a public notice stating that submissions in respect of the matter specified in the public notice will be considered in accordance with this section."

Council must then consider any written submissions that have been received and any person who has made a submission and requested they be heard are entitled to appear before a meeting of Council.

Policy – Sale of Council Owned Property Policy 11 POL-4

The principal aim of this policy is to define the circumstances and factors that will be assessed by Council in respect to the sale of Council owned property. The purpose of this policy is to serve as an accountability mechanism to the community.

It is Councils position that that the sale of Council owned property will be via public auction unless circumstances exist that would justify an alternative method of sale.

All sales of Council owned property shall be consistent with the Local Government Best Practice Guidelines for the Sale and Exchange of Land prepared by the Department of Planning and Community Development.

#### **BACKGROUND**

Council has received an application from Anglicare Victoria to acquire part of Donaldson Lane between their offices at 1-3A Fleming Street and 65 Church Street, Morwell, as shown on the attached plan.

Donaldson Lane was originally created in 1933 on LP 13729 and is contained in Certificate of Title Volume 4952 Folio 331 which remains in the name of Neil Chamberlain who acquired the land in 1925.

The laneway is 3.6 meters wide, runs from Church Street to Fleming Street and provides rear access to residential properties 5, 7 & 9 Fleming Street, the Morwell Squash Courts and the former Karma Hall and off street car park.

During investigation of this request it was identified that there are two additional parcels of Council owned land that have been incorporated into the Anglicare property as part of the frontage to Fleming Street. These two parcels of land, shown on the attached plan, are described as Lot 1 on Title Plan 142444 and Lot 1 on Title Plan 143992 being the land contained in Certificates of Title Volume 9918 Folio 212 and Volume 9963 Folio 797 respectively.

Both of these parcels of land were acquired in 1989 by the former Shire of Morwell and are six metres wide and 16.46 metres in length with a combined area of approximately 200 square metres. It is understood that these parcels of land were originally acquired for road widening purposes.

It is noted that when Fleming Street was fully reconstructed (kerb, channel and road pavement) in April 2009 these two parcels of Council land previously acquired for road widening were not required as part of this reconstruction.

Anglicare Victoria are proposing to redevelop the site and this would involve consolidating their two properties with the section of laneway that separates them, together with the two parcels of land owned by Council.

Council previously considered this request at the Ordinary Council Meeting held on Monday 3 December 2012 and resolved the following:

- That Council gives public notice of its intention to consider the proposed discontinuance and transfer of part of the unnamed laneway off Church Street, Morwell, together with the transfer of two parcels of land in Fleming Street, Morwell, pursuant to Section 189 and Section 206 and Schedule 10 Clause 3 of the Local Government Act 1989.
- That Council considers any submissions received in relation to the proposed discontinuance and transfer of part of the unnamed laneway off Church Street, Morwell, together with the transfer by private treaty of two parcels of land in Fleming Street, Morwell, at the Ordinary Council Meeting to be held on 18 February 2013.

#### **ISSUES**

Donaldson Lane is unconstructed and is unused apart from the section of laneway that Anglicare currently use for car parking and wish to acquire. The balance of the laneway is a grassed surface and with the exception of a gate at the rear of 7 Fleming Street there is no evidence that the lane has been required as access by adjoining properties at 5 and 9 Fleming Street or the general public.

Gippsland Water has confirmed that there is a 150mm VC Sewer Main located within the laneway and it would therefore be a requirement, if the land was to be sold, for it to be encumbered with an easement for pipeline or ancillary purposes to protect this asset. This would have an impact on what would be able to be done with the land should it be transferred.

Anglicare Victoria have consulted with Gippsland Water and reached agreement that the proposed development would use a covered walkway as a link between the two buildings thereby minimising the impact on the sewer main.

The owner of 31-43 Buckley Street (former Karma Hall and off street car park), Stirloch Developments Pty Ltd, have objected to the proposed discontinuance on the grounds that Donaldson Lane would be required to provide access to any future development of their property. These concerns have been addressed later in the Internal/External Consultation section of this report.

Whilst the adopted Sale of Council Owned Property Policy states that the preferred method of sale is by public auction, in this instance Anglicare Victoria would be the only interested purchaser. Accordingly it would be appropriate to consider selling the two parcels of Council land adjoining 1-3A Fleming Street by private treaty.

#### FINANCIAL, RISK AND RESOURCES IMPLICATIONS

Risk has been considered as part of this report and it is considered to be consistent with the Risk Management Plan 2011-2014. No significant risks have been identified.

Should Council resolve to discontinue this part of the laneway and transfer the land all survey and legal costs would be borne by Anglicare Victoria.

Both the land from the discontinued section of Donaldson Lane and the two parcels in Fleming Street would be transferred at a purchase price based upon an independent valuation that would be obtained by Council.

#### INTERNAL/EXTERNAL CONSULTATION

Engagement Method Used:

- Public notices placed in the Latrobe Valley Express on Monday 10 and Thursday 13 December 2012 as well as Monday 7 January 2013.
- Letters sent to all adjoining property owners and occupiers inviting comment on the proposal.

Details of Community Consultation / Results of Engagement:

In response to the public notices and correspondence, one submission has been received from Stirloch Developments Pty Ltd objecting to the proposed discontinuance, refer following attachment.

This objection is summarised below:

- Lane provides a link from both Church Street and Fleming Street.
- The lane provides access to two of the residential units shown on the development plan.
- Stirloch purchased their land from Council and are concerned that closure of the lane would affect the value of their land.

Officer Comment: Stirloch Developments purchased the former Karma Hall site and the adjoining car park (31-41 Buckley Street) from Council. The sale date for the land was 24 February 2006 and ownership was transferred on the 13 March 2007.

Council issued Planning Permit P06309 for the use and development of an office with associated parking at 31-41 Buckley Street on the 10 November 2006. Permit extensions were subsequently granted in August 2009, May 2011 and November 2012.

It is noted that the endorsed Planning Permit Development Plan for the office and associated parking (P06309) does not show the residential units as detailed on the development plan attached to the submission from Stirloch Developments. The proposed office and associated car parking development does not fully utilise the entire property, there may be sufficient area at the rear of the office development for the fore mentioned residential units.

In addition to Donaldson Lane there is alternative street access to the Stirloch Development property from Buckley Street, Church Street (both constructed) and if required Fleming Street.

#### **OPTIONS**

Having given public notice and consideration of the submission received, Council may now:

- 1. Resolve to discontinue part of Donaldson Lane, Morwell, and transfer the land together with the two parcels of Council owned land adjoining 1-3A Fleming Street by private treaty to Anglicare Victoria.
- 2. Resolve to retain Donaldson Lane, Morwell, and transfer the two parcels of Council owned land adjoining 1-3A Fleming Street by private treaty to Anglicare Victoria.
- Resolve to retain Donaldson Lane, Morwell, together with the two parcels of Council owned land adjoining 1-3A Fleming Street which will require no further action.

#### **CONCLUSION**

Anglicare's intention is to acquire part of Donaldson lane to facilitate expansion of their current office buildings at 65 Church Street and 1-3A Fleming Street Morwell.

The entire lane is unconstructed and the section being considered for closure is currently used by Anglicare as off-street car parking between the two Anglicare offices.

The closure and sale of the section of Donaldson Lane is not considered to have a detrimental affect to the Council road network.

The two parcels of Council land adjoining 1-3A Fleming Street have been incorporated into the Anglicare office complex garden surround and will not be utilised for municipal purposes.

Attachments
1. Site Plan
2. Correspondence from Anglicare
3. Stirloch Developments Pty Ltd Submission.

#### RECOMMENDATION

- 1. That Council, having considered the one submission received, form the opinion that the part of Donaldson Lane, Morwell adjoining 65 Church Street and 1-3A Fleming Street Morwell is not reasonably required as a road for public use.
- 2. That Council resolves to discontinue and sell by private treaty that part of Donaldson Lane, Morwell pursuant to Section 206 and Schedule 10 Clause 3 of the *Local Government Act* 1989 to Anglicare Victoria.

- 3. That a notice be published in the Government Gazette to formally discontinue the section of Donaldson Lane, Morwell adjoining 65 Church Street and 1-3A Fleming Street Morwell.
- 4. That Council form the opinion that the two parcels of Council owned land adjoining 1-3A Fleming Street are surplus to both Council and community requirements and resolves pursuant to section 189 of the *Local Government Act* 1989 to sell the land to Anglicare Victoria.
- 5. That pursuant to the Sale of Council Property Policy the Chief Executive Officer is authorised to enter into Contracts of Sale and sign and seal Transfer of Land Documents to dispose of this section of Donaldson Lane and land adjoining 1-3A Fleming, Morwell.
- 6. That Council advise Stirloch Developments Pty Ltd of Council's decision in this matter.

Moved: Cr Gibson Seconded: Cr Harriman

That the Recommendation be adopted.

**CARRIED UNANIMOUSLY**

69 Head Street, TRARALGON VIC 3844

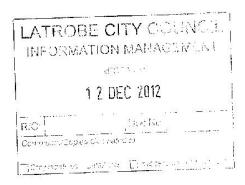

Ph: 03 5175 0633

10th December, 2012

Mr Peter Schultz Property and Statute Officer Latrobe City PO Box 264 Morwell, VIC 3840

Dear Sir.

RE: Proposed Road Discontinuance and Sale of Land -Donaldson Lane and Fleming Street, Morwell

We are strongly against the closure / discontinuance of any part of the unnamed laneway off Church Street.

This lane provides a link with our land from both Church and Fleming Streets. I have enclosed a Master Plan for the development of the land for which we hold a Development Approval. It shows the connections with our property

Our land is Zoned Mixed Use and as such has planned a residential component which abuts the lane. The unnamed lane will provide access to two of the development sites.

If this closure is allowed to proceed it will have a detrimental effect on the value of the land.

We purchased the land from Council knowing the lane was in place and added value to the parcel of land. We see it as very concerning that Council is considering closing a laneway in a relatively shortly period after selling it and in effect reducing the value of the land.

We urge Council to reject the part lane closure.

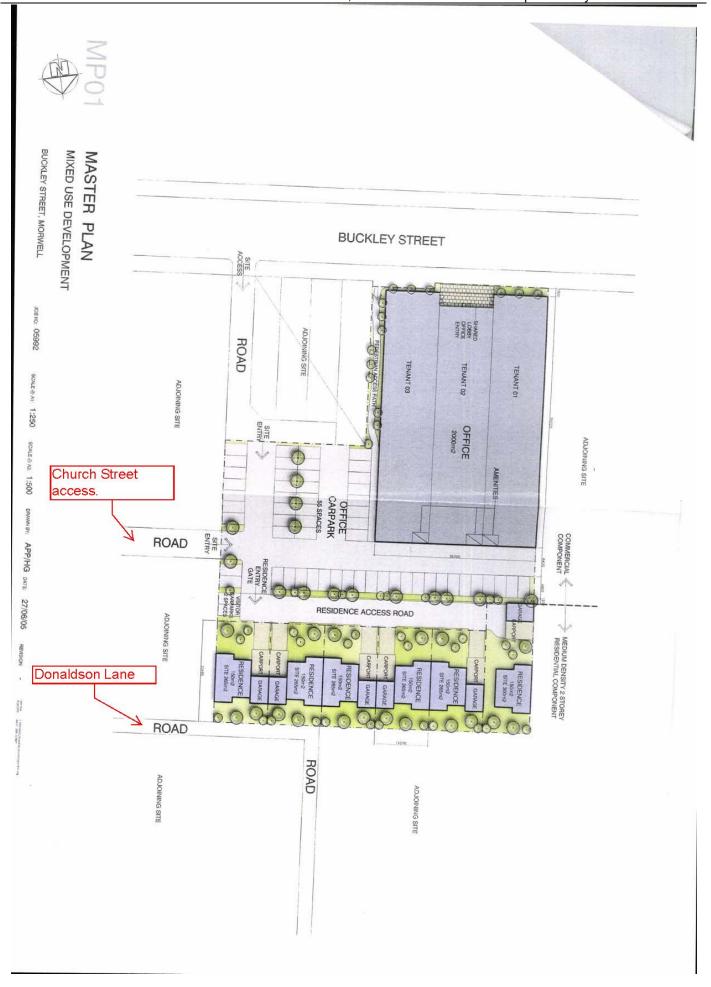

We would welcome the opportunity to discuss this further with Council representatives

Please contact me with any of your queries; we look forward to providing this new facility. My contact details are provided.

Yours faithfully,

Ken Beck

# 9.2 PROPOSED ROAD DISCONTINUANCE OR ROAD BARRIER - DEAKIN LANE, TRARALGON

**General Manager** 

Governance

For Decision

#### **PURPOSE**

The purpose of this report is to consider a submission received regarding the proposed placement of permanent barriers over Deakin Lane, Traralgon.

#### **DECLARATION OF INTEREST**

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

#### STRATEGIC FRAMEWORK

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

#### Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives - Governance

In 2026, Latrobe Valley has a reputation for conscientious leadership and governance, strengthened by an informed and engaged community, committed to enriching local decision making.

#### Latrobe City Council Plan 2012 - 2016

#### Shaping Our Future

An active connected and caring community Supporting all

#### Strategic Direction - Governance

- Support effective community engagement to increase community participation in Council decision making.
- Delegate appropriately and make sound decisions having regard to legislative requirements, policies, professional advice, sound and thorough research and the views of the community.
- Provide timely, effective and accessible information about Latrobe City Council's activities.

#### Legislation

Local Government Act 1989

Section 206 and Schedule 10 Clause 3 of the *Local Government Act* 1989 gives Council the power to discontinue roads:

"A Council may, in addition to any power given to it by Sections 43 and 44 of the *Planning and Environment Act* 1987-

- (i) discontinue a road, or part of a road, by a notice published in the Government Gazette; and
- (ii) sell the land from that road (if it is not Crown Land), transfer the land to the Crown or itself or retain the land."

Section 207 and Schedule 11 Clause 9 of the Local Government Act 1989 gives Council the power to place obstructions or barriers on a road permanently:

- (1) A Council may block or restrict the passage or access of vehicles on a road by placing and maintaining any permanent barrier or other obstruction on the road.
- (2) A Council must not exercise this power unless it has considered a report from the Roads Corporation concerning the exercise of this power.
- (3) The exercise of this power is subject to any direction of the Minister.
- (4) This clause does not apply to a freeway or arterial road within the meaning of the Road Management Act 2004, unless the Council has the consent of the Roads Corporation.

Both of these powers are subject to Section 223 of the Local Government Act 1989 which requires Council "publish a public notice stating that submissions in respect of the matter specified in the public notice will be considered in accordance with this section."

Council must then consider any written submissions that have been received and any person who has made a submission and requested they be heard are entitled to appear before a meeting of Council.

Policy – Council does not have an adopted policy relating to the discontinuance of road.

#### **BACKGROUND**

Council has received a request from the owners of 2 Deakin Street, Traralgon, for the discontinuance of Deakin Lane as shown on the attached plan and photographs, attachment 1.

Deakin Lane was originally created in 1957 on LP 41285 as *land* appropriated or set apart for easements of way and drainage. This lane is now described on Certificate of Title Volume 10246 Folio 309 as "Road R1 on Plan of Subdivision 041285".

The registered owners of the Road are also the owners of 2 Deakin Street, Traralgon (the applicant). A copy of the Application Letter, Plan of Subdivision and Certificate of Title are attached refer Attachments 2, 3 & 4.

Deakin Lane is fully constructed being four metres wides on the east/west alignment and is a total length of 48 metres. This lane terminates at the southern boundary of 5-7 Church Street.

The laneway is listed on the Register of Public Roads in *Appendix 4 – Roads Not Maintained by Latrobe City Council* and there are Council drainage assets contained within the road reserve.

The owners of 2 Deakin Street have advised that they have experienced ongoing incidents of antisocial behaviour which has prompted them to make application to Council to have the laneway discontinued.

As the applicants are the registered proprietors of the road reserve, they consider it would be appropriate for Council to discontinue the road and for the land to be transferred back to them for a nominal consideration where it would be retained as a private access laneway.

In examining this request, it has been found that Deakin Lane provides access to off-street parking at the rear of the office complex at 3 Church Street. This off-street car park was a requirement of Planning Permit 93/745/PO issued by the former City of Traralgon on the 7 September 1993 and later an amended plan was endorsed on the 10 May 1994.

Deakin lane also provides access to a large door at the rear of 72 Princes Street and corner Deakin Street.

Council previously considered this matter at the Ordinary Council Meeting held on Monday 17 December 2012 and resolved the following:

- That Council gives public notice of its intention to consider the placement of permanent barriers over Deakin Lane, Traralgon, pursuant to Section 207 and Schedule 11 Clause 9 of the Local Government Act 1989.
- 2. That Council considers any submissions received in relation to the proposed placement of permanent barriers over Deakin Lane, Traralgon, at the Ordinary Council Meeting to be held on Monday 18 February 2013.

#### **ISSUES**

The initial expression of interest from the applicants requested that Council discontinue and transfer ownership of the land back to the applicant (attachment 2). As there are a number of properties that have carriageway and use rights over this lane, officers determined that it would not be feasible to formally discontinue the road. Officers therefore proposed to the applicants and obtained their support to recommend to Council that it considers undertaking the statutory process to allow the installation of lockable gates on the road reservation.

These permanent barriers being gates would allow all adjoining property owners' access to Deakin Lane during normal business hours whilst still providing the security that the applicant is seeking outside of business hours. The use of locked gates proved very effective to resolve a similar problem at Tarwin Lane between 14 and 16 Tarwin Street Morwell.

Since receiving the initial application and then the revised proposal to obtain consent to erect lockable gates, officers have had numerous discussions with the applicant's representative and Council has also received the additional correspondence:

- Letter dated 14 December 2012 concerning the proposed development at 5-7 Church Street and how it effects the immediate area, in particular the reduction in size to the loading zone in Deakin Street.
- Email dated 20 December 2012 advising of an intention to erect a boundary fence at the rear of the 2 Deakin Street (applicants property) and 3 Church street; and
- Letter dated 18 January 2012 inviting Council to a meeting to discussion the applicant's position in regard to the Deakin Lane.

Based upon these documents and the discussions with the applicant's representative, officers believe it is now their stated intention to prevent adjoining property owners and the general public having continued use of the lane by erecting a boundary fence at the rear of their property and gates across the front of the lane.

As mentioned in the Background section of the report, Deakin Lane was created as an easement of way to service four lots created on Plan of Subdivision LP 41285. Three of these lots face Deakin Street (the applicants property) and the fourth fronting Princes Street being part of the decommissioned Caltex Petrol Station, corner Church Street and Princes Street.

Deakin Lane also provides access to the off street car park rear of 3 Church Street and a large door at the rear of 72 Princes Street. In acknowledging that the Deakin Lane is being used to access adjoining properties, Officers have formed the opinion that Deakin Lane has acquired the status of a public highway at common law.

In this instance the common law *Doctrine of Dedication and Acceptance* in relation to Deakin Lane has been satisfied, firstly by land being set aside as a easement of way (Dedication) on the 1957 plan of subdivision LP 41285 and shown as Road R1 on Certificate of Title Volume 10246 Folio 309. Secondly, as the lane is used by the public, adjoining property owners and occupiers the requirement for acceptance is satisfied.

This position is supported by legal advice previously obtained from Council's solicitors in relation to two similar matters. Relevant sections of this advice are summarised below:

#### **Right of Access**

At common law, an owner or occupier of land adjoining a public highway (road) has a right to access the road from their land.

#### A Public Highway is vested in Council

A road is a public highway at common law because there has been:

- Dedication of the Road to the public when it was constructed; and
- Subsequent acceptance of the Road, by the public, through public use of the Road.

As Deakin Lane is marked as a "road" on title, this is a clear indication that the road is a public highway at common law. In addition, Clause 1 of Schedule 5 in the *Road Management Act* 2004 (RMA) also has the effect of vesting in Council particular roads (including Deakin Lane).

The effect of this public highway classification is that the road remains open for the public to use, regardless of who owns the land underneath and the road is vested in Council.

#### Council has responsibility for use and control over Road

The general public's right to use a road (including a public highway) is confirmed by section 8 of the RMA. The RMA also places Council in control of roads because:

- by operation of section 37 of the RMA and division 2 of Part 9 of the Local Government Act 1989 (LGA) as well as Schedules 10 and 11 of the LGA; and
- The Road is on Council's register of public roads.

In light of the above, only Council is entitled to control access to a road by virtue of the powers conferred in both the RMA and LGA. Therefore, despite holding title to the land over which a road is constructed, the registered owner/s does not enjoy exclusive possession with respect to the road (as opposed to an ordinary parcel of land). It follows that Council maintains control and responsibility for a road, regardless of whether Council or another party holds title to the land over which the road is located.

Planning Permit 93/745 issued by the former City of Traralgon the 8 September 1993 and later amended on the 10 May 1994 for an office complex at 3 Church Street contained two conditions that relate specifically to Deakin Lane:

Condition 2. "the owner prior to the commencement of the use hereby permitted shall transfer to council, at his cost, a rear portion of the land abutting the rear laneway having a minimum width of 1.73 metres and length of 15.2 for the purpose of providing public vehicular access to the rear of the site."

Officer comment: This strip of land abuts the existing lane and was required to increase the width of the lane to approximately six metres at the rear of both 2 Deakin Street and 3 Church Street. This road widening was to provide improved access to a proposed mid block off street car park that was identified to be constructed at the rear of premises fronting Church Street from Deakin Lane north through to Hotham Street. The assembly of land for the proposed mid block off street car has not progressed.

The transfer of the strip of land at the rear of 3 Church Street did not occur as required and officers have recently obtained a commitment from the current owner to arrange for the transfer of this piece of land.

Condition 3. "a plan detailing the construction and drainage of the parking area and driveway shall be submitted to the satisfaction of the responsible authority prior to the construction of the car parking area, and prior to occupancy of the premises.

Such driveway and car parking area shall be constructed with bituminous surface or reinforced concrete or block work to the satisfaction of the responsible authority.

Minimum depth of pavement materials to be 150mm depth, and bituminous surface to be 30mm depth."

Officer Comment: The section of land between the rear of 3 Church Street and 2 Deakin Street including the section of laneway and part of 2 Deakin Street was completely constructed with a concrete surface and line marked for car parking. It is assumed that this construction occurred as part of the office complex at full cost to the developer.

Later in September 1999, the owner of 3 Church Street wrote to Council concerning the unmade east/west section of Deakin Lane from Deakin Street through to the section of constructed laneway and car park the rear of 3 Church Street and 2 Deakin Street, refer attachment 5 – photo of laneway. The photo was taken the 24 July 1999 and shows that the east/west section of the laneway was unconstructed and the surface was rough with a number of large potholes containing water.

The Deakin Street Road file details that two meetings were held concerning the state of the lane in October 1999 and another in November 2000. The later meeting was between Council and representatives from Tripodi Fruit Supply and the Latrobe Regional Development Group. This meeting discussed the possibility of fully constructing the entire east/west area with reinforced concrete from building line to building line. Each party was requested to consider contributing \$6,000 towards the cost of this project.

The Latrobe Regional Development Group have stated that they fully funded the construction cost. At present it is unknown whether Council or any other party contributed towards the cost of this construction.

### FINANCIAL, RISK AND RESOURCES IMPLICATIONS

Risk has been considered as part of this report and it is considered to be consistent with the Risk Management Plan 2011-2014.

In the event Council was to complete the statutory process and consent to the applicant request to erect gates and a suitable formal agreement being entered into with the applicant to cover installation, maintenance and access to the gates, there is unlikely to be any associated risks with the proposed placement of permanent barriers over Deakin Lane.

Should Council not agree to the applicant requests and Deakin Lane remains an open public highway, there is the potential that Council may need to take enforcement action should the applicant decide to block public use of the laneway.

With respect to financial implications, if Council resolves to restrict access by allowing the placement of gates across Deakin Lane all costs associated with the construction of the gates would be borne by the applicants.

### INTERNAL/EXTERNAL CONSULTATION

Engagement Method Used:

- Public notices placed in the Latrobe Valley Express on Thursday 20 December 2012 together with Monday 7 and Thursday 10 January 2013.
- Letters sent to all adjoining property owners and occupiers together with VicRoads and Gippsland Water
- Notice displayed at the Traralgon Service Centre.
- Details placed on the Latrobe City Council website.

Details of Community Consultation / Results of Engagement:

In response to the public notices and correspondence one submission (attachment 6) was received from Beveridge Williams & Co Pty Ltd on behalf of Petroleum Property Holdings Pty Ltd Traralgon, owner of 1 Church Street and Parody Glade Pty Ltd owner of 3 Church Street Traralgon.

This submission "strongly objects" to the proposal to place gates across Deakin Lane for the following reasons:

- Petroleum Property Holdings Pty Ltd (1 Church Street) has existing rights over the lane.
- Petroleum Property Holdings Pty Ltd require permanent unimpeded access along Deakin Lane as it has plans for future redevelopment on the site.

 Parody Glade Pty Ltd (3 Church Street) requires continued access to the off-street car park at the rear of its office development. The provision of off-street car parking was a requirement of the planning permit issued for the office development constructed in 1994.

In addition to raising the above points in support of this objection, Beveridge Williams & Co have stated that the owners of Lots 1, 2 & 3 Deakin Street have indicated that "they wish a new fence be constructed along the eastern boundary of the property which would prevent access from the 1-3 Church Street site to Deakin Lane. Because Deakin Lane has been regarded as a public highway by Council, the owners of these lots cannot demand that a fence be constructed along this boundary."

Beveridge Williams also state that "both our clients are very strong in their objection to the proposal to place gates across Deakin Lane or for any other action to be taken that denies them permanent access to Deakin Lane."

Beveridge Williams intend to speak in support of this submission at the Council.

### **OPTIONS**

Having given public notice and considered submissions received Council may now:

- 1. Resolve to allow permanent barriers (lockable gates) to be erected on Deakin Lane, Traralgon.
- 2. Resolve to keep Deakin Lane open to public traffic which will require no further action.

### CONCLUSION

Deakin Lane has public highway status having been used by the tenants of the office complex to access the off street car park at the rear of 3 Church Street. This car park was a requirement of a Planning Permit for the Office complex endorsed by the former City of Traralgon in 1993 and the plan amended in 1994. Without access of Deakin Lane the development would no longer comply with this requirement of the planning permit.

Deakin Lane allows access to a large door at the rear of 72 Princes Street Traralgon and the decommissioned Caltex Service Station has entitlement to use this lane as an easement of carriageway.

Considering these factors and the submission objecting to the proposal to discontinue or place a permanent barrier (lockable gates) across Deakin Lane it is recommended that Council take no further action and advises the applicant that it has formed the opinion that Deakin Lane is a public highway required for access by all adjoining property owners and occupiers.

Any action taken to either erect a boundary fence or place any other barrier across Deakin Lane would be in conflict with the Council's legislative and common law rights and Council should maintain public access to the entire length of Deakin Lane.

Attachments

1. Site Plan & Site Photos
2. Application Letter
3. Plan of Subdivision LP 041285
4. Deakin Lane Certificate of Title Volume 10246 Folio 309
5. Photo of unconstructed east/west section of Deakin Lane dated 24 July 1999.
6. Submission

### RECOMMENDATION

- 1. That Council having considered the submission received resolves that it is of the opinion that Deakin Lane is a public highway and is reasonably required as a road for public use.
- 2. That Council does not accede to the request to discontinue or place a permanent barrier (lockable gates) across Deakin Lane.
- 3. That the applicants be notified of the two Council decisions above and also advise that Council has legislative and common law responsibility for use and control of Deakin Lane, Traralgon.
- 4. That Beveridge Williams acting on behalf of Petroleum Property Holdings Pty Ltd and Parody Glade Pty Ltd be advised accordingly.

### **ALTERNATE MOTION**

That Council defer this item for one month.

Moved: Cr Sindt Seconded: Cr Gibson

That the Motion be adopted.

Mr Peter Schulz

Re: Laneway Closure 2 Deakin Street Traralgon VIC 3488

Dear Mr Schulz,

I apologise, as it has taken some time to write to you, since we spoke. This letter is in regard to an old laneway which is attached to our title, at 2 Deakin Street, Traralgon 3844.

The laneway begins at the front of our property and finishes at the rear. We believe that we purchased the property as the title states ownership. We also understand that being a "Discontinued" laneway with no street name or title the Latrobe Council are "liable" for anything unfortunate that could happen.

We propose that Latrobe City Council transfer full ownership to us, as our entitlement and therefore rid them of liability. We believe that it is in all party's best interest. The laneway will be left as an access laneway, servicing our needs.

Please if you could take this into consideration we would be appreciative.

Thank you. Yours Faithfully

Gino Tripodi On behalf of Stefano Tripodi

City of Latrobe
PO Box 264
MORWELL VIC 3840

Dear Peter,

RE: YOUR REFERENCE: R511973/00

PROPOSED PLACEMENT OF PERMANENT BARRIERS

DEAKIN LANE, TRARALGON

We refer to your letter dated the 18th of December 2012 to Mr Leo DiFabrizio of the Latrobe Regional Development Group and advise as follows.

We act for the following registered proprietors in this matter:

- Parody Glade Pty Ltd who are the registered proprietors of the land described in certificate of title volume 7263 folio 425 being lot 1 on TP 532747M being located at 1-3 Church Street, Traralgon.
- Petroleum Property Holdings Pty Ltd who are the registered proprietors of the land described in certificate of title volume 8156 folio 270 being lot 4 on plan of subdivision LP 41285.

Copies of these titles are enclosed for your information.

As you are aware Deakin Lane was created in LP 41285 with lots 1, 2, 3 and 4 of that subdivision having way and drainage rights over the lane.

The land comprising Deakin Lane is described in certificate of title volume 10246 folio 309 being road R1 on plan of subdivision LP 41285.

We understand the proposal as stated in your letter dated the 18th December 2012 is for council to consider the place of permanent barriers across Deakin Lane.

We wish to advise that both our clients strongly object to this proposal.

Lot 4 on LP 41285, owned by Petroleum Property Holdings Pty Ltd has existing way and drainage rights over Deakin Lane because it is part of the original subdivision, LP 41285.

www.beveridgewilliams.com.au

Petroleum Property Holdings Pty Ltd require permanent unimpeded access to continue to be provided along Deakin Lane because they have plans to develop their property (lot 4) in the future and will require the rear access that Deakin Lane provides.

The building at 1-3 Church Street Traralgon was constructed in 1994. The City of Traralgon required car parking for this facility to be provided at the rear of the building. The only access to this car parking area is via Deakin Lane, which council must have deemed to be a public highway, otherwise they would not have been in a position to require the car parking to be at the rear of the building.

We understand the registered proprietors of lots 1, 2 and 3 on LP 42185 have indicated that they wish a new fence be constructed along the eastern boundary of the property which would prevent access from the 1-3 Church Street site to Deakin Lane. Because Deakin Lane has been regarded as a public highway by Council, the owners of these lots cannot demand that a fence be constructed along this boundary.

Both our clients are very strong in their objection to the proposal to place gates across Deakin Lane or for any other action to be taken that denies them permanent access to Deakin Lane.

If possible we would like an opportunity to address council regarding this matter at the council meeting to be held on Monday 18th of February 2013.

If you have any queries please do not hesitate to contact us.

Yours faithfully

**BEVERIDGE WILLIAMS & CO**

# 9.3 PETITION - REQUEST TO BUILD A ROUNDABOUT AT THE INTERSECTION OF MARKET STREET AND ALBERT STREET MOE

This item was heard earlier in the meeting.

# **CORRESPONDENCE**

### 7. CORRESPONDENCE

Nil reports

# PRESENTATION OF PETITIONS

### 11. PRESENTATION OF PETITIONS

11.1 PETITION TO IMPLEMENT THE MOE RAIL PRECINCT

REVITALISATION PROJECT MASTER PLAN AND ACTIVELY

SEEK FUNDING FROM BOTH STATE AND FEDERAL

GOVERNMENTS TO ENSURE COMPLETION OF THE PROJECT.

This item was heard earlier in the meeting.

### 11.2 PETITION IN RELATION TO THE PROPOSED DEMOLITION OF 171 FRANKLIN STREET, TRARALGON (OSTLERS HOUSE) - PLANNING APPLICATION REFERENCE 2011/397.

**General Manager** 

Governance

For Decision

### **PURPOSE**

The purpose of this report is to present Council with a petition received in relation to planning application reference 2011/397 for the demolition of a building (Ostlers House) at 171 Franklin Street, Traralgon. The petition seeks that Council prevent the demolition of the building and consider future opportunities to capitalise on this tourist attraction.

### **DECLARATION OF INTEREST**

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

### STRATEGIC FRAMEWORK

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

### Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives - Built Environment

In 2026, Latrobe Valley benefits from a well planned built environment that is complimentary to its surroundings and which provides for connected and inclusive community.

Latrobe City Council Plan 2012 - 2016

### Shaping Our Future

Gippsland's Regional City Strengthening our profile

An active connected and caring community Supporting all

Attract, retain, support Enhancing opportunity, learning and lifestyles

Strategic Direction - Built Environment

Promote and support high quality urban design within the built environment.

Ensure proposed developments enhance the liveability of Latrobe City, and provide for a more sustainable community.

### **BACKGROUND**

The petition (Attachment 1) was received on Monday 4 February, 2013, and contains 546 signatures.

The petition seeks that Council prevent the demolition of the building and consider future opportunities to capitalise on the tourist attraction.

### **ISSUES**

Planning application reference 2011/379 is for the demolition of a heritage listed building known as Ostlers House. The subject building is identified in *Latrobe City Heritage Study* (2010) HO 101, which includes both Ostlers House and Traralgon (Ryans) Hotel.

The planning application assessment has been undertaken and a report was presented to Council for decision making at the Ordinary Council meeting on 4 February 2013. The planning application was found to be inconsistent with the requirements of the Latrobe Planning Scheme and Council resolved as follows:

That Council issues a notice of Refusal to Grant a Planning Permit, for the demolition of a building commonly known as Ostler's House of the land at Lot 2 on PS 314881, more commonly known as 171 Franklin Street, Traralgon on the following grounds:

- The proposal is not consistent with Clause 15 'Built Natural Environment and Heritage' as the proposal is for the demolition of a heritage listed building with no alternative use or development proposed.
- 2. The proposal is not consistent with Clause 15.03-1 'Heritage conservation' as the proposal is for the demolition of a heritage listed building.
- 3. The proposal is not consistent with Clause 21.04-4 'Heritage Overview' and the incorporated document Latrobe City Heritage Study 2010.
- 4. The proposal is not consistent with the 'Purpose' of Clause 43.01, the Heritage Overlay.
- 5. The proposal is not consistent with the 'Decision Guidelines' of Clause 43.01-4, the Heritage Overlay.
- 6. The proposal is not consistent with Clause 65 'Decision Guidelines'.

A Notice of Refusal has been issued to the applicant in accordance with the resolution. The decision of Council is consistent with the request set out in the petition.

The petition also makes reference to future opportunities to capitalise on the tourist potential of the building. Council has no jurisdiction to direct the use of land or buildings that are within private ownership. In this context it is not possible to directly influence any tourism opportunities that may be related to this historic structure.

Council is currently undertaking work in relation the future of Traralgon Activity Centre via the Traralgon Activity Centre Plan (TACP) – the subject site forms part of the TACP study area. This project considers (amongst other things) the heritage value of buildings and places within the Traralgon Activity Centre including opportunities (via signage, trails etc.) to enhance tourism opportunities across the whole activity centre. In this wider context it is considered that the TACP project addresses the request set out in the petition.

It is noted that the delivery of the TACP project is connected to the preparation of a growth strategy for Traralgon – the Traralgon Growth Areas Review (TGAR). Progress with the TACP study is intended to recommence following further work on the TGAR project. It is deemed appropriate for Council to deal with the petition at this Ordinary Council Meeting.

### FINANCIAL, RISK AND RESOURCES IMPLICATIONS

Risk has been considered as part of this report and it is considered to be consistent with the Risk Management Plan 2011-2014.

There are no financial or resource implications arising from this report at this point in time.

### INTERNAL/EXTERNAL CONSULTATION

There has been no specific community engagement undertaken in the preparation of this report.

### **OPTIONS**

Council has the following options in relation to the petition;

- 1. Lay the petition on the table until a future Ordinary Council Meeting; or
- 2. Deal with the petition at this Ordinary Council Meeting.

### CONCLUSION

The request set out in the petition relating to the proposed demolition of Ostlers House at 171 Franklin Street, Traralgon was primarily addressed by the decision of Council on 4 February 2013 to refuse the planning application. A Notice of Refusal has been issued to the applicant in accordance with the resolution.

Issues relating to future opportunities to capitalise on the tourist potential of the building are also being addressed in a broader context as part of the TACP project.

Attachments
1. Petitiion

### **RECOMMENDATION**

- 1. That Council considers the petition at this meeting and notes required measures to resolve concerns raised by the petition have been actioned.
- 2. That the head petitioner be advised of Council's decision in relation to the petition.

Moved: Cr O'Callaghan Seconded: Cr Harriman

That the Recommendation be adopted.

**CARRIED UNANIMOUSLY**

C.E.O. Paul Buckley, Latrobe City, P.O. Box 264, Morwell. 3840.

**APPLICATION NO: 2011/397** 

Dear Paul Buckley. C.E.O.,

Please accept these petitions from our community re the retaining of the historical building the **Ostler's House** in Kay Street, Traralgon.

Enclosed also is a copy of a photo of the Procession in Franklin Street taken in 1893. The Ostler's House can be seen next to the wooden building The Travellers' Rest

This photo of the procession is mentioned in the Latrobe City Heritage Study, Volume 3, Final Report – December 2008 on page 398.

In the 'Planning Mediation Meeting' booklet, there is reference to this photo on page 485 as well.

Would you please forward these petitions, the copy of the photo, the sheet pertaining to the history of the Ostler's House and this cover letter to the Mayor, Sandy Kam, all the Councilors and to the Statutory Planner Jody Riordan.

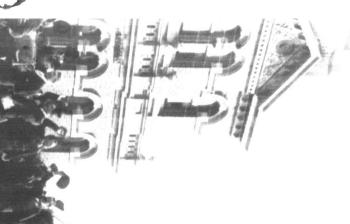

We appreciate the research and effort that Jody Riordan has gone to in regard to the Ostler's House as per the Planning Mediation booklet.

Yours Sincerely

Thelma J. Mayye.

THELMA MAYZE.

Secretary, Traralgon and District Historical Society Inc.

OSTLERS HOUSE ON PROPERTY TRAINING HOTEL MILT REFORE 1803

### THE OSTLER'S HOUSE

In the beginning of the year 1858, the government in Melbourne sent a surveyor to Traralgon to mark out the township. This surveyor marked our first streets. All he saw was the track to Sale past the hotel, the rest all open grassy forest. He called this track Kay Street on both sides of the creek after Captain Kay who was a Government officer in Melbourne. He marked Franklin St. in the grass, naming it after Sir John Franklin who had been Governor of Van Diemen's Land. He also named Grey St, Seymour St and Hotham St. after Sir Charles Hotham who had been Governor of Victoria. The land was now for sale to settlers; the day of huge cattle runs was over.

Duncan Campbell had previously bought the Traralgon West run from James Purves in 1854. He built a homestead where the Traralgon Park homestead is now. Duncan decided to build a hotel in 1858, the Traveller's Rest. This part of Traralgon was on his run, so he picked a bit of high ground, before the track went down to the bridge over the creek. It was an ambitious building, there were four sitting rooms, a dining room, eight bedrooms, as well as the bar and cellar. Out in the yard were six more bedrooms, the kitchen and laundry. The building was of hand sawn logs, the cellar was built first, the first load of grog arrived and was drunk in the cellar before any of the rest of the hotel was built. Peter McColl a relative of Duncan's, was the licencee,. Then in August 1859 the Government began selling land in Traralgon, Duncan bought all the land on the north side of Grey St. for £1 an acre. Ryan's Hotel corner was sold with the new Traveller's Rest on it. Anyone buying it also had to pay Duncan £1,725 for his hotel. A lot of money for those days! There were no takers, so Duncan bought the land for £4. He also bought extensive holdings in the rest of the 'town'.

The hotel did very well, gold was discovered in Gippsland and as Traralgon was on a direct route to the goldfields it soon began to grow. The road too was getting better. Coaches were running from Sale to Morwell with the mail. From there it was carried by packhorse as far as Nar Nar Goon where it was again carried by coach. Duncan Campbell was of course the Postmaster at Traralgon, his hotel was the Post Office, store, Court House, Church; the first wedding was conducted there in 1863, and meeting place, races, sports and cattle sales were held there. He was the "King of Traralgon" Then in 1865 Cobb & Co. coaches started running all the way to Melbourne. The horses were changed every 15 or 20 miles, and here at Traralgon the stables were at the renamed Traralgon Hotel, where the coach horses were kept. John Whalley was the ostler, Mr H. J. Mapelson recorded the ostler taking the coach horses to the swamps to wash the mud of travel from them. Horses were always indispensible even after the railway came to Traralgon. To post a letter from Walhalla took a forty mile ride to Traralgon. Horses were still being used as carriers up to the 1960's, ostlers were as essential as mechanics are now.

The hotel has changed hands several times, and has been renamed several times, but the 'reborn' hotel has stood on that spot, since before Traralgon was even a hamlet. It is 155 years old now, and a Google search failed to find another Ostler's House anywhere in Australia. We are probably the proud owners of the only one in OZ. As Mr Mapleson said "upon the struggles and toil of those adventurous pioneers are based the flourishing Traralgon of today."

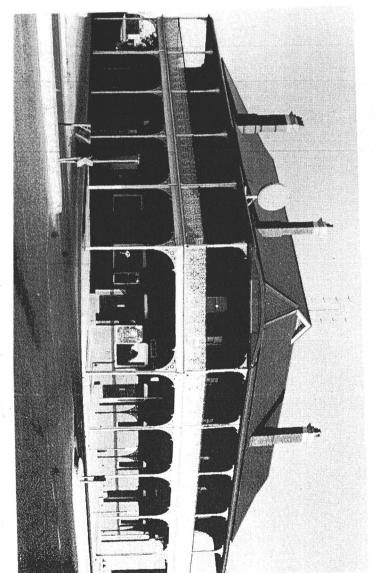

This is our heritage, of inestimable value, it must be preserved.

Book: Travalgon - A Tableau Through Time

Hotels played a very important part in our early history, usually being the only places offering accommodation and meals for travellers. The first of these were slab-built with bark roofs and little comfort.

When Duncan Campbell, in 1858, built The Travellers' Rest (later the Traralgon Hotel) of pit-sawn red-gum timber, it immediately became a popular stopping place. It contained 8 bedrooms, 4 sitting rooms, a large dining room, bar and cellar in the main building. At the back a kitchen, laundry and 6 more bedrooms were built. Later, a store was added and another room which was used for public meetings, church services and a Court Room.

The present-day Traralgon Hotel, classified by the National Trust, was built in 1914 on the same site at the corner of Kay and Franklin

## To LATROBE CITY COUNCIL Re OSTLER'S HOUSE

THE OSTLER'S HOUSE ON PROPERTY TRARALGON HOTEL
BUILT BEFORE 1893

We are concerned members of the Traralgon Historical Society and residents and visitors to the Latrobe Region.

We have come together to sign this petition to draw to your attention that an important and irreplaceable part of our Latrobe Valley Heritage is in danger of destruction.

The Ostler's House adjacent to Ryan's Hotel and pre-dating the 1914 re-construction of that hotel is located on the historic site of Duncan Campbell's Traveller's Rest Hotel, which was the towns core from 1858, providing hotel, general store, post office, court house, meeting rooms and church, combined. Duncan Campbell the 'King of Traralgon' also held race meetings, sports, and cattle markets on this site. Travellers could take the Cobb and Co. coach to Melbourne or Sale. The ostler is recorded by Mr H.J. Mapleson as taking the coach horses to be washed in nearby swamps. Mr H.J. Mapleson, visited in 1870 and paid tribute to those early entrepreneurs: "Upon the struggles and toil of those adventurous pioneers are based the flourishing Traralgon of today."

We therefore request that Latrobe City Council make every effort to prevent the demolition of this valuable historic building, and consider how to capitalize on this tourist attraction.

We have come together to sign this petition to draw to your attention that an important and irreplaceable part of our Latrobe Valley Heritage is in danger of destruction.

The Ostler's House adjacent to Ryan's Hotel and pre-dating the 1914 re-construction of that hotel is located on the historic site of Duncan Campbell's Traveller's Rest Hotel, which was the towns core from 1858, providing hotel, general store, post office, court house, meeting rooms and church, combined. Duncan Campbell the 'King of Traralgon' also held race meetings, sports, and cattle markets on this site. Travellers could take the Cobb and Co. coach to Melbourne or Sale. The ostler is recorded by Mr H.J. Mapleson as taking the coach horses to be washed in nearby swamps. Mr H.J. Mapleson, visited in 1870 and paid tribute to those early entrepreneurs: "Upon the struggles and toil of those adventurous pioneers are based the flourishing Traralgon of today."

THE OSTLER'S HOUSE ON PROPERTY TRARALGON HOTEL
BUILT BEFORE 1893

We are concerned members of the Traralgon Historical Society and residents and visitors to the Latrobe Region.

We have come together to sign this petition to draw to your attention that an important and irreplaceable part of our Latrobe Valley Heritage is in danger of destruction.

The Ostler's House adjacent to Ryan's Hotel and pre-dating the 1914 re-construction of that hotel is located on the historic site of Duncan Campbell's Traveller's Rest Hotel, which was the towns core from 1858, providing hotel, general store, post office, court house, meeting rooms and church, combined. Duncan Campbell the 'King of Traralgon' also held race meetings, sports, and cattle markets on this site. Travellers could take the Cobb and Co. coach to Melbourne or Sale. The ostler is recorded by Mr H.J. Mapleson as taking the coach horses to be washed in nearby swamps. Mr H.J. Mapleson, visited in 1870 and paid tribute to those early entrepreneurs: "Upon the struggles and toil of those adventurous pioneers are based the flourishing Traralgon of today."

THE OSTLER'S HOUSE ON PROPERTY TRARALGON HOTEL
BUILT BEFORE 1893

We are concerned members of the Traralgon Historical Society and residents and visitors to the Latrobe Region.

We have come together to sign this petition to draw to your attention that an important and irreplaceable part of our Latrobe Valley Heritage is in danger of destruction.

The Ostler's House adjacent to Ryan's Hotel and pre-dating the 1914 re-construction of that hotel is located on the historic site of Duncan Campbell's Traveller's Rest Hotel, which was the towns core from 1858, providing hotel, general store, post office, court house, meeting rooms and church, combined. Duncan Campbell the 'King of Traralgon' also held race meetings, sports, and cattle markets on this site. Travellers could take the Cobb and Co. coach to Melbourne or Sale. The ostler is recorded by Mr H.J. Mapleson as taking the coach horses to be washed in nearby swamps. Mr H.J. Mapleson, visited in 1870 and paid tribute to those early entrepreneurs: "Upon the struggles and toil of those adventurous pioneers are based the flourishing Traralgon of today."

We therefore request that Latrobe City Council make every effort to prevent the demolition of this valuable historic building, and consider how to capitalize on this tourist attraction.

# RECREATION CULTURE AND COMMUNITY INFRASTRUCTURE

#### 14. RECREATION CULTURE AND COMMUNITY INFRASTRUCTURE

#### 14.1 AFFORDABLE HOUSING PROJECT - OUR FUTURE OUR PLACE

**General Manager** 

Recreation, Culture & Community Infrastructure

For Decision

#### **PURPOSE**

This report presents the results, to date, of the investigation into undertaking an affordable and sustainable housing project on the Kingsford Reserve, Moe, and, provides detail and seeks approval of a proposal to commence an Expression of Interest process to complete the investigation and assessment of the project feasibility.

#### **DECLARATION OF INTEREST**

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

#### STRATEGIC FRAMEWORK

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives - Built Environment

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

#### Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives - (i) In 2026, Latrobe Valley benefits from a well planned built environment that is complimentary to its surroundings, and which provides for a connected and inclusive community.

Strategic Objectives - (ii) In 2026, Latrobe Valley is one of the most liveable regions in Victoria, known for its high quality health, education and community services, supporting communities that are safe, connected and proud.

Strategic Direction -

(a) Promote and support private and public sector investment in the development of key infrastructure within the municipality.

- (b) Utilise place management principles in planning, developing and promoting localities within the Latrobe City.
- (c) Promote and support high quality urban design within the built environment.
- (d) Ensure proposed developments enhance the liveability of Latrobe City, and provide for a more sustainable community.
- (e) Encourage environmentally sustainable design principles, including water sensitive urban design in proposed public and private developments.
- (f) Provide support, assistance and quality services in partnership with relevant stakeholders to improve the health, wellbeing and safety of all within Latrobe City.
- (g) Facilitate and support initiatives that strengthen the capacity of the community.
- (h) Support initiatives that promote diversity and social inclusion.

#### Local Government Act 1989

The Local Government Act 1989 articulates the role for local government in housing as follows:

- Coordinate with other public bodies to ensure that services and facilities are provided and resources are used effectively and efficiently.
- Ensure adequate planning for the future of the municipal district.
- Represent and promote the interests of the community and to be responsive to the needs of the community.

#### **BACKGROUND**

The future use of the Kingsford Reserve, Moe has been under consideration since 2006. This follows an acknowledgement by the Latrobe Recreation and Leisure Strategy (2006) and the Moe Newborough Outdoor Recreation Plan (2007) that the reserve was surplus to Council's recreation requirements.

In 2008 it was resolved that the land be sold to Try Youth and Community Services for a social housing project. The sale did not proceed as that organisation withdrew and was not able to complete the transaction.

At its ordinary Council Meeting held on Monday 4 June 2012 Council resolved:

- 1. That Council not sell Kingsford Reserve, Moe.
- 2. That Council investigate the potential of an affordable and sustainable housing project being undertaken on Kingsford reserve, Moe.
- 3. That a further report be presented to Council with the results of the investigation of an affordable and sustainable housing project being undertaken on Kingsford Reserve, Moe.
- 4. That Council notify those persons who have previously made a written submission concerning the potential sale of this land.

Kingsford Reserve is approximately 450 metres south of the central business district and is approximately 8,724 square meters in size. The land has two street frontages, one in Hinkler Street and the other in Kingsford Street (attachment 1).

This proposed project builds upon the experience gained by Latrobe City Council in developing and managing housing projects through its Our Future Our Place Program. This program focussed on providing training for long-term unemployed people in the building and construction industry and three houses were completed.

The Our Future Our Place (OFOP) program began in May 2005 and was kick-started by initial funding of \$195,000 provided by the Commonwealth Government's former Department of Transport and Regional Services under the Regional Partnerships Program.

Following the success of a separate housing renovation program known as 'Urban Renewal', the Our Future Our Place program was developed as a pilot project (Stage 1) by Latrobe City Council and Try Youth and Community Services in consultation with a range of State and Commonwealth Government Departments, local businesses and community members.

The funds enabled the purchase of materials for the construction of two houses within an 18 month period which concluded with the sale of the second house in December 2006. Try Youth and Community Services undertook the training of program participants and oversaw the construction activities.

A third house was built between 2007 and 2008 following a further receipt of funds by Try Youth and Community Services from the then Department of Victorian Communities and the Office of Training and Tertiary Education (OTTE).

The project had a multipurpose focus to achieve real job outcomes for the long-term unemployed and indigenous people, whilst addressing a range of community issues within former public housing estates owned by the Department of Human Services.

The development of an affordable and sustainable housing project requires that the houses must be designed within the affordability market range of a particular geographical and demographic area. Whilst some houses may be sold below the price that may be paid in a competitive open market, generally it is the unique financial arrangements that are put into place as an aid to assisting people to enter home ownership.

An initial independent investigation undertaken by Beveridge Williams, development and environmental consultants, indicates that the Kingsford Reserve could easily accommodate fourteen individual houses (see attached draft plan). The project should deliver affordable and sustainable housing for purchase to people who might otherwise be excluded from home ownership because of their financial position. The project should be specifically designed for owner-occupiers and not for people seeking an investment property.

The project should also contribute to community development and capacity building by providing opportunities to enhance the existing range of training opportunities for people wishing to enter, or who are already in, the building and construction industry.

In addition, the project should be designed as a demonstration project with evaluation mechanisms and capability of being implemented in other areas of the municipality whilst being cost neutral for Council.

#### **ISSUES**

Since June 2012, Officers have undertaken research into a range of housing financing and affordability models currently available in Australia.

Models that have been examined include:

- Western Australia Keystart Home Loans,
- First Start Shared Equity Home Loan Scheme.
- Victoria Ownhome Ballot Homes. Vic Urban.
- South Australia- HomeStart Breakthrough Loan,
- Tasmania- Home Ownership Assistance Program Shared Equity Scheme.
- Queensland Pathways Shared Equity Loan Product.
- New South Wales- Landcom Affordable Housing Demonstration Project.

For the vast majority of people a prime ambition in life is to become an owner-occupier of the home in which they live. In recent years this ambition has become harder to fulfil particularly for families who are in the lower socio-economic strata.

Research indicates that fewer low to moderate income households can afford to buy a home compared to 30 years ago, and those that do purchase often experience significant financial risks (particularly in the early years of purchase) which has to be weighed against the non-financial benefits such as greater security and stability.

The benefits of home ownership are that it enhances a sense of place, a sense of self and the connections that one can have with the broader community. Home ownership provides tangible benefits, as well as many intangible benefits, beyond the simple provision of shelter. It can provide social stability, economic reliability, community acceptance and assurance.

It is generally recognised that access to secure, appropriate and affordable housing is not only a basic requirement for all people, but also an essential component of an inclusive, dynamic and sustainable municipality. Housing is a major force that shapes the character of every neighbourhood. The image that housing creates influences people's decisions about where to live. It also shapes an area's socio-demographic makeup, quality of life, rate of growth and level of investment.

The definition of affordable housing used in many Australian studies of housing affordability is that housing repayments, for those purchasing their own home, should not be any more than 35% of their income. Any larger percentages of income paid for housing purchase may negatively impact the household's ability to meet other needs such as food, clothing, health care, education or transport. This is especially the case for those in the lowest 40% of Australians ranked by income. These factors relate to the general cost of living in any particular house design therefore sustainability should be an important consideration.

There are other contributing factors of housing affordability including:

- Easy access to a range of community services;
- Access to social and community infrastructure;
- · Easy access to public transport;
- Access to employment opportunities; and
- Neighbourhood amenity.

The Kingsford Reserve is close to the Moe Central Business District and meets all of these contributing requirements.

One of the key concepts in developing this project was that it should facilitate the development of local skills in the building and construction industry as a strategic approach in contributing to community capacity building. In building on this GippsTAFE have investigated a range of training programs that could be developed to meet the overall objectives of the project, and whilst they are very supportive of the project they do not have the current capacity to deliver the outcomes required without additional support.

An alternative method of delivering the project has been investigated that would see GippsTAFE and other training providers involved. This would be through the formation of a public private partnership arrangement between the Council and a developer or builder with an emphasis on the project providing training for apprentices and trainees with clear measurable outcomes of attainment whilst delivering a number of affordable houses as well as houses for sale on the open market.

Under a public private arrangement Latrobe City Council would provide the land subdivided as per attached plan (attachment 2) or as may be agreed upon with the developer or builder as its contribution to the project. The plan of subdivision will include rerouting of the current drainage easement located on the eastern side of the block into Council owned land.

The successful developer or builder (private sector partner) would be responsible for the development of all other infrastructure necessary to complete the project.

An Expression of Interest document (attachment 3) has been developed indicating that the project may consist of town houses or other types of housing designed to offer privacy but promote physical interaction between occupiers through an integrated community open space incorporating an attractive physical environment. The houses proposed should be a range of one, two and three bedroom properties. The design should encompass affordable energy efficient and environmental sustainability attributes.

The Expression of Interest document provides the developer or builder with the opportunity to sell a percentage of the proposed housing stock on the open market whilst a percentage of the housing is to be provided at no cost to Latrobe City Council or its nominated agent.

Once the numbers and types of housing that will be provided at no cost to Council are known, negotiations will commence with a housing provider or a housing association to manage the allocation and sale of this housing to eligible affordable housing applicants. The number of houses provided at no cost to Latrobe City Council or their nominated agent should be in accordance with or greater than the value of the land and subdivision costs of the project and will be subjected to an independent valuation.

The land in its un-subdivided state was valued by CJA Lee Property Valuers and Consultants in May 2012 at \$700,000, however the land would need to be re-valued prior to project commencement.

The value of the land together with the cost of subdivision and the diversion of the existing drainage easement would be equal to the minimum amount of financial return acceptable to Council in order to keep the project cost neutral. The financial return to Council will be assessed in the form of the value of affordable housing stock provided at no direct cost to Council or its nominated agent.

#### FINANCIAL, RISK AND RESOURCES IMPLICATIONS

The land in its un-subdivided state would need to be valued prior to project commencement.

The value of the land together with the cost of subdivision and the diversion of the existing drainage easement would be equal to the minimum amount of financial return acceptable to Council in order to keep the project cost neutral. The financial return to Council will be assessed in the form of the value of affordable housing stock provided at no direct cost to Council or its nominated agent .

Risk has been considered as part of this report and it is considered to be consistent with the Risk Management Plan 2011-2014.

#### INTERNAL/EXTERNAL CONSULTATION

In putting together this proposal and Expression of Interest document, officers have had discussions with the following stakeholders:

- Beveridge Williams
- Places Victoria
- Victorian Government Housing Registrar
- Community Housing Association
- Loddon Mallee Housing Association
- Common Equity Housing Ltd
- the Australian Housing and Urban Research Institute
- FMSA Architects
- Bank MECU
- Bendigo Bank
- GippsTAFE

Research and consultation has also included investigations of a range of housing financing and affordability models currently available in Australia. Models that have been examined include:

- Western Australia Keystart Home Loans,
- First Start Shared Equity Home Loan Scheme.
- Victoria Ownhome Ballot Homes, Vic Urban.
- South Australia- HomeStart Breakthrough Loan,
- Tasmania- Home Ownership Assistance Program Shared Equity Scheme.
- Queensland Pathways Shared Equity Loan Product.
- New South Wales- Landcom Affordable Housing Demonstration Project.

Details of Community Consultation / Results of Engagement:

The Bendigo Bank and Bank MECU have already indicated their support and participation in the project; and GippsTAFE have also indicated their desire to participate in the program.

Details of Community Consultation / Results of Engagement:

The Bendigo Bank and Bank MECU have already indicated their support and participation in the project; and GippsTAFE have also indicated their desire to participate in the program.

#### **OPTIONS**

Council may resolve to:

- 1. Proceed to advertise the Expression of Interest for this project as part of the assessment process to determine the projects viability.
- 2. Request further information or amend the Expression of Interest documentation or
- 3. Resolve not proceed with the proposed project.

#### **CONCLUSION**

Significant investigations have been undertaken as a step to developing an affordable and sustainable housing project on the Kingsford Street Reserve.

The land at the Kingsford Street Reserve is ideally situated to be used for this purpose as it offers the potential to serve as a demonstration project for higher density housing as it is of sufficient size for up to fourteen homes. The site offers the possibility of creating a model village atmosphere achieved by an overall design that physically separates houses but promotes physical interaction between occupiers through an integrated community open space incorporating an attractive physical environment.

The nature of the project offers the potential to develop a public private partnership arrangement which will provide affordable housing options together with houses for sale on the open market.

It is proposed that the development and promotion of an Expression of Interest document will allow a comprehensive evaluation of the project to be completed.

#### **Attachments**

- 1. Attachment 1
- 2. Attachment 2
- 3. Attachment 3

#### **RECOMMENDATION**

- 1. That Council proceeds to publically call for Expressions of Interest as a mechanism to assess the viability and interest in developing an affordable housing project on land known as the Kingsford Reserve in Moe.
- 2. That a further report be presented to Council for consideration on the outcome of the Expression of Interest process for the development of an affordable housing project on land known as the Kingsford Reserve in Moe.

Moved: Cr Gibson Seconded: Cr Gibbons

That the Recommendation be adopted.

#### LATROBE CITY COUNCIL

#### INFORMATION AND CONDITIONS FOR SUBMISSION

#### **EXPRESSION OF INTEREST NO: LCC-Number**

#### 1. INTRODUCTION

#### 1.1 FORM OF CONTRACT

Latrobe City Council is seeking expressions of interest for the performance of work under an agreement (which in the remainder of this document is referred to as "the Contract").

#### 1.2 CONTACT OFFICER

All enquiries regarding the Expression of Interest process must be directed to the officer or officers of the Latrobe City Council as follows:

Name, title, telephone (03) 5128 5extension

Latrobe City Council may restrict the period during which it will accept questions, requests for further information or for clarification.

#### 1.3 RESTRICTION OF INQUIRIES

Latrobe City Council restricts all questions and inquiries to the respondent and its representatives. Inquiries through potential sub-contractors and suppliers must be directed through the respondent.

#### 2. SUBMISSIONS

#### 2.1 REGISTRATION FORM AND SCHEDULES

The Registration Form and Schedules attached and other information or documents listed in the Registration Form are to be completed and will constitute the Expression of Interest.

#### 2.2 FORM OF SUBMISSIONS

2.2.1 Electronic submission lodgement via Latrobe City Council's e-tendering portal <a href="https://www.latrobe.vic.gov.au/tenders">www.latrobe.vic.gov.au/tenders</a>is to be utilised by Respondents no later than the closing time and date.

#### OR (IF EMAILED DIRECTLY) DELETE ABOVE PARAGRAPH

2.2.1 Electronic submission lodgement via email to: <a href="tenders@latrobe.vic.gov.au">tenders@latrobe.vic.gov.au</a> is to be utilised by Respondents no later than the closing time and date.

#### OR

2.2.2 Submissions may be lodged on a CD (compact disc) or a USB memory stick in either Microsoft Word or Acrobat Reader format by Respondents and be placed in the Tender Box as per Clause 2.3.

#### OR

2.2.3 Hardcopy submissionsmay be lodged in one original unbound / loose leaf copy (i.e. **no staples, no hole punching, no binding**) as per Clause 2.3.

#### 2.3 PLACE TO LODGE CD / USB OR HARDCOPY SUBMISSIONS

CD / USB or hardcopy submissions are to be addressed as follows and be placed in the Tender Box,no later than the closing time and date, at the Latrobe City Council's Corporate Headquarters, 141 Commercial Road, Morwell.

Closing Time and Date: 2:00 pm, Thursday, DATE

Tender Box
EOI No: LCC-NUMBER - DESCRIPTION
Latrobe City Council
141 Commercial Road
MORWELL VIC 3840

#### 2.4 LATROBE CITY COUNCIL PROPERTY

Expressions of Interest, once submitted become the property of the Latrobe City Council. Respondents license the Latrobe City Council to reproduce the whole or any part thereof, of the Expression of Interest for the purpose of evaluation.

#### 2.5 LATE EXPRESSIONS OF INTEREST

Expressions of Interest received after the time and date specified will not be accepted.

However, if there is explicit and conclusive evidence that late lodgement resulted from mishandling by the Latrobe City Council, an Expression of Interest will deemed to have been lodged before the Closing Time. Reasons such as late delivery of submissions by Australia Post, by courier or any other carrier will not be deemed sufficient reason for reconsideration.

#### 2.6 EXPRESSIONS OF INTEREST BY FACSIMILE

Expressions of Interest submitted by facsimile will not be accepted.

#### 3. NOTIFICATION TO RESPONDENTS

#### 3.1 NOTIFICATION OF SHORTLISTED RESPONDENTS

The shortlisted respondents will be notified in writing. An Invitation to Tender will follow the notification which will be required to be returned by the Closing Date as specified on the tender document.

It is envisaged that tenders will be invited in [timeframe].

#### 3.2 NOTIFICATION

All respondents will be notified in writing of the Latrobe City Council's decision relating to the shortlisting or otherwise of Expressions of Interest.

Latrobe City Council is not obliged to give reasons for its decision and no negotiations or correspondence concerning the decision shall be entered into. Latrobe City Council's written notification will be final.

#### 4. INFORMATION

#### 4.1 ADDITIONAL INFORMATION AND DOCUMENTATION

Respondents are required to complete the questionnaire contained in the Schedule of the Registration Form and submit it as part of their Expression of Interest. They should also supply any information or documents specified in the Schedule.

#### 4.2 INFORMATION FOR EVALUATION

Respondent may submit any further information considered relevant to their Expression of Interest.

#### 5. PROBITY OF PROCESS

Canvassing of Councillors or staff of the Latrobe City Council is not permitted and the Expression of Interest of any respondent who seeks to canvass a Councillor or member of Latrobe City Council staff individually will not be considered.

Enquiries relating to clarification of the Expression of Interest documents are appropriate and acceptable, however must be directed to the Contact Officer (Clause 1.2).

#### 6. BENEFIT TO THE REGIONAL ECONOMY

One of the goals of the Latrobe City Council Plan is to reduce unemployment – that is, to provide benefit to the regional economy. Consequently, the benefit to the regional economy that might be expected from submissions for this work will be taken into account during the evaluation process.

#### 7. EVALUATION CRITERIA

Expressions of Interest will be shortlisted on the basis of the following criteria and must contain sufficient information for these criteria to be evaluated:

- Value of and type of houses provided to Latrobe City Council or its nominated agent
- Overall project concept and design
- Number of apprentices and/or trainees engaged on the project
- Experience in working in a public private contractual arrangement
- Occupational Health and Safety
- Benefit to the Regional Economy

(* list criteria in order of weighting)

#### LATROBE CITY COUNCIL

#### **BRIEF SPECIFICATION**

#### **EXPRESSION OF INTEREST NO: LCC-Number**

#### 1. INTRODUCTION

Latrobe City Council is seeking a public private partnership arrangement to develop an affordable housing development on land formerly known as the Kingsford Reserve in Moe Lots 1 and 2 on Title Plan 420398L (see attachment 1). The land is approximately 450 metres south of the central business district and is approximately 8,254 square meters in size. The land has two street frontages, one in Hinkler Street and the other in Kingsford Street and is zoned residential 1.

An investigation undertaken by Beverage Williams, development and environmental consultants, indicates that Kingsford Reserve could accommodate fourteen or more individual houses (see attachment 2). It should be noted that this is an indicative plan and submitters may present alternative plans for consideration as part of the expression of interest process.

As a guide, the land in its un-subdivided state was valued by CJA Lee Property Valuers and Consultants in May 2012 at \$700,000.

Latrobe City Council will provide the land subdivided as per attached plan or as may be agreed upon with the developer or builder as its contribution to the project. The plan of subdivision will include rerouting of the current drainage easement located on the eastern side of the block into Council owned land. The successful applicant will be responsible for the development of all other infrastructure necessary to complete the project.

The development may consist of town houses or other types of housing designed to offer privacy but promote physical interaction between occupiers through an integrated community open space incorporating an attractive physical environment. The project offers scope to serve as a demonstration project for higher density housing. The houses proposed should be a range of one, two and three bedroom properties. The design should encompass affordable energy efficient and environmental sustainability attributes.

This proposal provides the developer or builder with the opportunity to sell a percentage of the proposed housing stock on the open market whilst a percentage of the housing is to be provided at no cost to Latrobe City Council or its nominated agent.

#### 2. SCOPE OF WORK

The Contractor is required to provide a detailed proposal of how they would proceed with the project taking into consideration the Latrobe City Council's Affordability Housing Model (see attachment 3).

The project should be fully costed taking into consideration that the Contractor will be responsible for the provision of all necessary infrastructures for ground works, services, building and development.

The proposal should include proposed housing designs, building costs for each design and land scaping proposals.

The project should be seen in part as a community development and capacity building project and contractors should indicate the number of apprentices or trainees that they intend to employ throughout the development and construction of this project. As part of this process contractors should provide evidence of any existing or potential partnership and their willingness to form such arrangements with local training providers.

The proposal must also nominate the number and types of housing that will be sold on the open market by the Contractor or their agent at market value and provide details of the housing stock that will be provided at no cost to Latrobe City Council or its nominated agent.

The number of houses provided at no cost to Latrobe City Council or their nominated agent should be in accordance with or greater than the value of the land as provided in this proposal. The Contractor may submit an alternative arrangement for consideration provided such proposal is in accordance with the principles and directions as outlined in Latrobe City Councils' Affordable Housing Discussion Paper.

#### 3. EXTENT OF WORKS

To provide a detailed proposal and outline plan for the development of the land, ground works and the design and construction of a range of housing types ready for sale and occupation on land formerly known as the Kingsford Reserve in Moe Lots 1 and 2 on Title Plan 420398L.

As part of the proposal the Contractor will cost the removal of existing infrastructure consisting of disused tennis courts, concrete works and kiosk building, the cost of necessary earth works and the provision of services to each block in accordance with a proposed plan of subdivision.

The Contractor will provide the cost of construction of an access road as per plan of subdivision and submit design proposals for a range of housing stock ranging from one to three dwellings or town houses.

The Contractor will provide the total cost of the project and the number of houses that will be sold on the open market and the number and types of hosing that will be provided to Latrobe City Council or its nominated agent.

For Decision

#### **PURPOSE**

The purpose of this report is to determine Planning Permit Application 2012/193 for the development of three dwellings at 9 Tintern Place, Traralgon.

#### **DECLARATION OF INTERESTS**

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

#### **STRATEGIC FRAMEWORK**

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

#### Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives - Built Environment

In 2026, Latrobe Valley benefits from a well planned built environment that is complimentary to its surroundings and which provides for connected and inclusive community.

#### Latrobe City Council Plan 2012 - 2016

Strategic Direction - Built Environment

- Promote and support high quality urban design within the built environment: and
- Ensure proposed developments enhance the liveability if Latrobe City, and provide for a more sustainable community.

#### Legislation -

- Planning & Environment Act 1987
- Local Government Act 1989

#### **BACKGROUND**

This section covers

- Summary
- Proposal
- History of Application
- Latrobe Planning Scheme

#### **SUMMARY**

Land: 9 Tintern Place, Traralgon, known as Lot 23 on

PS620558N.

Proponent: Vision 3 Architecture

Zoning: Residential 1 Zone

Overlays No overlays

A Planning Permit is required for the construction of two or more dwellings on a lot in accordance with Clause 32.01-4 Residential 1 Zone.

#### **PROPOSAL**

It is proposed to construct three single storey dwellings on the site. The dwellings would all have frontage to Tintern Place. Dwellings 1 and 2 would be semi-detached and Dwelling 3 would be detached.

Each dwelling would comprise three bedrooms, a bathroom, laundry, kitchen and living areas. Private open space would be located at the rear with access from living rooms.

A single car garage for each dwelling would be incorporated under the roofline of each dwelling. Each dwelling would also have a tandem car space in front of the garage. A 5.5 metre wide crossover would provide vehicle access for Dwellings 1 and 2, and a 3.0 metre wide crossover would provide vehicle access for Dwelling 3.

The dwellings would be finished in a mixture of face brickwork and render and would have tiled pitched roofs. No front fencing is proposed. Landscaping would be provided in the front setback and private open space areas of the development.

A copy of the plans can be found at Attachment 1.

#### Subject Land:

The subject site is irregular in shape and is located on the northern side of Tintern Place in Traralgon. It has a frontage to Tintern Place of 33.46 metres, a depth of 31.68 metres, and an overall area of 808.3 square metres. There is a 2.0 metre wide drainage easement in the north-eastern corner of the site. The site rises approximately 1.0 metre from the front south-east corner to the middle of the site where it flattens out, and then falls 0.4 metres to the rear north-west corner.

The site is currently vacant and does not have any significant vegetation.

The site is located approximately 1.5 kilometres from the Traralgon Principal Activity Centre.

#### Surrounding Land Use:

The site and surrounds form part of the Sherwood Park Estate where land is in the process of being developed with dwellings. Development generally consists of single detached dwellings on a variety of residential lot sizes.

The use and development of land surrounding the subject site can be summarised as follows:

North	Eton Avenue	Vacant residential land
South	15 & 16 Tintern Place	Vacant residential land
East	10 Tintern Place	Vacant residential land
West	8 Tintern Place	Vacant residential land

A locality plan can be found at Attachment 2.

It should be noted that there are two other current planning permit applications for multi dwellings in Tintern Place. No. 5 Tintern Place has an application for four dwellings (Council is awaiting further information from the applicant), and No. 26 Tintern Place has an application for four dwellings (an application for review has been lodged at VCAT for failing to determine the application within the prescribed time).

#### **HISTORY OF APPLICATION**

The history of the assessment of planning permit application 2012/193 can be found in Attachment 3.

The relevant provisions of the Scheme relevant to this application are in Attachment 4.

# **LATROBE PLANNING SCHEME**

# **State Planning Policy Framework (SPPF)**

The proposal has been considered against the relevant clauses under the State Planning Policy Framework.

The State Planning Policy Framework Clause 15.01-1 'Urban Design' requires development to respond to its context in terms of urban character, cultural heritage, natural features, surrounding landscape and climate.

Clause 16.01-1 'Integrated Housing' encourages an increase in the supply of housing in existing urban areas by facilitating increased housing yield in appropriate locations, including under-utilised urban land.

Clause 16.01-2 Location of Residential Development states that new housing should be located in or close to activity centres and employment corridors and at other strategic redevelopment sites that offer good access to services and transport.

The objective of Clause 16.01-4 'Housing Diversity' is to provide for a range of housing types to meet increasingly diverse needs. Strategies to achieve this objective include ensuring planning for growth areas provides for a mix of housing types and higher housing densities in and around activity centres; and encouraging the development of well-designed medium-density housing which respects the neighbourhood character, improves housing choice, makes better use of existing infrastructure and improves energy efficiency.

The proposal is considered to be consistent with the policy outlined above. The application proposes medium density development in an area suitable for residential development. The proposal is an appropriate response to the subject site and the emerging character of the area. This will be discussed further in the 'Issues' section of this report.

# **Local Planning Policy Framework (LPPF)**

The proposal has been considered against the relevant clauses under the Local Planning Policy Framework.

Within the Local Planning Policy Framework Clause 21.04-2 'Settlement Overview' has objectives to contain urban development within distinct boundaries and to encourage a wider variety of housing types, especially smaller and more compact housing, to meet the changing housing needs of the community.

The site is identified in an "existing residential opportunity" area (Area 12) on the Traralgon Structure Plan in the Latrobe Planning Scheme. Clause 21.05 Main Towns states that well designed infill development throughout the existing urban area, especially in locations close to activity centres, areas of open space and areas with good public transport accessibility should be encouraged. Consolidation of urban settlement within the urban zoned boundaries in accordance with the adopted structure plans is also encouraged.

It is considered that the proposal satisfies this policy direction and that the scale of the proposed development is suitable for the subject site. This will be discussed further in the 'Issues' section of this report.

### **Zoning**

The site is located within a Residential 1 Zone and is not subject to any overlays. The purpose and decision guidelines of the Residential 1 Zone have been taken into account as part of the assessment of this application and it is considered that the application complies with the zoning provisions.

These elements will be further discussed in the 'Issues' section of this report.

### **Particular Provisions**

Clause 52.06 Car Parking:

The proposal has been assessed against Clause 52.06 and found to comply. Two car parking spaces are required to be provided for a dwelling comprising three or more bedrooms. One garaged space and one tandem space have been provided for each dwelling in accordance with this clause.

Clause 55 Two or More Dwellings on a Lot:

The application has been assessed against Clause 55 and it is considered to be compliant with the applicable standards. These elements will be discussed later in this report. A copy of the ResCode assessment can be found at Attachment 5.

### **Decision Guidelines** (Clause 65):

The proposal accords with the relevant decision guidelines of this clause.

### **Incorporated Documents** (Clause 81):

 Australian Standard AS/NZS 2890.1:2004, Parking Facilities – Offstreet car parking, Standards Australia 2004.

### **ISSUES**

# Strategic direction of the State and Local Planning Policy Frameworks:

It is considered that the development of the site for multi-dwellings satisfies State and Local Planning Policy Frameworks in that the site is an appropriate location for multi-dwelling development as it is located within the residential area of Traralgon. The proposal is respectful of the surrounding neighbourhood and would provide high quality urban design within Tintern Place.

#### Clause 55 ResCode:

The proposal demonstrates compliance with the objectives and standards of ResCode. The dwellings would be single storey and constructed from brick and render, materials commonly found in the immediate area. As such the design of the proposed dwellings would blend in well with the existing and emerging character of the neighbourhood. The proposal satisfies the setbacks, building heights, private open space, on site amenity and vehicle access standards. There would be no off-site amenity impacts such as overlooking and overshadowing from the proposal. A condition of any approval issued will require the applicant to lodge a landscaping plan.

Council's Infrastructure Planning Team has assessed the proposal and found it to be satisfactory but will require conditions to be placed on any approval issued for the management of stormwater from the site and construction of vehicle crossings. A condition will also require an existing street light to be relocated due to the proposed location of the vehicle crossing for Dwelling 3. This must be shown on an amended plan and relocation works undertaken at the developer's cost.

# Car Parking

As discussed, the application complies with the requirements of Clause 52.06 Car Parking of the Latrobe Planning Scheme. Each dwelling would have three bedrooms and two car parking spaces. The tandem configuration for the car parking spaces is considered to be an acceptable arrangement.

### Response to Objections

The application received six submissions in the form of objections. The issues raised were:

1 Inadequate car parking for residents and visitors.

# Comment:

The proposal satisfies the requirements of the Latrobe Planning Scheme in relation to car parking provision. Two vehicles for each dwelling will be able to park on site. The proposed garages would be set back greater than 5.0 metres from the site frontage allowing a vehicle to park on site safely in tandem.

2 Increased traffic and on street car parking causing problems on street.

### Comment:

Tithe provision of car parking meets the requirements of the planning scheme. Council's Infrastructure Planning Team has not raised any concerns regarding traffic congestion as part of the assessment of the proposal. It is envisaged that noise and traffic generation from the dwellings will not be excessive.

3 Neighbourhood character.

### Comment:

The proposal is for three dwellings on a lot. The majority of the surrounding allotments are and will be developed for single dwellings. Multiple dwellings on a lot are permissible in the Residential 1 Zone if they meet the requirements of the planning scheme. As discussed in this report, the proposal has achieved compliance with ResCode and satisfies car parking requirements. The proposed design, layout and materials are compatible with the surrounding area. Three smaller dwellings on a lot will cater for smaller household sizes and would contribute to a variety of dwelling types in the area as encouraged by State and local planning policy.

4 Decrease in property values.

# Comment:

Property values are not considered to be a valid planning consideration.

5 Front setback does not comply with ResCode.

#### Comment:

Clause 55.03-1 Street Setback objectives allows a 4.0 metre front setback for development when there are no existing buildings on either side of the site. As the adjoining properties on either side of the subject site are vacant, a 4.0 metre setback is applicable in this instance. The proposal has front setbacks ranging from 4.1 metres to 5.86 metres in accordance with this clause.

6 Developer has completed other developments in area to a poor standard.

# Comment:

Council can ensure a development is built according to the plans endorsed to the permit but cannot control the quality of finish for the dwellings. This is beyond the scope of the Council jurisdiction.

7 Dual crossover will not allow safe vehicle access.

### Comment:

Council's Infrastructure Planning Team has assessed the application and has found the crossover locations to be in accordance with Council policy.

8 Dwellings will probably be rented and will attract a poorer tenant due to cheaper rent.

### Comment:

Council cannot control the tenure or type of person that may ultimately reside in the dwellings. This is not a relevant planning consideration.

# FINANCIAL, RISK AND RESOURCES IMPLICATIONS

Additional resources or financial cost will only be incurred should the planning permit application require determination at the Victorian Civil and Administrative Tribunal (VCAT).

Risk has been considered as part of this report and it is considered to be consistent with the Risk Management Plan 2011-2014.

# INTERNAL / EXTERNAL CONSULTATION

Engagement Method Used:

### Notification:

The application was advertised pursuant to Section 52(1)(a) and Section 52(1)(d) of the Act. Notices were sent to all adjoining and adjacent landowners and occupiers and an A3 notice was displayed on the site frontage for 14 days. The application was advertised more broadly in the street due to a large number of vacant lots.

#### External:

There were no external referrals.

### Internal:

Internal officer comments were sought from Council's Infrastructure Planning Team who gave consent to the granting of a planning permit subject to appropriate conditions and notes.

Details of Community Consultation following Notification:

Five objections to the application were received. The applicant requested not to have a mediation meeting and asked that the application proceed to a Council meeting for a decision.

A copy of the submissions can be found at Attachment 6.

### **OPTIONS**

Council has the following options in regard to this application:

- 1 Issue a Notice of Decision to Grant a Planning Permit.
- 2 Issue a Refusal to Grant a Planning Permit.

Council's decision must be based on planning grounds, having regard to the provisions of the Latrobe Planning Scheme.

### **CONCLUSION**

The proposal is considered to be:

- Consistent with the strategic direction of the State and Local Planning Policy Frameworks;
- Consistent with the 'Purpose' and 'Decision Guidelines' of the Residential 1 Zone;
- Consistent with Clause 65 (Decision Guidelines); and
- The objections received have been considered against the provisions of the Latrobe Planning Scheme and the relevant planning concerns have been considered. Relevant permit conditions addressing these issues will be required. The objections received do not form planning grounds on which the application should be refused.

#### **Attachments**

- Attachment 1 Copy of Plans
   Attachment 2 Locality Plan
- 3. Attachment 3 History of Application
  - 4. Attachment 4 Relevant Ordinance
- 5. Attachment 5 Clause 55 Assessment
- 6. Attachment 6 Copies of Submissions

#### RECOMMENDATION

- A. That Council issues a Notice of Decision to Grant a Planning Permit for the development of three dwellings at 9 Tintern Place, Traralgon known as Lot 23 on PS620558N with the following conditions:
- 1. Prior to the commencement of any works hereby permitted, amended plans to the satisfaction of the Responsible Authority must be submitted to and approved by the Responsible Authority. When approved, the plans will be endorsed and will then form part of the permit. The plans must be drawn to scale with dimensions and three copies must be provided. The plans must be generally in accordance with the plans submitted but modified to show:
  - a) The relocation of the existing street light and pole in front of the proposed unit 3 so that the light and pole are at least one metre from the edge of the vehicle crossing proposed to provide vehicle access to Dwelling 3. The plan must note that this work will be at the cost of the operator of this permit.
- 2. The development as shown on the endorsed plans must not be altered without the consent of the Responsible Authority.
- 3. Before the development starts, a landscape plan to the satisfaction of the Responsible Authority must be submitted to and approved by the Responsible Authority. When approved, the plan will be endorsed and will then form part of the permit. The plan must be drawn to scale with dimensions and three copies

must be provided. The plan must show:

- A survey (including botanical names) of all existing vegetation to be retained and/or removed;
- Buildings and trees (including botanical names) on neighbouring properties within three metres of the boundary;
- c) Details of surface finishes of pathways and driveways;
- d) A planting schedule of all proposed trees, shrubs and ground covers, including botanical names, common names, pot sizes, sizes at maturity, and quantities of each plant;
- e) Landscaping and planting within all open areas of the site; and
- f) One canopy tree (minimum two metres tall when planted) to be planted in the front setback or private open space of each unit
- Within three months of the issue of a certificate of occupancy or by such later date as is approved by the Responsible Authority in writing, the landscaping works shown on the endorsed plans must be carried out and completed to the satisfaction of the Responsible Authority.
- 5. The landscaping as shown on the endorsed plans must be maintained to the satisfaction of the Responsible Authority, including that any dead, diseased or damaged plants are to be replaced.
- 6. All building plant and equipment are to be concealed to the satisfaction of the Responsible Authority. The construction of any additional plant machinery and equipment, including but not limited to all air-conditioning equipment, ducts, exhausts and communications equipment must be to the satisfaction of the Responsible Authority.
- 7. Construction works on the land must be carried out in a manner which does not result in damage to existing Council assets and does not cause detriment to any adjoining land owners or occupiers.
- 8. Once building works have commenced they must be completed to the satisfaction of the Responsible Authority.
- 9. Upon completion of the works, the site must be cleared of all excess and unused building materials and debris to the satisfaction of the Responsible Authority.
- 10. All buildings and works must be maintained in good order and appearance to the satisfaction of the Responsible Authority.
- 11. Before works commence on the development hereby permitted, a site drainage plan including levels or contours of the land and all hydraulic computations, must be submitted to and approved by the Responsible Authority. When approved, the plan will be endorsed and will then form part of the permit. The plan must be drawn to scale with dimensions and one copy and an electronic copy (PDF) must be provided. The drainage plan must be prepared in accordance with the requirements of Latrobe City Council's Design Guidelines and must provide for the following:

- a) How the land including all buildings, open space and paved areas will be drained for a 1 in 5 year ARI storm event.
- b) An underground pipe drainage system conveying stormwater discharge from each dwelling separately to the legal point of discharge.
- c) The provision of a stormwater detention system within the site and prior to the point of discharge into Latrobe City Council's drainage system. The stormwater detention system must be designed to detain the difference between the stormwater discharge from the proposed development and the rate of discharge from the total area of the land based upon a co-efficient of run-off of 0.6.
- 15. Appropriate measures must be implemented throughout the construction stage of the development to rectify and/or minimise mud, crushed rock or other debris being carried onto public roads or footpaths from the subject land, to the satisfaction of the Responsible Authority.
  - 16. Before an Occupancy Permit is issued for the dwellings hereby permitted, or by such later date as is approved by the Responsible Authority in writing, the following works must be completed in accordance with the endorsed plans and to the satisfaction of the Responsible Authority:
    - All drainage systems must be constructed in accordance with the site drainage plan approved by the Responsible Authority.
    - b) All proposed vehicle crossings must be constructed in accordance with the endorsed plans, at right angles to the road and must comply with:
      - the vehicle crossing standards set out in Latrobe City Council's Standard Drawing LCC 307, and
      - the requirements of any service authority having existing assets at the proposed location of the vehicle crossing.
    - c) The relocation at the cost of the operator of this permit, of the existing street light and pole in front of the proposed Dwelling 3 so that the light and pole are at least one metre from the edge of the vehicle crossing proposed to provide vehicle access to Dwelling 3.
- 17. The permit will expire if one of the following circumstances applies:
  - a) The development is not started within two years of the date of this permit; or
  - b) The development is not completed within four years of the date if this permit.

The Responsible Authority may extend the periods referred to if a request is made in writing before the permit expires, or within three months afterwards.

Note 1: This permit does not authorise the commencement of any building construction works. Before any such development may commence, the applicant must apply for and obtain

appropriate building approval.

Note 2: Unless exempted by the Responsible Authority, an Asset Protection Permit must be obtained prior to the commencement of any proposed building works (as defined by Latrobe City Council's Local Law No. 3). The Responsible Authority must be notified in writing at least 7 days prior to the building works commencing or materials/equipment are delivered to the site.

Note 3: A Latrobe City Vehicle Crossing Permit must be obtained prior to the commencement of any works that include the construction, installation, alteration, or removal of a vehicle crossing. The relevant fees, charges and conditions of the Vehicle Crossing Permit will apply even if the vehicle crossing works have been approved as part of a Planning Permit.

Note 4: Vehicle crossings must be provided with minimum clearances to other infrastructure in accordance with Latrobe City Council's Vehicle Crossing Policy, including clearances to property boundaries, and adjacent side entry pit, power or Telecommunications pole, manhole cover or marker, or street tree. Any relocation, alteration or replacement required must be in accordance with the requirements of the relevant Authority and must be at the applicant's expense.

Note 5: A Latrobe City Stormwater Connection Permit must be obtained prior to the connection of any new stormwater drainage into Latrobe City Councils stormwater drainage system. All new stormwater drainage connections must be inspected by the Responsible Authority before any backfilling of the connection is undertaken.

Note 6: The location of the legal point of discharge into Latrobe City
Councils stormwater drainage system can be obtained for any
property by completing a Legal Point of Discharge form, found
at www.latrobe.vic.gov.au/services/roads/workspermits

# **PROCEDURAL MOTION**

Moved: Cr O'Callaghan Seconded: Cr Harriman

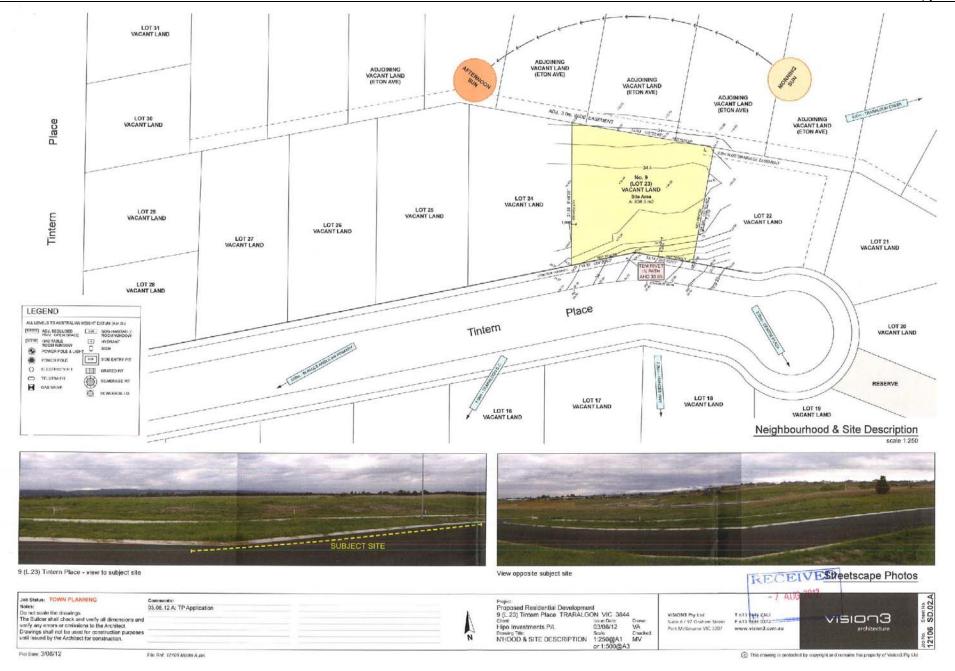

That Council defer consideration of this matter until the Ordinary Council Meeting to be held 4 March 2013.

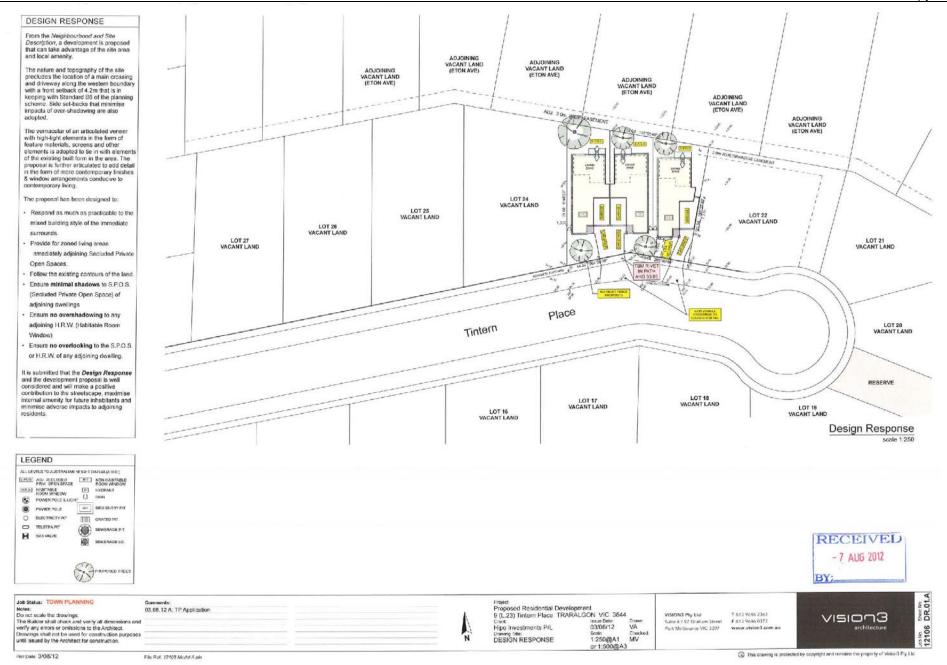

**CARRIED UNANIMOUSLY** 

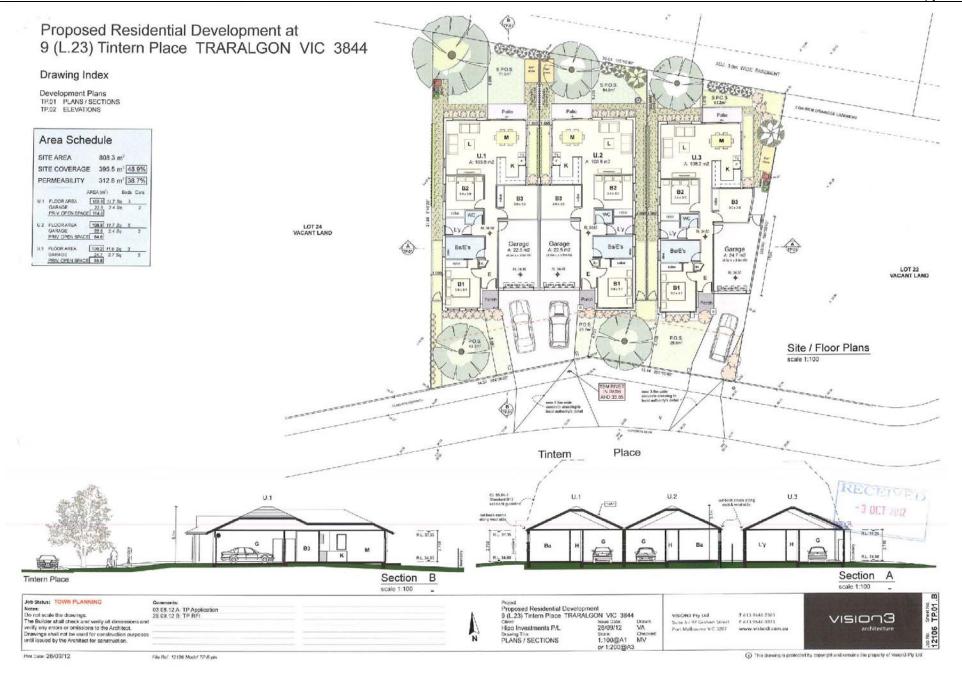

# 16.3

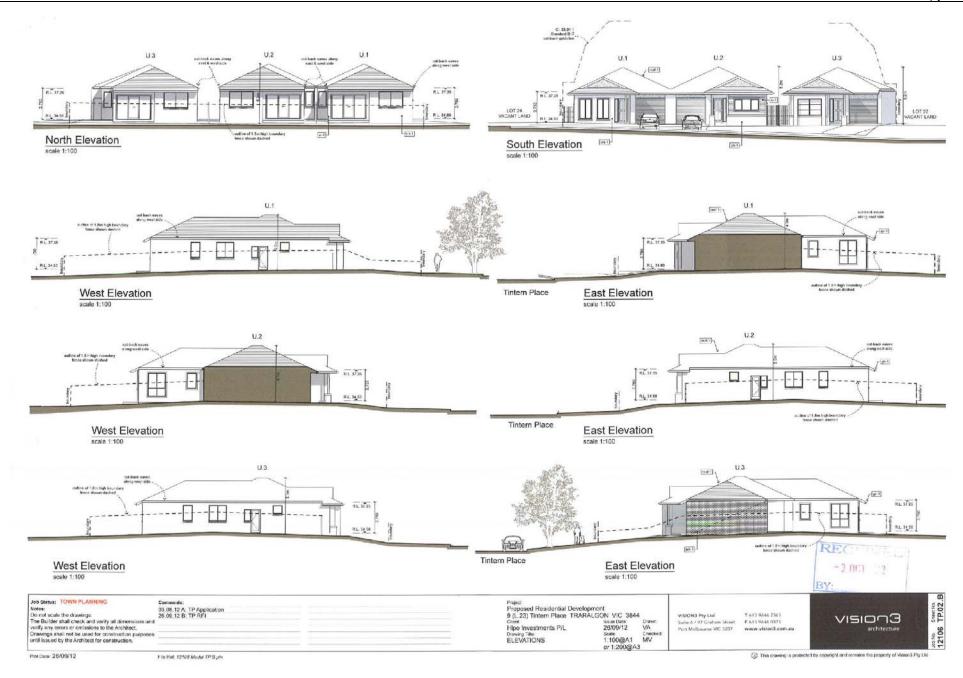

# PLANNING PERMIT APPLICATION 2012/193 - 9 TINTERN PLACE, TRARALGON

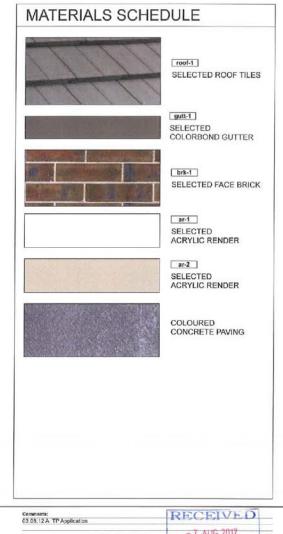

1	Attachment 1 Copy of Plans	219
2	Attachment 2 Locality Plan	225
3	Attachment 3 History of Application	227
4	Attachment 4 Relevant Ordinance	229
5	Attachment 5 Clause 55 Assessment	231
6	Attachment 6 Copies of Submissions	241

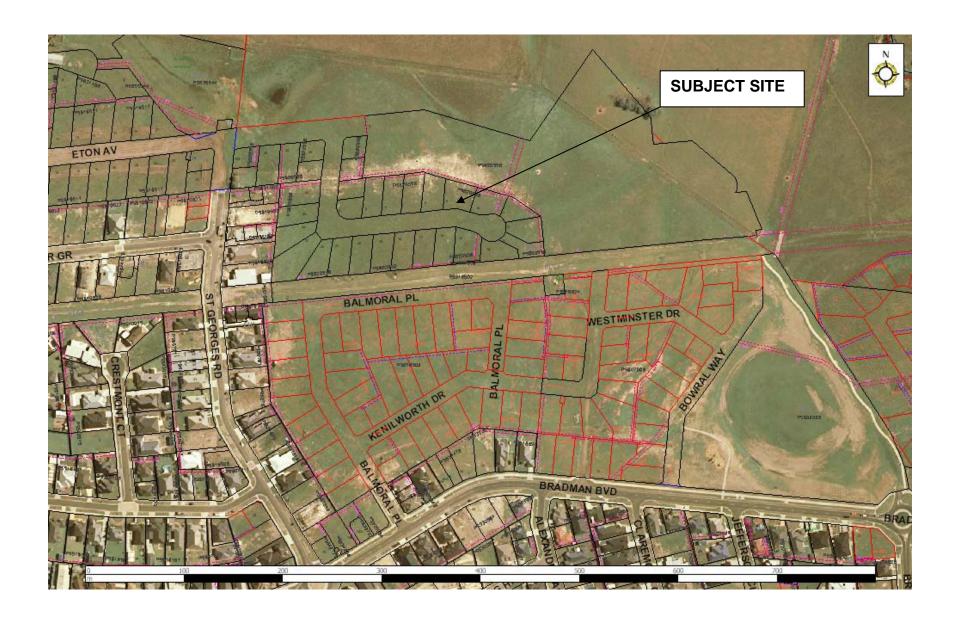

# **History of the Application**

7 August 2012	Application received by Council.
5 September 2012	Further information letter sent to applicant
3 October 2012	Amended plans received by Council from the applicant in response to the further information letter
15 October 2012	Application referred internally to Council's Infrastructure Planning team
15 October 2012	Council undertook advertising on behalf of the applicant. Letters were sent to adjoining property owners and a sign was placed on site giving notice of the application.
30 October 2012	The applicant advised Council that in the event objections were received to the application, that not mediation meeting be held and the application be determined at a Council meeting.
8 November 2012	Letters sent out to other owners of property in Tintern Place as the majority of the land in the street is vacant and people may not be aware of the application.
26 November 2012	Referral response received from Council's Infrastructure Planning team.
November 2012	Objections received

# Clause 55 Objectives

# NEIGHBOURHOOD AND SITE DESCRIPTION AND DESIGN RESPONSE

Standard Number	Standard	Does it meet the Standard or More information required
Standard B1	The design response must be appropriate to the neighbourhood and the site.  The proposed design must respect the existing or preferred neighbourhood character and respond to the features of the site.	Complies
Standard B2	An application must be accompanied by a written statement to the satisfaction of the responsible authority that describes how the development is consistent with any relevant policy for housing in the State Planning Policy Framework and the Local Planning Policy Framework, including the Municipal Strategic Statement and local planning policies.	Complies
Standard B3	<ul> <li>Dwellings with a different number of bedrooms.</li> <li>At least one dwelling that contains a kitchen, bath or shower, and a toilet and wash basin at ground floor level.</li> </ul>	n/a < 10 dwellings

Standard B4	Development should be connected to reticulated services, including reticulated sewerage, drainage, electricity and gas, if available.  Development should not unreasonably exceed the capacity of utility services and infrastructure, including reticulated services and roads.  In areas where utility services or infrastructure have little or no spare capacity, developments should provide for the upgrading of or mitigation of the impact on services or infrastructure.	Complies
Standard B5	Developments should provide adequate vehicle and pedestrian links that maintain or enhance local accessibility.  Development should be oriented to front existing and proposed streets.  High fencing in front of dwellings should be avoided if practicable.  Development next to existing public open space should be laid out to complement the open space.	Complies
Standard B6	<ul> <li>At least the distance specified in the schedule to the zone, or</li> <li>If no distance is specified in the schedule to the zone, the distance specified in Table B1.</li> </ul>	As no development on adjoining lots, 4 metre setback is applicable. Complies
Standard B7	The maximum building height should not exceed the maximum height specified in the schedule to the zone. If no maximum height is specified in the schedule to the zone, the maximum building height should not exceed 9 metres, unless the slope of the natural ground level at any cross section wider than 8 metres of the site of the building	Complies – 5.2 metres

	is 2.5 degrees or more, in which case the maximum building height should not exceed 10 metres. Changes of building height between existing buildings and new buildings should be graduated.	
Standard B8	<ul> <li>The site area covered by buildings should not exceed:</li> <li>The maximum site coverage specified in the schedule to the zone, or</li> <li>If no maximum site coverage is specified in the schedule to the zone, 60 per cent.</li> </ul>	Complies – 51%
Standard B9	At least 20 per cent of the site should not be covered by impervious surfaces.	Complies – 37%
Standard B10	Buildings should be:  Oriented to make appropriate use of solar energy.  Sited and designed to ensure that the energy efficiency of existing dwellings on adjoining lots is not unreasonably reduced.  Living areas and private open space should be located on the north side of the development, if practicable.  Developments should be designed so that solar access to north-facing windows is maximised.	Complies
Standard B11	If any public or communal open space is provided on site, it should:  • Be substantially fronted by dwellings, where appropriate.  • Provide outlook for as many dwellings as practicable.  • Be designed to protect any natural features on the	n/a

	aita	
	site.	
	Be accessible and useable.	
Standard B12	Entrances to dwellings and residential buildings should not be obscured or isolated from the street and internal accessways.  Planting which creates unsafe spaces along streets and	Complies
	accessways should be avoided.	
	Developments should be designed to provide good	
	lighting, visibility and surveillance of car parks and internal	
	accessways.	
	Private spaces within developments should be protected	
	from inappropriate use as public	
	thoroughfares.	
Standard B13	The landscape layout and design should:	Landscape plan required - condition
	<ul> <li>Protect any predominant landscape features of the neighbourhood.</li> </ul>	
	<ul> <li>Take into account the soil type and drainage patterns of the site.</li> </ul>	
	<ul> <li>Allow for intended vegetation growth and structural protection of buildings.</li> </ul>	
	<ul> <li>In locations of habitat importance, maintain existing habitat and provide for new habitat for plants and animals.</li> </ul>	
	<ul> <li>Provide a safe, attractive and functional environment for residents.</li> </ul>	
Standard B14	Accessways should:	Complies
	-Be designed to allow convenient, safe & efficient vehicle	Referred to Engineering who had no objection.
	movements and connections within the development and	
	to the street network.	

	-Be designed to ensure vehicles can exit a development in a forwards direction if the accessway serves five or more car spaces, three or more dwellings, or connects to a road in a Road Zone.  -Be at least 3 metres wide.  -Have an internal radius of at least 4 metres at changes of direction.  -Provide a passing area at the entrance that is at least 5 metres wide and 7 metres long if the access serves ten or more spaces and connects to a road in a Road Zone.			
Standard B15	Car parking facilities should: -reasonably close & convenient to dwellings & residential buildingssecuredesigned to allow safe and efficient movements within the developmentwell ventilated if enclosed. Large parking areas should be broken up with trees, buildings or different surface treatments. Shared access or car parks of other dwellings and residential buildings should be located at least 1.5 metres from the windows of habitable rooms. This setback may be reduced to 1 metre where there is a fence at least 1.5 metres high or where window sills are at least 1.4 metres above the access.	Complies		
Standard B16	<ul> <li>Car parking for residents should be provided as follows:</li> <li>One space for each one or two bedroom dwelling.</li> <li>Two spaces for each three or more bedroom dwelling one space under cover.</li> </ul>		Complies – see CI 52.06	

Standard B17	<ul> <li>A new building not on or within 150mm of a boundary should be set back from side or rear boundaries:</li> <li>At least the distance specified in the schedule to the zone, or</li> <li>If no distance is specified in the schedule to the zone, 1 metre, plus 0.3 metres for every metre of height over 3.6 metres up to 6.9 metres, plus 1 metre for every metre of height over 6.9 metres.</li> </ul>	Complies
Standard B18	<ul> <li>A new wall constructed on or within 150mm of a side or rear boundary of a lot or a carport constructed on or within 1 metre of a side or rear boundary of lot should not abut the boundary for a length of more than: <ul> <li>10 metres plus 25 per cent of the remaining length of the boundary of an adjoining lot, or</li> <li>Where there are existing or simultaneously constructed walls or carports abutting the boundary on an abutting lot, the length of the existing or simultaneously constructed walls or carports, whichever is the greater.</li> </ul> </li> </ul>	Complies - average of 3 metres
Standard B19	Buildings opposite an existing habitable room window should provide for a light court to the existing window that has a minimum area of 3 square metres and minimum dimension of 1 metre clear to the sky. The calculation of the area may include land on the abutting lot.	n/a
Standard B20	If a north-facing habitable room window of an existing dwelling is within 3 metres of a boundary on an abutting lot, a building should be setback from the boundary 1 metre, plus 0.6 metres for every metre of height over 3.6 metres up to 6.9 metres, plus 1 metre for every metre of height over 6.9 metres, for a distance of 3 metres from the edge of each side of the window. A north-facing window is	n/a

	<del>-</del>	
	a window with an axis perpendicular to its surface oriented north 20 degrees west to north 30 degrees east.	
Standard B21	Where sunlight to the secluded private open space of an existing dwelling is reduced, at least 75 per cent, or 40 square metres with minimum dimension of 3 metres, whichever is the lesser area, of the secluded private open space should receive a minimum of five hours of sunlight between 9 am and 3 pm on 22 September. If existing sunlight to the secluded private open space of an existing dwelling is less than the requirements of this standard, the amount of sunlight should not be further reduced.	n/a
Standard B22	<ul> <li>A habitable room window, balcony, terrace, deck or patio with a direct view into a habitable room window of existing dwelling within a horizontal distance of 9 metres (measured at ground level) of the window, balcony, terrace, deck or patio should be either: <ul> <li>Offset a minimum of 1.5 metres from the edge of one window to the edge of the other.</li> <li>Have sill heights of at least 1.7 metres above floor level.</li> <li>Have fixed, obscure glazing in any part of the window below 1.7 metre above floor level.</li> <li>Have permanently fixed external screens to at least 1.7 metres above floor level and be no more than 25 per cent transparent.</li> </ul> </li></ul>	Complies
Standard B23	Windows and balconies should be designed to prevent overlooking of more than 50 per cent of the secluded private open space of a lower-level dwelling or residential building directly below and within the same development.	Complies
Standard B24	Noise sources, such as mechanical plant, should not be located near bedrooms of immediately adjacent existing dwellings.  Noise sensitive rooms and secluded private open spaces of new	Complies

	dwellings and residential buildings should take account of noise sources on immediately adjacent properties.  Dwellings and residential buildings close to busy roads, railway lines or industry should be designed to limit noise levels in habitable rooms.	
Standard B25	The dwelling entries of the ground floor of dwellings and residential buildings should be accessible or able to be easily made accessible to people with limited mobility.	Complies
Standard B26	<ul> <li>Entries to dwellings and residential buildings should:</li> <li>Be visible and easily identifiable from streets and other public areas.</li> <li>Provide shelter, a sense of personal address and a transitional space around the entry.</li> </ul>	Complies
Standard B27	<ul> <li>A window in a habitable room should be located to face:</li> <li>An outdoor space clear to the sky or a light court with a minimum area of 3 square metres and minimum dimension of 1 metre clear to the sky, not including land on an abutting lot, or</li> <li>A verandah provided it is open for at least one third of its perimeter, or</li> <li>A carport provided it has two or more open sides and is open for at least one third of its perimeter.</li> </ul>	Complies
Standard B28	A dwelling or residential building should have private open space of an area and dimensions specified in the schedule to the zone.	Complies
Standard B29	The private open space should be located on the north side of the dwelling or residential building, if appropriate.  The southern boundary of secluded private open space should be set back from any wall on the north of the space at least (2 + 0.9h) metres, where 'h' is the height of the wall.	Complies

Standard B30	Each dwelling should have convenient access to at least 6 cubic metres of externally accessible, secure storage space.	Complies
Standard B31	The design of buildings, including: -Facade articulation and detailing, -Window and door proportions, -Roof form, and -Verandahs, eaves and parapets, should respect the existing or preferred neighbourhood character. Garages and carports should be visually compatible with the development and the existing or preferred neighbourhood character.	Complies
Standard B32	A front fence within 3 metres of a street should not exceed: -The maximum height specified in the schedule to the zone, or -If no maximum height is specified in the schedule to the zone, the maximum height specified in Table B3.	No front fence proposed
Standard B33	Developments should clearly delineate public, communal and private areas.  Common property, where provided, should be functional and capable of efficient management.	Complies
Standard B34	The design and layout of dwellings and residential buildings should provide sufficient space (including easements where required) and facilities for services to be installed and maintained efficiently and economically.  Bin and recycling enclosures, mailboxes and other site facilities should be adequate in size, durable, waterproof and blend in with the development.  Bin and recycling enclosures should be located for convenient access by residents.  Mailboxes should be provided and located for convenient access as required by Australia Post.	Complies

# Attachment to accompany Objections to Planning Permit for No. 9 Tintern Place Traralgon

#### Reasons for Objections

I believe that there may not be adequate provisions made in this development for parking for resident and visitor vehicles. (as outlined in Res Code 55.03-10 which states 'To provide convenient parking for resident and visitor vehicles.

A development of this magnitude has the ability to require at least six car spaces for each of the three three bedroom dwellings located on the one allotment, when you consider that three couples are capable of residing at each of the three three bedroom dwellings. Provision for parking is at most two car spaces per dwelling. If two or more than two car owners reside at each dwelling, there is no provision for visitor parking at all. I question whether this requirement is being met in the proposed plan.

The development is located approximately .8 kilometre from the closest bus stops, one being an uphill trek to Cross's Road, the other being in Bradman Boulevard reached by walking across an unpaved reserve. The Post Office is approximately three kilometres from the development. The nearest convenience store is located 2.6 kilometres away at West End Store and the closest supermarket, Woolworths is a distance of 2.8 kilometres.

It is likely therefore, that residents of this proposed development would need to have their own vehicles.

I feel that due to the potential for greater numbers of people to be residing/visiting this one allotment, there is likely to be the following situation with regard to traffic/and car parking.

Increased traffic volumes/flows in a tight cul de sac would lead to congestion.

Additional traffic flows and congestion due to cars parked in the street will endanger children, other pedestrians, cyclists and motorists.

Additional vehicles parking on an already narrow carriageway will reduce access.

Access for emergency vehicles may be restricted because of extra vehicles parked in the street.

Garbage bin collection times could prove problematic due to roadways clogged with parked cars. There has already been a tragic death of a child during garbage collection in a court location in Traralgon.

Additional vehicular crossovers will be a pedestrian hazard.

Additional vehicles illegally parked on nature strips will contribute to a deterioration of those nature strips.

There is potential for additional noise pollution.

Vehicles parked on the street/nature strip are likely to encourage an increase in crime in the area because of their easy access to criminals. Recently there have been windows of vehicles smashed while parked outside nearby 101 St Georges Road because of the fact that residents of this block of units are unable to park their vehicles off the street due to insufficient off street parking allocation.

When driving along the northern end of St Georges Road Traralgon outside the three unit development located at 101 St Georges Road, there is frequently several cars parked on either side of the road and on the nature strip making it a very narrow carriageway accommodating barely one vehicle at a time.

I feel that the proposed multiple dwelling development is against the neighbourhood character of the street. Res Code 55.02-1 states: To ensure the design respects the existing neighbourhood character or contributes to a preferred neighbourhood character. Currently there are eight dwellings each on a single allotment under construction in Tintern Place. I know of another five proposed homes planned to be constructed each on single allotments in Tintern Place. The established neighbourhood character of Tintern Place is thus that of single dwellings per allotment. There are currently no multiple dwelling per allotment developments in Tintern Place.

Multi dwelling per allotment developments frequently attract tenants who may not take pride in their homes, may be noisy and undermine the general tone of the neighbourhood. There is often a frequent turnover of occupiers in these types of developments.

I was looking forward to building a nice home and making a safe home for my family in a quiet court location. The extra traffic, congestion from parked cars and uncertainty of who may be living in the neighbourhood in the three dwellings proposed for No 9 concerns me.

#### How will I be affected

I feel I could be affected as outlined in the objections listed above regarding safety, increased traffic flow, reduced access, congestion, noise and a departure from the established neighbourhood character.

I feel that unitised and multi dwelling per allotment residential developments often devalues properties in the surrounding area so I am concerned that my property will be worth less because of the development. I am putting a lot of money and resources into establishing a home in this area and I fear that the proposed development may have a negative effect on my property value.

I was looking forward to a stable residential environment in Tintern Place where families would take pride of ownership in that environment without the constant turnover of residents that often occur with multi dwelling per allotment settlement. I am concerned that should the development go ahead this may no longer be the case.

Olana Reid

DIANNE REID

To: Latrobe Central Email <LatrobeCity@latrobe.vic.gov.au>

Date: 2/11/2012 9:40:03 AM

To whom it may concern,

We would like to raise a few concerns regarding the potential building of a block of units across from our house being built at "Tintern Place, Traralgon as well as down the street.

Whilst we understand that units are a good investment opportunity for the builder and/or developer and are good value for money for renters and purchasers alike, we are a little concerned about the reputation of the developers, and the quality of work/products that they provide.

Having seen some of their work around the Traralgon area, we are concerned that the units being built in Tintern Place will be another example of a lack of quality, therefore decreasing the value of the other residences in the court.

Although they have built some nice properties, there seems to always be problems with the residences resulting in cars having to be parked on the street, which is a cause for increased risk break-ins which is not something we want happening in a brand new area. From looking at the plans, the units across the road from 17 Tintern Place (Lot 16) we have found that the garages are very close to the road. Whilst residents will still be able to park their cars in the driveway the cars will most likely overhang the footpath. Because of this, people may be inclined to park on the road or nature strip and will impede access to the street and other resident's driveways as well as restrict emergency services from getting through quickly in case of an emergency. The crowded street will bring back previous concerns about crime in the street (car break-ins etc.) We have seen this happen to a family member living in units that have been developed and built by the same companies. They are unable to park their car in the garage and are forced to park it in the street. Their car was broken in to, a window was smashed and items stolen. This is definitely something that we do not wish to see or worry about after moving in to our brand new home.

We would also have appreciated a lot more notice of the permit for development of the units across the road. The only reason why we knew of this is because of other residents in the street making aware of what was to happen. A letter was sent but not to myself or Stephen but to Stephen's father and was not noticed. We are still yet to receive a letter in regards to the other units being developed in the street.

We understand that you cannot prevent the development of units in this area; however we would like to ask that you take our concerns into consideration in the case that other residents of the court have similar concerns or apprehensions.

Kind regards, Stephen Hadjistefanis & Madelyn Van Gelderen

### Attachment to accompany Objections to Planning Permit for No. 9 Tintern Place Traralgon

#### Reasons for Objections

I believe that there may not be adequate provisions made in this development for parking for resident and visitor vehicles. (as outlined in Res Code 55.03-10 which states 'To provide convenient parking for resident and visitor vehicles.

A development of this magnitude has the ability to require at least six car spaces for each of the three three bedroom dwellings located on the one allotment, when you consider that three couples are capable of residing at each of the three three bedroom dwellings. Provision for parking is at most two car spaces per dwelling. If two or more than two car owners reside at each dwelling, there is no provision for visitor parking at all. I question whether this requirement is being met in the proposed plan.

The development is located approximately .8 kilometre from the closest bus stops, one being an uphill trek to Cross's Road, the other being in Bradman Boulevard reached by walking across an unpaved reserve. The Post Office is approximately three kilometres from the development. The nearest convenience store is located 2.6 kilometres away at West End Store and the closest supermarket, Woolworths is a distance of 2.8 kilometres.

It is likely therefore, that residents of this proposed development would need to have their own vehicles.

I feel that due to the potential for greater numbers of people to be residing/visiting this one allotment, there is likely to be the following situation with regard to traffic/and car parking.

Increased traffic volumes/flows in a tight cul de sac would lead to congestion.

Additional traffic flows and congestion due to cars parked in the street will endanger children, other pedestrians, cyclists and motorists.

Additional vehicles parking on an already narrow carriageway will reduce access.

Access for emergency vehicles may be restricted because of extra vehicles parked in the street.

Garbage bin collection times could prove problematic due to roadways clogged with parked cars. There has already been a tragic death of a child during garbage collection in a court location in Traraigon.

Additional vehicular crossovers will be a pedestrian hazard.

Additional vehicles illegally parked on nature strips will contribute to a deterioration of those nature strips.

There is potential for additional noise pollution.

Vehicles parked on the street/nature strip are likely to encourage an increase in crime in the area because of their easy access to criminals. Recently there have been windows of a vehicles smashed while parked outside nearby 101 St Georges Road because of the fact that residents of this block of units are unable to park their vehicles off the street due to insufficient off street parking allocation.

When driving along the northern end of St Georges Road Traraigon outside the three unit development located at 101 St Georges Road, there is frequently several cars parked on either side of the road and on the nature strip making it a very narrow carriageway accommodating barely one vehicle at a time.

I feel that the proposed multiple dwelling development is against the neighbourhood character of the street. Res Code 55.02-1 states: To ensure the design respects the existing neighbourhood character or contributes to a preferred neighbourhood character. Currently there are six dwellings each on a single allotment under construction in Tintern Place. I know of another three proposed homes planned to be constructed on single allotments in Tintern Place. The established neighbourhood character of Tintern Place is thus that of single dwellings per allotment. There are currently no multiple dwelling per allotment developments in Tintern Place.

Multi dwelling per allotment developments frequently attract tenants who may not take pride in their homes, may be noisy and undermine the general tone of the neighbourhood. There is often a frequent turnover of occupiers in these types of developments.

I was looking forward to building a nice home and making a safe home for my family in a quiet court location. The extra traffic, congestion from parked cars and uncertainty of who may be living in the neighbourhood in the three dwellings proposed for No 9 concerns me.

## How will I be affected

I feel I could be affected as outlined in the objections listed above regarding safety, increased traffic flow, reduced access, congestion, noise and a departure from the established neighbourhood character.

I feel that unitised and multi dwelling per allotment residential developments often devalues properties in the surrounding area so I am concerned that my property will be worth less because of the development. I am putting a lot of money and resources into establishing a home in this area and I fear that the proposed development may have a negative effect on my property value.

I was looking forward to a stable residential environment in Tintern Place where families would take pride of ownership in that environment without the constant turnover of residents that often occur with multi dwelling per allotment settlement. I am concerned that should the development go ahead this may no longer be the case.

## Attachment to accompany Objections to Planning Permit for No. 9 Tintern Place Traralgon

#### Reasons for Objections

I believe that there may not be adequate provisions made in this development for parking for resident and visitor vehicles. (as outlined in Res Code 55.03-10 which states 'To provide convenient parking for resident and visitor vehicles.

A development of this magnitude has the ability to require at least six car spaces for each of the three three bedroom dwellings located on the one allotment, when you consider that three couples are capable of residing at each of the three three bedroom dwellings. Provision for parking is at most two car spaces per dwelling. If two or more than two car owners reside at each dwelling, there is no provision for visitor parking at all. I question whether this requirement is being met in the proposed plan.

The development is located approximately .8 kilometre from the closest bus stops, one being an uphill trek to Cross's Road, the other being in Bradman Boulevard reached by walking across an unpaved reserve. The Post Office is approximately three kilometres from the development. The nearest convenience store is located 2.6 kilometres away at West End Store and the closest supermarket, Woolworths is a distance of 2.8 kilometres.

It is likely therefore, that residents of this proposed development would need to have their own vehicles.

I feel that due to the potential for greater numbers of people to be residing/visiting this one allotment, there is likely to be the following situation with regard to traffic/and car parking.

Increased traffic volumes/flows in a tight cul de sac would lead to congestion.

Additional traffic flows and congestion due to cars parked in the street will endanger children, other pedestrians, cyclists and motorists.

Additional vehicles parking on an already narrow carriageway will reduce access.

Access for emergency vehicles may be restricted because of extra vehicles parked in the street.

Garbage bin collection times could prove problematic due to roadways clogged with parked cars. There has already been a tragic death of a child during garbage collection in a court location in Traralgon.

Additional vehicular crossovers will be a pedestrian hazard.

Additional vehicles illegally parked on nature strips will contribute to a deterioration of those nature strips.

There is potential for additional noise pollution.

Vehicles parked on the street/nature strip are likely to encourage an increase in crime in the area because of their easy access to criminals. Recently there have been windows of a vehicles smashed while parked outside nearby 101 St Georges Road because of the fact that residents of this block of units are unable to park their vehicles off the street due to insufficient off street parking allocation.

When driving along the northern end of St Georges Road Traralgon outside the three unit development located at 101 St Georges Road, there is frequently several cars parked on either side of the road and on the nature strip making it a very narrow carriageway accommodating barely one vehicle at a time.

I feel that the proposed multiple dwelling development is against the neighbourhood character of the street. Res Code 55.02-1 states: To ensure the design respects the existing neighbourhood character or contributes to a preferred neighbourhood character. Currently there are six dwellings each on a single allotment under construction in Tintern Place. I know of another three proposed homes planned to be constructed on single allotments in Tintern Place. The established neighbourhood character of Tintern Place is thus that of single dwellings per allotment. There are currently no multiple dwelling per allotment developments in Tintern Place.

Multi dwelling per allotment developments frequently attract tenants who may not take pride in their homes, may be noisy and undermine the general tone of the neighbourhood. There is often a frequent turnover of occupiers in these types of developments.

I was looking forward to building a nice home and making a safe home for my family in a quiet court location. The extra traffic, congestion from parked cars and uncertainty of who may be living in the neighbourhood in the three dwellings proposed for No 9 concerns me.

#### How will I be affected

I feel I could be affected as outlined in the objections listed above regarding safety, increased traffic flow, reduced access, congestion, noise and a departure from the established neighbourhood character.

I feel that unitised and multi dwelling per allotment residential developments often devalues properties in the surrounding area so I am concerned that my property will be worth less because of the development. I am putting a lot of money and resources into establishing a home in this area and I fear that the proposed development may have a negative effect on my property value.

I was looking forward to a stable residential environment in Tintern Place where families would take pride of ownership in that environment without the constant turnover of residents that often occur with multi dwelling per allotment settlement. I am concerned that should the development go ahead this may no longer be the case.

#### Attachment to accompany Objections to Planning Permits for Nos 9 Place Traraigon

#### Reasons for Objections

I believe that there may not be adequate provisions made in this development for parking for resident and visitor vehicles. (as outlined in Res Code 55.03-10 which states **To provide convenient parking for resident and visitor vehicles**.

A development of this magnitude has the ability to require at least six car spaces for each of the three three bedroom units, when you consider that three couples are capable of residing at each three bedroom units. Provision for parking is at most two car spaces per unit. If two car owners reside at each unit, there is no provision for visitor parking at all. I question whether this requirement is being met in the proposed plan.

The development is located approximately .8 kilometre from the closest bus stops, one being in Crosses Road, the other being in Bradman Boulevard. One has to walk over an unpaved reserve to reach the later. The Post Office is approximately three kilometres from the development. The nearest convenience store is located 2.6 kilometres away at West End Store and Safeway is 2.8 kilometres.

It is likely therefore, that residents of this proposed development would need to have their own vehicles.

I feel that due to the potential for greater numbers of people to be residing/visiting this one allotment that there is likely to be the following situation with regard to traffic/and car parking.

Increased traffic volumes/flows in a tight cul de sac would lead to congestion.

Additional vehicles illegally parked on nature strips will contribute to a deterioration of those nature strips.

Additional vehicles parking on an already narrow carriageway will reduce access.

Access for emergency vehicles may be restricted because of extra vehicles parked in the street.

Garbage bin collection times could prove problematic due to roadways clogged with parked cars.

Additional traffic flows and congestion due to cars parked in the street will endanger children, other pedestrians, cyclists and motorists.

There is potential for additional noise pollution.

Additional vehicular crossovers will be a pedestrian hazard.

Vehicles parked on the street/nature strip are likely to encourage an increase in crime in the area because of their easy access to criminals. Recently there was a window of a vehicle smashed parked outside nearby 101 St Georges Road because of the fact that residents of this block of units are unable to park their vehicles off the street due to insufficient off street parking allocation.

When driving along nearby St Georges Road outside the three unit development located there at 101 St Georges Road, there is frequently several cars parked on either side of the road and on the nature strip making it a very narrow carriageway.

I feel that the proposed multiple dwelling developments are against the neighbourhood character of the street. Currently there are six dwellings each on a single allotment under construction in Tintern Place. I know of another three proposed homes planned to be constructed on single allotments in Tintern Place. The established neighbourhood character is thus that of single dwellings per allotment.

Unit developments frequently attract tenants who may not take pride in their homes, may be noisy and undermine the general tone of the neighbourhood. There is often a frequent turnover of occupiers in unitised developments.

I was looking forward to building a nice home and making a safe home for my family in a quiet court location. The extra traffic, congestion from parked cars and uncertainty of who may be living in the neighbourhood in the units proposed for No 9 are a concern to me.

# How will I be affected?

I was looking forward to a stable residential environment in Tintern Place where families would take ownership of that environment without the constant turnover of residents that often occur with unit settlement. I am concerned that should the development go ahead this may no longer be the case.

I feel that unitised and multi dwelling per allotment residential developments devalues properties in the surrounding area so I am concerned that my property will be worth less because of the development.

Along with the all objections listed above regarding neighbourhood character, traffic, noise, congestion and safety I feel that I could be adversely affected should the proposed development proceed.

I strongly oppose the proposed development at 9 Tintern Place.

Daniel Bloss 12/11 Gariel Bloss

# 16.4 DECEMBER 2012 QUARTERLY FINANCIAL AND PERFORMANCE REPORT

**General Manager** 

Governance

For Information

# **PURPOSE**

The purpose of this report is to present the December 2012 quarterly Financial and Performance Report to Council.

# **DECLARATION OF INTEREST**

No officer declared an interest under the Local Government Act 1989 in the preparation of this report.

# STRATEGIC FRAMEWORK

This report is consistent with Latrobe 2026: The Community Vision for Latrobe Valley and the Latrobe City Council Plan 2012-2016.

# Latrobe 2026: The Community Vision for Latrobe Valley

Strategic Objectives – Governance

In 2026, Latrobe Valley has a reputation for conscientious leadership and governance, strengthened by an informed and engaged community, committed to enriching local decision making.

# Latrobe City Council Plan 2012 - 2016

Strategic Direction - Governance

Provide timely, effective and accessible information about Latrobe City Council's activities.

Ensure that Latrobe City Council continues to meet the highest standards of financial probity.

Legislation -

Local Government Act 1989

# **BACKGROUND**

Under the provisions of the Local Government Act 1989 Section 138 (1), at least every three months, the Chief Executive Officer must ensure that a statement comparing the budgeted revenue and expenditure to date is presented to Council. This report ensures compliance with this legislative requirement.

The attached report as at 31 December 2012 is provided for the information of Council and the community. The financial report compares budgeted income and expenditure with actual results for the first six months of the financial year. A status report on the Key Strategic Activities, adopted in the 2012/2013 budget is also attached.

# **ISSUES**

The attached report, "Income Statement", shows the actual result for the six months ended 31 December 2012 compared with the budgeted year to date result. The report also provides a forecast for the full year financial result compared to the budgeted full year financial result.

Overall the report is showing an unfavourable year to date variance of \$0.216M. This mainly consists of an unfavourable year to date income variance of \$1.869M resulting from the following factors;

- Operating grants and contributions (\$3.599M unfavourable) due to Victoria Grants Commission allocations for 2012/2013 being advanced to Council in June 2012 and therefore recognised in the 2011/2012 carry forward surplus.
- User fees and charges (\$0.726M unfavourable) mainly as a result of lower than expected landfill gate fees due to reduced levels of commercial/industrial waste received together with lower utilisation of child care services than anticipated in the budget.

These unfavourable income variances have been partially offset by favourable variances in the other income categories.

The report also shows a favourable variance of \$2.085M in expenditure mainly as a result of the following factor;

- Depreciation and amortisation (\$1.332M) principally relating to the new landfill cell which was expected in the budget to open in the 2011/2012 financial year. Due to the later timing of the opening of the new cell no depreciation has been calculated to date for the 2012/13 financial year.
- Materials and Services (\$0.632M) principally relating to project and program expenditure that will be incurred later than anticipated in the budget.

The "Income Statement" report forecasts a deficit result for the full financial year of \$4.523M which is an unfavourable variance of \$7.094M to the original budget. The main contributing factors are reduced grant revenue and additional recurrent program expenditure relating to surplus funds generated in previous years. The 2011/2012 financial year surplus was \$9.2M greater than the Adopted Budget (excluding the accrued expense for the defined benefits superannuation liability which will be funded in 2013/14) mainly due to a combination of government grants received in advance and other unspent project and program funding required to be carried forward for completion in 2012/2013. There is expected to be no significant variance in the 2012/2013 cash flow statement. More detailed explanations of all variances are included in the attached report.

# FINANCIAL, RISK AND RESOURCES IMPLICATIONS

Risk has been considered as part of this report and it is considered to be consistent with the Risk Management Plan 2011-2014.

This report assists in ensuring legislative requirements are met.

The attached report provides details of budget variances for the six months to 31 December 2012 and the forecasted full financial year.

# **INTERNAL/EXTERNAL CONSULTATION**

There has been no consultation in the preparation of this report.

# **OPTIONS**

The requirement to report on financial and key strategic actions quarterly is a statutory requirement, therefore the options that exist are:

- 1. Council receives and notes the financial and performance report for the quarter ending 31 December 2012, in accordance with the Local Government Act 1989; or
- 2. Council does not accept the report; or
- 3. Council seeks additional information.

# **CONCLUSION**

The attached report provides financial details, as required by the Local Government Act 1989. The report indicates that Council is operating within the parameters of its 2012/2013 adopted budget. Variances arising from the timing of the receipt of grant revenues and the carry over of incomplete 2011/2012 recurrent and capital works programs to be completed in 2012/2013 have resulted in a forecasted operating deficit for the full financial year. This reduction is fully offset and largely a result of the additional surplus achieved in the 2011/2012 financial year.

### **Attachments**

- 1. December Quarterly Finance Report
  - 2. December Quarterly KSA Report

## RECOMMENDATION

That Council receives and notes the financial and performance reports for the six months ended 31 December 2012, in accordance with the Local Government Act 1989.

Moved: Cr White Seconded: Cr Rossiter

That the Recommendation be adopted.

**CARRIED UNANIMOUSLY**

#### NOTES TO THE INCOME STATEMENT - Year to Date and Full Year Variances

#### 1. Rates

#### Year to Date - \$176K Favourable

The year to date favourable variance is primarily a result of additional general rates and garbage charge services due to the growth being greater than anticipated in the budget.

#### Full Year - \$54K Favourable

The full year favourable variance is forecasted mainly due to the additional general rates and garbage charges growth being in excess of what was anticipated in the adopted budget and after taking into consideration potential abandonments relating to valuation objections.

#### 2. Operating grants and contributions

#### Year to Date - \$3.599M Unfavourable

The year to date variance of \$3.599M is mainly due to the Grants Commission first instalment being received in the 2011/2012 financial year this is partially offset by additional grant funding received for some programs including Community Development projects and Vic Health Be Active together with monthly instalments that were expected in January for Preschool and HACC Services have been received late December.

#### Full Year - \$3.055M Unfavourable

The full year variance is mainly due to the first instalment (\$5.869M) for 2012/2013 Grants Commission allocations being received in the 2011/2012 financial year. This has been partially offset by funds for Community Development projects (\$740K), Preschools (\$610K), Vic Health Be Active Program (\$331K), Boolarra Multi Purpose Centre refurbishment (\$325K), Moe outdoor pool upgrade (\$248K) and Accelerated Business Growth & SME Support (\$158K).

#### 3. Capital Grants and Contributions

#### Year to Date - \$517M Favourable

The year to date variance is mainly due to project funding that was expected to be received in 2011/12 but was received in 2012/13 for Latrobe Regional Airport Facilities Expansion (\$500K) and Road Rehabilitation Program - Quigley Street Morwell (\$140K), funding for the Franklin Street Bridge has been received earlier than anticipated in the budget (\$375K) and new funding received for Growing Aerospace Manufacturing (\$150K). This is largely offset by budgeted grant funds for the Moe Outdoor Pool upgrade which were advanced to Council in 2011/12 (\$600K) and the return of a 'Living Libraries Program' grant 2009 (\$160K).

#### Full Year - \$690K Favourable

The full year variance is made up by some project funding that was expected to be received in 2011/12 but was received in 2012/13 for Latrobe Regional Airport Facilities Expansion (\$500K) and Road Rehabilitation Program - Quigley Street Morwell (\$140K), together with Growing Aerospace Manufacturing at LRA funding (\$785) and VicRoads blackspot funding for safety improvement works not included in the budget (\$415K). This is partially offset by budgeted grant funds for the Moe Outdoor Pool upgrade which were advanced to Council in 2011/12 (\$570K) and Return of 'Living Libraries Program' grant 2009 (\$160K).

#### 4. Interest

#### Year to Date - \$428K Favourable

The year to date favourable variance of \$428K is a result of greater than expected funds available for investing together with favourable interest rates.

#### Full Year - \$230K Favourable

The full year favourable variance of \$230K is a result of greater than expected funds available for investing together with favourable interest rates.

#### 5. User fees and charges

#### Year to Date - \$726K Unfavourable

The unfavourable variance is mainly a result of a decrease in Landfill gate fees due to reduced levels of commercial/industrial waste received, together with lower than anticipated Child Care fees as a result of lower than expected utilisation rates and ability to fill Family Day Carer positions. Parking infringements are also less than anticipated as a result of the move to two hour limits. Some slightly better than expected results have been achieved to date in Subdivision supervision fees and Building Approvals.

#### Full Year - \$1.644M Unfavourable

The unfavourable variance is largely a result of an expected decrease in Landfill gate fees of (\$1.409M) due to reduced levels of commercial/industrial waste, together with less than expected income from child care fees and parking infringements.

#### 6. Other Income

#### Year to Date - \$19K Unfavourable

A minor unfavourable variance mainly relating to the timing of receipt of sponsorship and other contributions.

#### Full Year - \$164K Favourable

The full year variance is mainly due to external contributions for the Gippsland Regional Plan Policy & Strategy Project (\$50K) which was not budgeted for and reimbursements of \$43K for Moe Underground Power Line project, along with other minor variances predicted across the organisation.

#### 7. Developer Contributions

#### Year to Date - \$358K Favourable

The year to date favourable variance is mainly related to Development Plan Contributions for Heritage Boulevard Estate, together with greater than expected Drainage Headworks and Street Tree contributions.

#### Full Year - \$350K Favourable

The full year favourable variance is mainly related to Development Plan Contributions for Heritage Boulevard Estate, together with greater than expected Drainage Headworks and Street Tree contributions.

#### 8. Developer Contributed assets

#### Year to Date - \$986K Favourable

The year to date favourable variance is due to the early than anticipated receipt of developer contributed reserves land e.g. Heritage Boulevard Morwell

#### Full Year - \$Nil

No full year variance.

#### 9. Net gain (loss) on disposal of property, infrastructure and equipment

#### Year to Date - \$9K Favourable

Minor variance.

#### Full Year - \$Nil

No full year variance.

#### 10. Employee costs

#### Year to Date - \$102K Favourable

The favourable variance is largely due to a number of vacant staffing positions during the first half of the financial year.

#### Full Year - \$325K Unfavourable

The unfavourable variance is largely due to increases in workcover levy together with an increase of staffing required for HACC services and Social Inclusion which are fully offset by additional external/carry forward funding.

#### 11. Materials and services

#### Year to Date - \$632K Favourable

The favourable variance is mainly due to the timing in some project and program expenditure being later than anticipated.

#### Full Year - \$3.807M Unfavourable

The unfavourable full year variance reflects expenditure on a number of projects/programs that were funded from the 2011/2012 accumulated surplus due to them not being fully completed in the last financial year. Other contributing factors are expenditure on new externally funded programs and flood relief.

#### 12. Bad and Doubtful Debts

#### Year to Date - \$4K Favourable

Minor Variance

#### Full Year - \$6K Favourable

Minor Variance

#### 13. Finance costs

#### Year to Date - \$15K Favourable

The favourable variance is due to the interest rate obtained on the loan drawn down at the end of June 2012 being less than anticipated in the budget.

#### Full Year - \$31K Favourable

The favourable variance is due to the interest rate obtained on the loan drawn down at the end of June 2012 being less than anticipated in the budget.

#### 14. Depreciation

#### Year to Date - \$1.332M Favourable

The favourable variance is mainly due to the delay in completion of the landfill cell 3 which was expected in the budget to open in the 2011/2012 financial year. Due to the later timing of the opening of the new cell no depreciation has been calculated to date in 2012/2013.

#### Full Year - \$Nil

The favourable variance is mainly due to the delay in completion of the landfill cell 3 which was expected in the budget to open in the 2011/2012 financial year. Due to the later timing of the opening of the new cell no depreciation has been calculated to date in 2012/2013.

Cash at the End of the Period		30,769	16,744	21,072

^{1.} The budgeted cash at the beginning of the year was based on \$7.698M of the 2011/2012 capital works program being incomplete at 30 June 2012. The actual amount of incomplete capital works and capital grants received in advance was \$13.037M. This additional \$5.339M together with additional advance funding and incomplete operational projects from 2011/2012 of \$9.667M are the principal factors contributing to the significant variance in the opening cash balance.

# FINANCIAL RATIOS AS AT 31 DECEMBER 2012

	Year to Date Ratios						
	\$'000s	Ratio at 31/12/12	Ratio at 30/09/12	Ratio at 30/09/11	Forecast at 30/06/13	Budget at 30/06/13	Prudential Guidelines
Debt Servicing Ratio (to identify the capacity of Latrobe City Council to service its outstanding debt)  Debt Servicing Costs Total Revenue  Debt servicing costs refer to the payment of interest on loan borrowings, finance lease, and bank overdraft.  The ratio expresses the amount of interest paid as a percentage of Latrobe City Council's total revenue.	571 83,921	- 0.68%	0.40%	0.48%	1.01%	1.01%	Less than 5%
Debt Commitment Ratio (to identify Latrobe City Council's debt redemption strategy)  Debt Servicing & Redemption Costs Rate Revenue  The strategy involves the payment of loan principal and interest, finance lease principal and interest.  The ratio expresses the percentage of rate revenue utilised to pay interest and redeem debt principal.	2,116 62,654	- 3.38%	1.69%	1.73%	6.75%	6.78%	No guidelines for this ratio
Indebtedness Ratio (to ensure Council has the ability to pay its long term debts & provisions)  Non Current Liabilities Own Source Revenue  Compares Council's long term debt (loans & other non-current liabilities) to its own source revenue (ie. Rates, user charges, other income) which is used to gain a general idea as to Council's ability to meet its debts.  The ratio expresses the percentage of own source revenue required to meet long term debts.	36,350 70,023	- 51.91%	55.11%	51.09%	42.09%	31.97%	No guidelines for this ratio

Debt Exposure Ratio							
(to identify Latrobe City Council's exposure to debt)							
<u>Total Indebtedness</u> Total Realisable Assets	53,136 429,904	12.36%	11.90%	10.49%	14.56%	15.93%	Less than 150%
For the purpose of the calculation of financial ratios, realisable assets are those assets which can be sold and which are not subject to any restriction on realisation or use.							
Any liability represented by a restricted asset is excluded from total indebtedness.							
The following assets are excluded from total assets when calculating Council's realisable assets: Land and buildings on Crown land; restricted assets; heritage assets and total infrastructure assets.							
The ratio enables assessment of Council's solvency and exposure to debt. Total indebtedness refers to the total liabilities of Council. Total liabilities are compared to total realisable assets which are all Council assets not subject to any restriction and are able to be realised. The ratio expresses the percentage to total liabilities for each dollar of realisable assets.	1						
Operating Revenue Ratio							
(to identify Latrobe City Council's dependence on non-rate income)							
<u>Rate Revenue</u> Total Revenue	62,654 83,921	74.66%	83.31%	87.04%	58.13%	56.40%	No guidelines for this ratio
The level of Latrobe City Council's reliance on rate revenue is determined by assessing rate revenue as a proportion of the total revenue.							
Liquidity Ratio (Working Capital)							
(to assess Latrobe City Council's ability to meet current commitments)							
<u>Current Assets</u> Current Liabilities	76,460 16,786	4.55:1	5.54:1	6.08:1	1.20:1	1.20:1	Greater than 1:1
The ratio expresses the level of current assets the Council has available to meet its current liabilities.							
Adjusted Liquidity Ratio							
(to assess Latrobe City Council's ability to meet current commitments)	)						
<u>Current Assets</u> Current Liabilities	76,460 10,898	7.02:1	8.42:1	9.07:1	1.60:1	1.46:1	No guidelines for this ratio
The ratio expresses the level of current assets the Council has available to meet its adjusted current liabilities.							
Current liabilities have been reduced to reflect the long service leave that is shown as a current liability because Council does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date, but is not likely to fall due within 12 months after the end of the period.							

	Year to Date Ratios						Ĭ .
	\$'000s	Ratio at 31/12/12	Ratio at 30/09/12	Ratio at 30/09/11	Forecast at 30/06/13	Budget at 30/06/13	Prudential Guidelines
Infrastructure Renewal Gap Ratio (to ensure the community's infrastructure assets don't become run down)  Infrastructure Renewal Expenditure Infrastructure Depreciation  Compares the renewal expenditure on existing infrastructure assets (e.g. roads, drains, footpaths, buildings, etc.) to the dollar value of the asset that has been used up in that year (depreciation).  Target of 100% indicates that spending on existing assets is equal to their consumption.	4,107 7,296	- 56.29%	30.36%	36.85%	110.41%	101.17%	Greater than 100%
Underlying Result Ratio (To ensure enough revenue is raised to maintain the existing assets base and fund recurrent services. We don't rely on capital grants to run the basic business of Council.)  Adjusted net Surplus/(Deficit) Adjusted underlying revenue  Determines if each year Council is raising enough revenue to cover operating costs & asset renewal costs of the existing asset base.  The ratio takes out the effect of once off capital grants & developer contributions.  Note: The forecasted negative ratio of 12.41% reflects the operating deficit that is now projected in the 'Standard Income Statement' and is mainly a result of the early receipt of 2012/2013 grant revenue and unspent 2011/2012 recurrent project and program expenditure which led to a greater than expected surplus result in the 2011/2012 financial year.	31,508 81,265	- 38.77%	66.86%	66.03%	(12.65%)	(4.10%)	Greater than 0%

#### Notes:

#### 1. Roads / Paths / Bridges and Carparks

The forecast increase in expenditure of \$4.367M relates mainly to advanced flood recovery works grant funds, together with road rehabilitation projects that have been carried over from the previous year for completion in the 2012/2013 financial year. Council has also received funding approval for two new traffic safety improvement projects under the Vic Roads Blackspot safety program.

#### 2. Drainage

The forecast additional expenditure of \$75K relates to drainage works at Alamere Drive Traralgon that are funded from developer contributions reserves.

#### 3. Land, Buildings and Improvements

The forecast additional expenditure is mainly due to an additional grant received for the Moe Outdoor Pool Redevelopment project together with project funding carried forward from the previous financial year.

#### 4. Plant and Equipment

The forecast additional expenditure of \$365K relates to funds carried forward from 2011/2012 for plant and vehicle purchases that were ordered in the previous year but delivery did not occur until the 2012/2013 financial year.

#### 5. Furniture and Equipment

The forecast additional expenditure of \$356K relates mainly to IT equipment and the implementation of a new telephone system, together with new CCTV at Seymour Street Carpark and a fire hydrant system at Moe Gardens Caravan Park all to be funded from funds carried over from previous years together with capital items funded from the recurrent budget.

# 6. Playgrounds, Skate Parks & BMX Tracks

It is expected that the end of year result will be in line with the adopted budget.

#### 7. Artworks

It is expected that the end of year result will be in line with the adopted budget.

#### 8. Landfill Cell Construction

The forecast reduction in expenditure of \$340K is a result of funds allocated in the 2012/13 budget for future landfill cell construction (\$1.5M) that will be carried forward to expend in future years, partially offset by ongoing works on cell 3 that have been funded with carry forward monies and savings found within the waste budget.

#### 9. Renewa

The forecast additional expenditure of \$2.883M relates mainly to funding carried forward from 2011/2012 for projects still in progress as at 30 June 2012. The most significant of these is the funds received for flood recovery works together with road rehabilitation projects delayed due to weather and planning factors.

#### 10. New Assets

The forecast additional expenditure of \$853K relates mainly to additional carried forward funding from 2011/2012 for projects still in progress as at 30 June 2012 including, Hyland Highway cell 3 construction, Moe Railway Precinct Revitalisation Plan, Coalville Road Moe Pedestrian Link and the Churchill Activity Centre Plan.

#### 11. Asset expansion/upgrade

The forecast additional expenditure of \$1.592M relates mainly to additional carried forward funding from 2011/2012 for projects still in progress as at 30 June 2012 including, Latrobe Regional Airport facilities expansion and Franklin Street Bridge upgrade together with additional funding received for the Vic Roads Blackspot safety program and Latrobe Regional Airport.

#### Assembly of Councillors Record Explanation / Guide Notes

Required pursuant to the Local Government Act 1989 as amended.

#### 1. Section 80A requirements (re: Written Record to be made by Council staff member):

Amendments to the Local Government Act 1989 (Section 80A), operative from 2 December 2008 now stipulate:

"At an assembly of Councillors, the Chief Executive Officer must ensure that a written record is kept of:

- the names of all Councillors and members of Council staff attending;
- the matters considered;
- any conflict of interest disclosures made by a Councillor attending under subsection (3);
- whether a Councillor who has disclosed a conflict of interest as required by subsection (3) leaves the assembly."

The above required information is:

- to be reported to an Ordinary meeting of the Council; and
- incorporated in the minutes of that Ordinary meeting.

#### 2. Section 76AA definition:

"Assembly of Councillors (however titled, e.g: meeting / inspection / consultation etc) is a meeting of an advisory committee of the Council, if at least one Councillor is present, or a planned or scheduled meeting of at least half of the Councillors and one member of staff which considers matters that are intended or likely to be:

- The subject of a decision of the Council: or
- Subject to the exercise of a function, duty or power of the Council that has been delegated to a person or committee.

#### **Brief Explanation:**

Some examples of an Assembly of Councillors will include:

- Councillor Briefings;
- on site inspections, generally meetings re: any matters;
- meetings with residents, developers, other clients of Council, consultations;
- meetings with local organisations, Government Departments, statutory authorities (e.g. VicRoads, etc);

providing at least 5 Councillors and 1 Council staff member are present and the matter/s considered are intended or likely to be subject of a future decision by the Council OR an officer decision under delegated authority. Effectively it is probable, that any meeting of at least 5 Councillors and 1 Council staff member will come under the new requirements as the assembly will in most cases be considering a matter which will come before Council or be the subject of a delegated officer's decision at some later time. If you require further clarification, please call the Manager Council Operations – Legal Counsel.

**Please note:** an Advisory Committee meeting requires only one Councillor to be in attendance. An advisory committee is defined as any committee established by the Council, other than a special committee, that provides advice to:

- the Council; or
- a special committee; or
- a member of Council staff who has been delegated a power, duty or function of the Council under section 98.

#### 3. Section 80A and 80B requirements (re: Conflict of Interest):

Councillors and officers attending an Assembly of Councillors must disclose any conflict of interest.

"If a Councillor attending an Assembly of Councillors knows, or would reasonably be expected to know, that a matter being considered by the assembly is a matter that, were the matter to be considered and decided by Council, the Councillor would have to disclose a conflict of interest under section 79, the Councillor must disclose either:

- (a) immediately before the matter in relation to the conflict is considered; or
- (b) if the Councillor realises that he/she has a conflict of interest after consideration of the matter has begun, as soon as the Councillor becomes aware of the conflict of interest, leave the assembly whilst the matter is being considered by the assembly."

#### Section 80B

A member of Council staff who has a conflict of interest (direct or indirect) in a matter in which they have a delegated power, duty or function must:

- not exercise the power or discharge the duty or function;
- disclose the type of interest and nature of interest to the in writing to the Chief Executive Officer as soon as he/she becomes aware of the conflict of interest. In the instance of the Chief Executive Officer having a pecuniary interest, disclosure in writing shall be made to the Mayor.
